SETUP

Inflation Instructions

1. Unfold the inflatable buoy on a clean, flat surface, free from sharp objects.
2. Locate the inflation valve.
3. Open the valve cap.
4. Insert a suitable air pump nozzle (not included) into the valve.
5. Inflate the buoy until it is firm to the touch but not over-inflated. Do not use high-pressure air compressors.
6. Quickly close the valve cap to prevent air leakage.
7. Ensure the valve is securely sealed and pushed flush with the buoy surface.

MAINTENANCE

Cleaning

- After each use, rinse the buoy with fresh water.
- Clean with a damp cloth and mild soap if necessary.
- Do not use harsh chemicals or abrasive cleaners.

- Allow the buoy to air dry completely before deflating and storing.

Storage

- Deflate the buoy by opening the valve and gently pressing out the air.
- Fold the buoy neatly to prevent creases and damage.
- Store in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep away from sharp objects and pests.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Buoy deflates quickly.	Valve not properly sealed or a small puncture.	Ensure valve cap is securely closed. Check for punctures using soapy water; apply repair patch if a leak is found.
Difficulty inflating.	Valve obstruction or incorrect pump nozzle.	Clear any debris from the valve. Use a pump nozzle that fits snugly into the valve.
