Levoit Classic 300S

LEVOIT Classic 300S Smart Humidifier User Manual

Model: Classic 300S

INTRODUCTION

The LEVOIT Classic 300S is a smart top-fill cool mist humidifier designed to maintain optimal humidity levels in your environment. Featuring a large 6-liter water tank, it is suitable for rooms up to 47 square meters and can operate for up to 60 hours. This humidifier includes an automatic mode, quiet sleep mode, and smart control capabilities via the VeSync app, Amazon Alexa, and Google Home. Its user-friendly design ensures easy operation and maintenance.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or other injury, always follow basic safety precautions when using this appliance.

- Read all instructions before use.
- Do not place the humidifier near heat sources or in direct sunlight.
- Always place the humidifier on a firm, flat, water-resistant surface.
- Do not immerse the base in water or other liquids.
- Unplug the humidifier before cleaning or refilling.
- Do not use attachments not recommended by the manufacturer.

- Keep out of reach of children and pets.
- Do not block air vents.
- Use only clean, cool tap water or distilled water.
- Do not add essential oils directly into the water tank; use the designated aroma box.

PRODUCT OVERVIEW

Familiarize yourself with the components of your LEVOIT Classic 300S humidifier.

- **Water Tank:** 6-liter capacity, top-fill design for easy refilling.
- **Mist Nozzle:** 360° rotatable for directing mist.
- **Base:** Contains the ultrasonic atomizer and control panel.
- **Control Panel:** LED display with touch controls for power, mode, mist level, and timer.
- **Aroma Box:** Separate compartment for essential oils.
- **Humidity Sensor:** Monitors room humidity in real-time.

SETUP

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable surface.
2. **Placement:** Position the humidifier in a location where the mist can disperse freely, away from walls, furniture, and electronics. Ensure it is on a water-resistant surface.
3. **Fill Water Tank:** Remove the lid and fill the water tank directly from the top with clean, cool tap water or distilled water. Do not exceed the maximum water line indicated inside the tank.
4. **Connect Power:** Plug the power cord into a suitable electrical outlet (220V).
5. **Initial Power On:** Press the power button on the control panel to turn on the humidifier.

OPERATING INSTRUCTIONS

Control Panel Functions

- **Power Button:** Turns the humidifier on or off.
- **Mist Level Button:** Adjusts the mist output level (low, medium, high).
- **Mode Button:** Cycles through Auto Mode and Sleep Mode.
- **Timer Button:** Sets an operating timer.
- **LED Display:** Shows current humidity, mist level, and mode.

Modes of Operation

- **Auto Mode:** The humidifier automatically adjusts mist output based on the room's real-time humidity to maintain a comfortable level.
- **Sleep Mode:** Operates quietly with minimal light, ideal for nighttime use. The LED display can be turned off.

Smart Control (VeSync App, Alexa, Google Home)

Download the free VeSync app to control your humidifier remotely. The app allows for advanced settings, scheduling, and voice control integration with Amazon Alexa and Google Home. Follow the in-app instructions for pairing your device.

Aroma Diffuser Function

To use essential oils, add a few drops to the designated aroma box located on the humidifier. Do not add essential oils

directly into the water tank, as this can damage the unit.

MAINTENANCE

Regular cleaning is essential to prevent mineral buildup and ensure optimal performance and hygiene.

1. **Daily Maintenance:**

   - Unplug the humidifier.
   - Empty any remaining water from the tank and base.
   - Rinse the tank and base with clean water.
   - Wipe dry with a soft cloth.

2. **Weekly Cleaning (Descaling):**

   - Unplug the humidifier.

- Empty all water.
- Pour 240 ml (1 cup) of distilled white vinegar into the water tank and base.
- Let it soak for 20 minutes.
- Use a soft brush (or the included cleaning brush) to gently clean mineral buildup from the atomizer and other components.
- Rinse all parts thoroughly with clean water until the vinegar smell is completely gone.
- Wipe all parts dry with a cloth. Ensure all parts are completely dry before reassembling or storing.

3. **Storage:** If storing for an extended period, clean the humidifier thoroughly as per weekly cleaning instructions, ensure all parts are dry, and store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	- Low water level - Mineral buildup on atomizer - Mist nozzle blocked	- Refill water tank. - Clean the atomizer with vinegar solution. - Ensure mist nozzle is clear.
Humidifier is leaking	- Overfilled water tank - Tank not seated correctly - Damaged seal	- Do not fill past the max line. - Ensure tank is properly aligned and seated. - Contact customer support if seal is damaged.
Inaccurate humidity readings	- Sensor obstructed or dirty - Humidifier placed too close to a wall/object	- Clean the sensor area. - Relocate the humidifier to an open space.
White dust around humidifier	Using hard water	Use distilled or demineralized water to reduce mineral output.
