Setup and Installation

The Strpump car stereo is designed for plug-and-play, non-destructive installation. A plastic frame and power harness are included, ensuring compatibility with your vehicle's original wiring without modification.

Included Components:

- Main Machine Unit
- GPS Antenna
- Radio Fascia (specific to your car model)
- 2x USB Cables
- CAM In Cable
- Installation Tool
- 4G SIM RCA Cable
- 4G Antenna
- Microphone
- Power Harness (specific to your car model)
- Can bus (optional, some models may not require it)

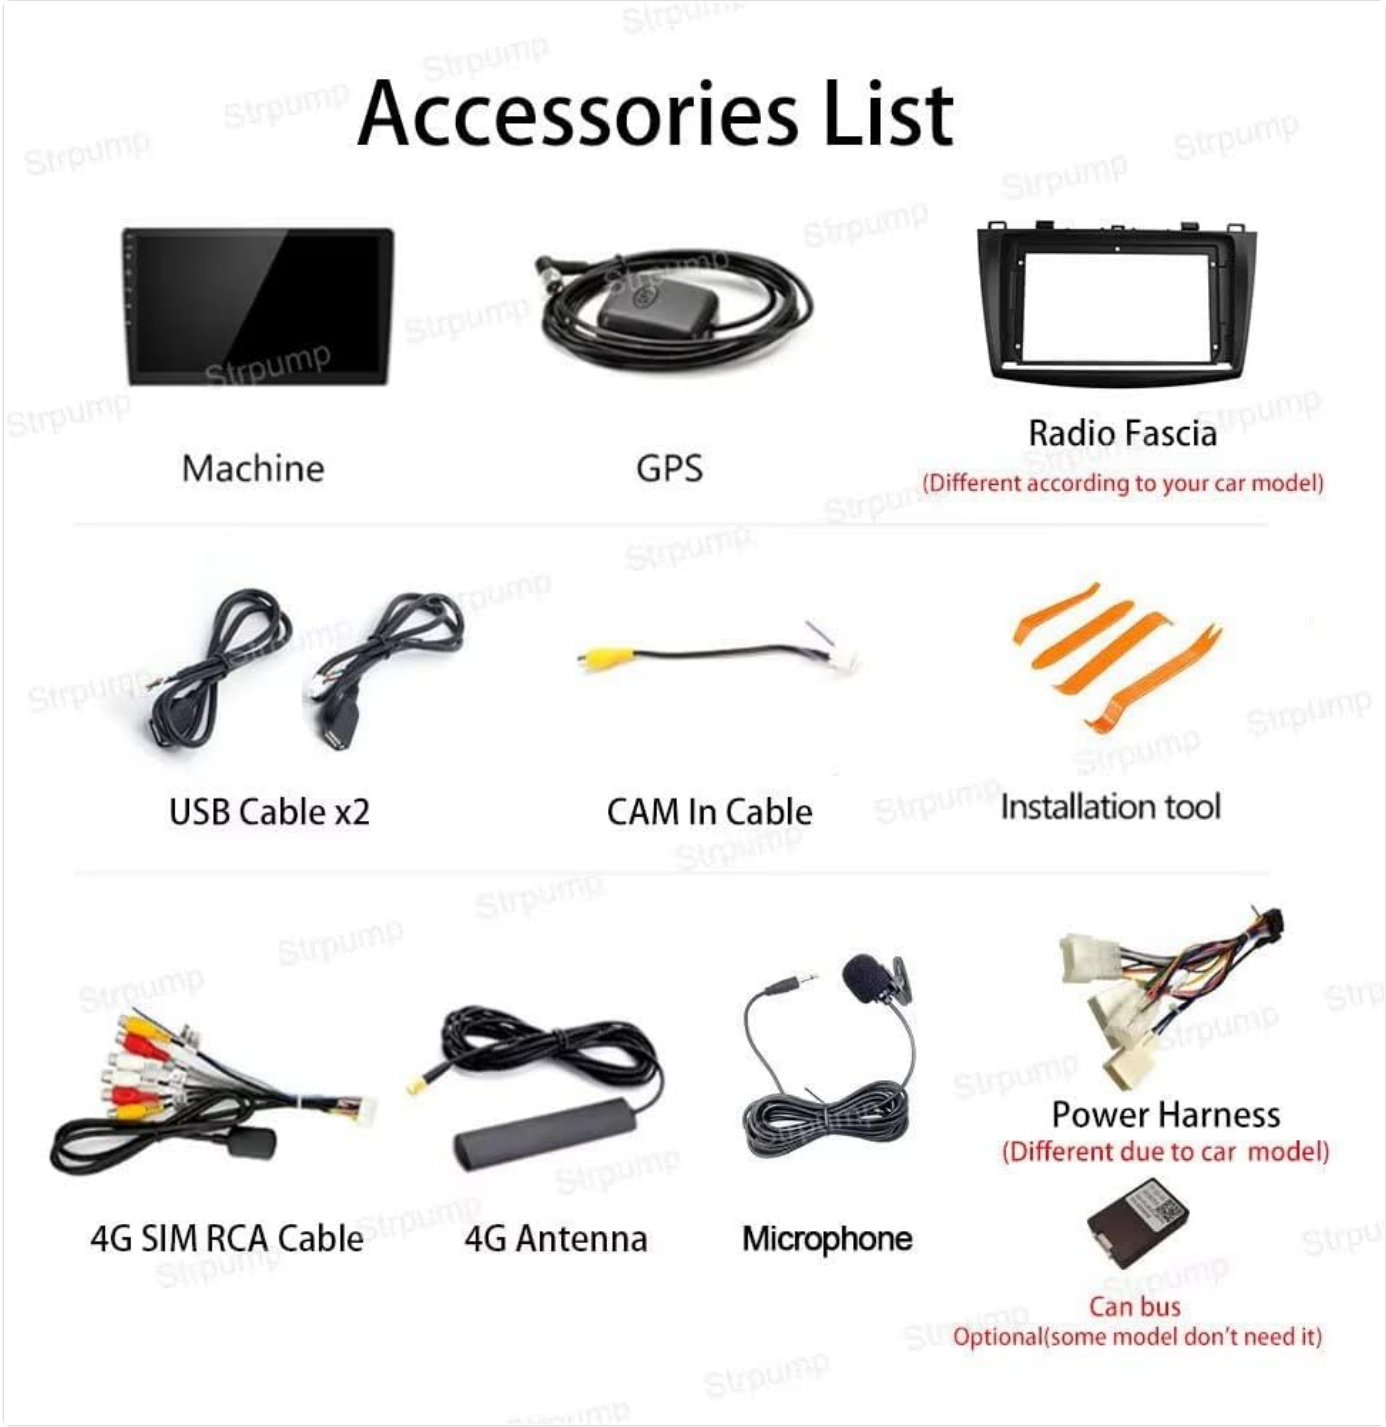

Image: A visual representation of all included accessories, such as the main unit, GPS antenna, radio fascia, various cables, installation tools, and microphone.

Note: If your vehicle has a factory amplifier or OEM camera, a different harness set may be required. Please contact the seller for assistance.

Operating Instructions

Basic Operation:

- **Power On/Off:** Press and hold the power button located on the unit.
- **Volume Control:** Use the physical buttons or on-screen controls to adjust volume.
- **Navigation:** Access the navigation application from the main menu. The unit supports various GPS applications including Google Maps, iGO, Waze, and Navite.
- **Bluetooth:** Pair your smartphone via Bluetooth for hands-free calling and A2DP music streaming. An external

microphone is included for clear call quality.

- **Radio:** Tune into FM/AM radio stations using the built-in radio application.
- **Media Playback:** Play music and videos from USB drives or streaming services.
- **Split Screen:** Utilize the split screen function to run two applications simultaneously, such as navigation and music.

CarPlay and Android Auto:

Connect your iPhone or Android device to the 6-pin USB port. The system will automatically detect and activate Apple CarPlay or Android Auto, allowing you to control your phone's compatible apps via the car stereo display.

Rear View Camera:

The unit supports both normal CVBS AV cameras and HD AHD cameras. When the vehicle is shifted into reverse gear, the display will automatically switch to the rear view camera feed.

Mounting Type	Panel Mount
