COLAMY 2577F

COLAMY Ergonomic Mesh Office Chair User Manual

Model: 2577F

INTRODUCTION

Thank you for choosing the COLAMY Ergonomic Mesh Office Chair. This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your new chair. Designed for optimal comfort and support, this chair features a breathable mesh back, adjustable headrest, 4D flip-up armrests, adjustable lumbar support, and a retractable footrest to enhance your work or relaxation experience.

The COLAMY Ergonomic Mesh Office Chair, showcasing its full design and features.

KEY FEATURES

- **Multi-Functional Adjustments:** Features an adjustable headrest, 4D flip-up armrests, adjustable lumbar support, height adjustment, and a 3-position tilt lock.
- **Breathable Mesh:** High-quality, self-supporting mesh composite provides ventilated comfort and is rigorously tested for durability.
- **Adjustable Lumbar Support:** Curved back support with adjustable height to align with your natural spine curvature.
- **Tilt Lock & Height Control:** Maximum 120° tilt with 3 lock-in recline positions and adjustable tension. Seat height is also easily adjustable.
- **Solid Construction:** 360-degree swivel, heavy-duty nylon base, and smooth-rolling casters. BIFMA certified for reliability and sturdiness, supporting up to 275 lbs.
- **Retractable Footrest:** An integrated footrest that can be extended for added comfort during relaxation.

Ergonomic Office Chair

ASSEMBLY INSTRUCTIONS

Before assembly, ensure all parts are present and undamaged. It is recommended to assemble the chair on a soft, clean surface to prevent scratches. While specific step-by-step instructions are typically provided within the product packaging, the general assembly process involves:

1. **Base Assembly:** Insert the casters into the five-star base.
2. **Gas Lift Installation:** Place the gas lift cylinder into the center hole of the assembled base.
3. **Seat Mechanism Attachment:** Secure the seat mechanism to the underside of the seat cushion using the provided screws. Ensure the front of the mechanism aligns with the front of the seat.
4. **Backrest Attachment:** Attach the backrest to the seat mechanism using the designated screws.
5. **Armrest Installation:** Secure the armrests to the seat and/or backrest as per the design.

6. **Final Assembly:** Carefully place the assembled seat and backrest onto the gas lift cylinder.

7. **Headrest and Footrest:** Attach the headrest and ensure the retractable footrest is properly installed and functional.

For detailed, visual assembly steps, please refer to the instruction manual included in your product packaging.

OPERATING YOUR CHAIR

Your COLAMY Ergonomic Mesh Office Chair offers several adjustment options to customize your seating experience:

1. Seat Height Adjustment

To adjust the seat height, locate the lever on the right side under the seat. Pull the lever up while taking your weight off the chair to raise it. To lower the chair, pull the lever up while remaining seated. Release the lever at the desired height.

2. Tilt Lock and Tension Control

The same lever used for height adjustment also controls the tilt lock. Push the lever inwards to lock the backrest in one of the three available recline positions (90° working, 110° relaxing, 120° napping). Pull the lever outwards to unlock the tilt function, allowing the chair to recline freely. The tilt tension knob, located under the seat at the front, can be rotated clockwise to increase tension (making it harder to recline) or counter-clockwise to decrease tension (making it easier to recline).

2 IN 1 Tilt Lock & Height Adjustment System

The 2-in-1 lever for height and tilt lock, and the tilt tension knob for adjusting recline resistance.

3. 4D Flip-up Armrests

The armrests offer four dimensions of adjustment:

- **Height Adjustment:** Press the button on the side of the armrest and slide it up or down.
- **Forward and Backward:** Slide the armrest pad forward or backward.
- **Left and Right:** Slide the armrest pad left or right.
- **Rotation:** Rotate the armrest pad up to 45 degrees inwards or outwards.
- **Flip-up Function:** The armrests can be flipped up completely out of the way, allowing the chair to be pushed closer to a desk or for easier entry/exit.

Visual guide to the versatile 4D adjustments of the armrests, including the flip-up feature.

4. Adjustable Lumbar Support

The lumbar support can be adjusted vertically to provide optimal support for your lower back. Locate the adjustment mechanism on the back of the chair and slide it up or down to your preferred position.

5. Adjustable Headrest

The headrest can be adjusted in height and angle to support your head and neck comfortably. Simply push or pull the headrest to adjust its position.

6. Retractable Footrest

To use the footrest, pull it out from under the seat. It can be extended to a comfortable distance for leg support. Push it back in when not in use to store it neatly under the seat.

Reinforced Mesh Material

Waterfall seat cushion design, sedentary without tired.
Breathable mesh material provides optimal airflow
to avoid sweating and sticking.

The chair with its retractable footrest fully extended, providing additional comfort for reclining.

CARE AND MAINTENANCE

Proper care will extend the life and appearance of your COLAMY office chair:

- **Cleaning Mesh:** For general cleaning, use a soft cloth dampened with mild soap and water. Gently wipe the mesh and fabric surfaces. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning Frame:** Wipe down the plastic and metal components with a soft, damp cloth.
- **Caster Care:** Periodically check the casters for accumulated dust or hair and clean them to ensure smooth rolling.
- **Tighten Fasteners:** Over time, screws and bolts may loosen. Periodically check all fasteners and tighten them as needed to maintain stability and safety.
- **Avoid Overloading:** Do not exceed the maximum weight capacity of 275 lbs to prevent damage to the chair and potential injury.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading of the mesh and other materials.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Chair does not stay at desired height.	Gas lift cylinder is faulty or worn.	Contact customer support for a replacement gas lift.
Chair wobbles or feels unstable.	Loose screws or bolts; uneven floor.	Tighten all assembly screws. Ensure the chair is on a flat, even surface.
Casters do not roll smoothly.	Debris (hair, dust) caught in casters; damaged casters.	Clean debris from casters. If damaged, consider replacing them.
Backrest does not recline or lock.	Tilt lock mechanism is engaged or faulty.	Ensure the tilt lock lever is disengaged. Check if the mechanism is obstructed or damaged.
Lumbar support slides down.	Adjustment mechanism is loose or worn.	This can sometimes occur with adjustable lumbar supports. Ensure it is pushed firmly into place. If the issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	COLAMY
Model Name	2577F-Black
Color	2577-black
Product Dimensions (D x W x H)	26.18"D x 26.77"W x 49"H
