2. Safety Information

Please observe the following safety guidelines to ensure safe use and prevent injury or damage:

- Always assemble the table according to the provided instructions.
- Ensure all parts are securely tightened to prevent the table from tipping over.
- Do not place heavy objects on the table that could cause it to become unstable. The maximum weight recommendation is 50 pounds.
- Keep the table away from areas where it could be easily knocked over, such as near doorways or in high-traffic areas.
- Always supervise children when they are near the table to prevent injury.

3. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- End Tables (2 units)

- Accessory Bag (containing screws, bolts, etc.)
- Instruction Manual
- Assembly Guide
- Installation Tool (screwdriver)

4. Setup and Assembly

Assembly is designed to be straightforward and typically takes approximately 18 minutes for one person. All necessary tools are included.

Preparation:

1. Unpack all components and lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
2. Identify all parts by comparing them with the parts list in the included Assembly Guide.
3. Ensure you have the provided screwdriver ready.

Assembly Steps:

Follow the step-by-step diagrams and instructions provided in the separate Assembly Guide for precise assembly. General steps include:

1. Attach the metal frame components together using the provided screws.
2. Secure the 3-tier storage shelves within the frame.
3. Attach the tabletop to the assembled frame. When attaching the tabletop, tighten screws just enough to be snug. Over-tightening can damage the threaded inserts. Gravity will help hold the top in place.
4. Install the adjustable feet at the bottom of the table legs. These feet help protect your floor and ensure stability on uneven surfaces.
