Homemate 50"x60" Blue Striped Heated Electric Throw Blanket

USER MANUAL

1. Important Safety Instructions

Please read all instructions carefully before using your Homemate Heated Electric Throw Blanket. Failure to follow these instructions may result in fire, electric shock, or injury.

- **ETL Certified:** This heated blanket has passed the American safety UL964 Test and holds ETL Certification, ensuring compliance with safety standards.
- **Overheat Protection:** Equipped with NTC overheating protection technology to prevent the blanket from overheating and causing burns.
- **Lower Electromagnetic Radiation:** Designed with advanced technology from a Japanese company for stronger insulation and flame resistance, resulting in lower electromagnetic radiation.
- Do not use with infants, children, incapacitated persons, or anyone insensitive to heat.
- Do not use if the blanket is wet.
- Do not use with damaged cords or plugs.
- Do not fold, bunch, or crease the blanket while in use, as this can cause overheating.
- Always unplug the blanket when not in use or before cleaning.

KINDLY NOTE:

Please pay attention to reading the instructions and avoid improper operations, which can avoid safety problems and prolong the service life of the electric blanket.

Image: A woman sitting on a chair, covered with the blue striped heated blanket, reading a book. Text overlay reads: "KINDLY NOTE: Please pay attention to reading the instructions and avoid improper operations, which can avoid safety problems and prolong the service life of the electric blanket." This emphasizes the importance of following instructions for safety and product longevity.

2. Product Overview

The Homemate Heated Electric Throw Blanket provides warmth and comfort with advanced features and high-quality materials.

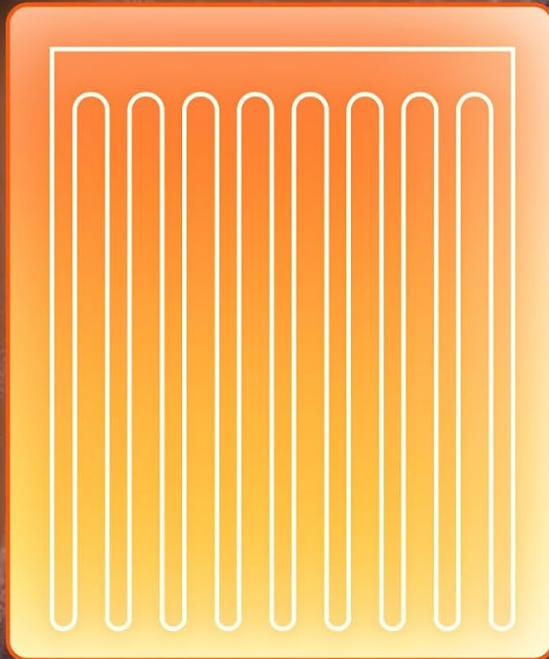

- **Premium Material:** Made from 220gsm flannel and 200gsm sherpa, offering a very soft, thicker, and warmer feel even without electricity. The fabric is durable and does not shed.
- **Larger Heating Area:** Features a longer heating wire for a larger and more uniform heat distribution across the blanket.
- **Energy Saving:** Utilizes intelligent temperature adjustment technology to adapt to the surrounding environment, providing consistent comfort and energy efficiency.

Small Heating Area

Image: A comparison showing the heating wire distribution. The Homemate blanket has a larger, more evenly distributed heating area compared to a generic blanket with a smaller heating area.

3. Setup

1. **Connect the Controller:** Locate the connector on the blanket and firmly attach the control cord.
2. **Plug into Power:** Insert the power plug into a standard 120V AC electrical outlet. Ensure the connection is secure.

Image: A two-step visual guide showing how to connect the controller cord to the blanket and then plug the power cord into a wall outlet.

4. Operating Instructions

Your Homemate Heated Electric Throw Blanket features an easy-to-use controller for personalized comfort.

- **Power On/Off:** Press the power button on the controller to turn the blanket on or off.
- **Adjust Heat Levels:** Use the temperature control buttons to select from 10 heat levels, ranging from 86°F to 122°F.
- **Set Auto-Off Timer:** Use the timer buttons to set the automatic shut-off feature for 1, 2, 4, 6, or 8 hours. This ensures safety and energy conservation.

Video: An official Homemate video demonstrating the features and operation of the heated blanket, including the controller settings and soft material.

5. Maintenance and Care

Proper care will extend the life of your heated blanket.

- **Machine Washable:** Always unplug the power cord from the blanket before washing. Wash in cold water (100°F / 30°C) on a gentle cycle.
- **Drying:** Tumble dry on low heat or line dry. Ensure the blanket is completely dry before reconnecting to power.
- **Do Not:** Dry clean, bleach, or iron the blanket.

Image: A woman is shown unplugging the power cord from the blanket and then placing it into a front-loading washing machine. Instructions for machine washing are visible.

6. Troubleshooting

If you experience issues with your Homemate Heated Electric Throw Blanket, please refer to the following common solutions:

- **Blanket Not Heating:** Ensure the power cord is securely plugged into both the blanket and the wall outlet. Check if the outlet is functional by plugging in another device.
- **Controller Display Not Working:** Unplug the blanket from the wall outlet for 5 minutes, then plug it back in. This may reset the controller.
- **Uneven Heating:** Ensure the blanket is laid flat and not folded or bunched during use.
- **Automatic Shut-Off Before Timer:** The blanket's NTC overheating protection may have activated. Allow the blanket to cool down completely before attempting to use it again.

If problems persist, please contact Homemate customer support.

7. Specifications

Brand	Homemate
Model Number	B0B5GJVPVV
Material	220gsm Flannel + 200gsm Sherpa
Color	Blue (Striped)
Size	50 Inch x 60 Inch
Heat Levels	10 (86°F - 122°F)
