Safety Instructions

- Ensure the ice maker is placed on a stable, level surface away from direct sunlight or heat sources.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep out of reach of children. Adult supervision is required when the appliance is used by or near children.
- Use only potable water.
- Unplug the ice maker from the power outlet before cleaning or when not in use.

- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Ensure proper ventilation around the unit. Do not block any ventilation openings.

Product Overview

The Silonn Ice Maker is designed for ease of use and efficient ice production. It features a transparent lid for easy monitoring, a user-friendly control panel, and a self-cleaning function.

Key Features:

- **Fast Ice Making:** Produces 9 bullet-shaped ice cubes in just 6 minutes.
- **High Capacity:** Up to 26 pounds of ice production in 24 hours.
- **Two Ice Cube Sizes:** Select between small and large bullet-shaped ice cubes.
- **Quiet Operation:** Designed to make ice with minimal noise.
- **Self-Cleaning Function:** Simplifies maintenance and ensures hygiene.
- **Portable Design:** Compact size (12.3 x 8.7 x 12.6 inches) for easy placement and transport.

Figure 3: Product dimensions for placement reference.

Setup

1. **Unpacking:** Carefully remove the ice maker from its packaging. Remove all packing materials, including any tape or protective film.
2. **Placement:** Place the ice maker on a flat, stable, and level surface. Ensure there is adequate ventilation around the unit, at least 4 inches (10 cm) of space from walls or other appliances.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker. Refer to the 'Maintenance' section for detailed cleaning instructions.
4. **Resting Period:** After transport, allow the ice maker to stand upright for at least 24 hours before plugging it in. This allows the refrigerant to settle.
5. **Power Connection:** Plug the ice maker into a grounded electrical outlet.

Operating Instructions

1. **Add Water:** Open the transparent lid and remove the ice basket. Pour potable water into the water reservoir up to the 'MAX' fill line. Do not overfill.

Figure 4: Adding water to the reservoir.

2. **Select Ice Size:** Close the lid. Press the 'SELECT' button on the control panel to choose your desired ice cube size: 'S' for small or 'L' for large. The corresponding indicator light will illuminate.

Figure 5: Two sizes of bullet-shaped ice cubes.

3. **Start Ice Making:** Press the 'ON/OFF' button to start the ice-making cycle. The 'POWER' indicator light will turn green.
4. **Ice Production:** The first batch of ice cubes will be ready in approximately 6 minutes. Subsequent batches may be faster. The machine will automatically scoop the ice into the ice basket.

Figure 6: Ice production process.

5. **Ice Full Indicator:** When the ice basket is full, the 'ICE FULL' indicator light will illuminate, and the machine will automatically stop making ice. Remove ice from the basket to resume production.

Figure 7: Ice basket indicating full capacity.

6. **Add Water Indicator:** If the water level is too low, the 'ADD WATER' indicator light will turn red, and the machine will stop. Add more water to continue.
7. **Collecting Ice:** Use the provided ice scoop to remove ice from the basket. For long-term storage, transfer ice to a freezer-safe bag or container and store in your freezer.

Maintenance

Self-Cleaning Function:

The Silonn Ice Maker features a convenient self-cleaning function:

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the 'ON/OFF' button for 5 seconds to activate the self-cleaning cycle. The 'CLEAN' indicator light will illuminate.
3. The cleaning cycle will run for a few minutes, circulating water through the system.
4. Once the cycle is complete, drain the water from the reservoir by unplugging the drain plug located at the bottom of the unit.
5. Wipe the interior dry with a soft cloth.

Figure 8: Activating the self-cleaning function.

Regular Cleaning:

- For thorough cleaning, periodically wipe down the exterior with a damp cloth.
- Clean the ice basket and ice scoop with mild detergent and warm water. Rinse thoroughly.
- It is recommended to clean the water reservoir and ice-making components regularly to prevent mineral buildup and ensure fresh-tasting ice.

Troubleshooting

Problem	Possible Cause	Solution
Ice maker not working	No power; Water level too low	Check power connection; Add water
Ice cubes are too small or cloudy	Water temperature too high; Mineral buildup	Use colder water; Perform self-cleaning cycle

Problem	Possible Cause	Solution
"ICE FULL" light is on, but basket is not full	Ice is blocking sensor	Rearrange ice in basket or remove some ice
Unusual noise during operation	Unit not level; Fan obstruction	Ensure unit is on a level surface; Check for obstructions around fan vents