Vehicle Service Type	Car (Peugeot 308 T9 308S 2013-2017)

Maintenance

To ensure the longevity and optimal performance of your car stereo, follow these maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Dust Removal:** Periodically clean dust from the unit's vents and buttons using a soft brush or compressed air.
- **Software Updates:** Check for available software updates to ensure your system has the latest features and security patches. Follow the on-screen instructions for any updates.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold for extended periods, as this can affect its electronic components.

Troubleshooting

If you encounter issues with your Strpump car stereo, refer to the following common troubleshooting steps:

- **No Power:** Ensure all power cables are securely connected. Check the vehicle's fuse box for any blown fuses related to the stereo.
- **No Sound:** Verify that the volume is not muted or set too low. Check speaker connections. Ensure the correct audio source is selected.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear line of sight to the sky. Move the vehicle to an open area if necessary.
- **Bluetooth Connectivity Issues:** Ensure Bluetooth is enabled on both the car stereo and your mobile device. Delete previous pairings and attempt to re-pair.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase all user data).
- **System Slow/Freezing:** Close unnecessary applications. Clear cache data if available in system settings. A system

restart can often resolve temporary performance issues.

For persistent issues not resolved by these steps, please contact Strpump customer support.

Warranty and Support

The Strpump 9-inch Android 10 Car Stereo Radio comes with a**1-year warranty** from the date of purchase, covering manufacturing defects. Please retain your proof of purchase for warranty claims.
For technical support, warranty inquiries, or questions regarding optional accessories, please contact the seller or Strpump customer service. Provide your product model number (B0B5LB6WKH) and a detailed description of the issue for efficient assistance.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
