Philips Hue R576454-2

Philips Hue Go Smart Portable Table Lamp User Manual

Model: R576454-2 | Brand: Philips Hue

INTRODUCTION

The Philips Hue Go portable table lamp offers versatile smart lighting for both indoor and outdoor environments. This manual provides essential information for setting up, operating, and maintaining your lamp, ensuring optimal performance and longevity.

WHAT'S IN THE BOX

Verify that all components are present in your package:

- Two (2) Philips Hue Go portable table lamps (Black) with White and Color Ambiance smart, color-changing bulbs.
- Charging Base for each lamp.

- Power Supply with Plug for each charging base.

Image: Components included with the Philips Hue Go lamp: the lamp unit, its charging base, and the power supply with plug.

1. **Initial Charge:** Place the Philips Hue Go lamp onto its charging base. Connect the power supply to the charging base and plug it into a wall outlet. Ensure the lamp is fully charged before its first portable use.
2. **Download the Hue App:** For full functionality, download the Philips Hue app from your device's app store (available for iOS and Android).
3. **Bluetooth Connection (Optional):** For quick setup, open the Hue app and follow the on-screen instructions to connect your lamp via Bluetooth. This allows basic control without a Hue Bridge.
4. **Connect to Hue Bridge (Recommended for Full Features):** To unlock advanced features like multi-room control, automations, and out-of-home control, connect your lamp to a Philips Hue Bridge (sold separately).
 - Plug in your Hue Bridge and connect it to your Wi-Fi router.
 - Open the Hue app and follow the instructions to discover and connect your Bridge, then add your Philips Hue Go lamp.

Designed for indoor and outdoor use

On-Product Control

The button on top of the lamp allows for direct control:

- **Single Press:** Turns the lamp on/off or cycles through preset light scenes.
- **Double Press and Hold:** Cycles through various colors. Release to select the desired color.

Designed for indoor and outdoor use

Control with Philips Hue App

The Philips Hue app provides comprehensive control over your lamp:

- **Color and Brightness:** Adjust millions of colors and white light tones (warm-to-cool white) to set the perfect mood.
- **Light Scenes:** Select from pre-set scenes or create your own custom scenes.
- **Dynamic Effects:** Apply dynamic light effects that show subtle changes in brightness and color.

- **Automations:** Set schedules, timers, and routines for your lamp to turn on/off or change settings automatically.

Voice Control

Integrate your Philips Hue Go lamp with compatible voice assistants (Alexa, Google Assistant, Apple HomeKit) for hands-free control. Set up voice control within the Hue app and use simple commands like:

- "Alexa, turn on the living room lamp."
- "Hey Google, set the lamp to blue."
- "Siri, dim the lamp to 50%."

Portability and Battery Life

The Philips Hue Go lamp is designed for portability with a handy silicone grip and a 48-hour battery life (depending on brightness and color usage). It is rated IP54, meaning it is protected against dust and splashing water, making it suitable for both indoor and outdoor use.

Control with the on-product button

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the lamp. Do not use abrasive cleaners or solvents.
- **Battery Care:** To prolong battery life, avoid fully discharging the lamp frequently. Recharge it regularly, especially if storing for extended periods.
- **Outdoor Use:** While rated IP54, it is recommended to bring the lamp indoors during heavy rain or extreme weather conditions to ensure longevity.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Go lamp, try the following steps:

- **Lamp Not Responding:**
 - Ensure the lamp is charged or placed on its charging base.
 - Check the power connection to the charging base.
 - Restart the Philips Hue app.
 - If using a Hue Bridge, ensure the Bridge is powered on and connected to your network.
- **Connectivity Issues:**
 - Move the lamp closer to your phone (for Bluetooth) or the Hue Bridge (for Zigbee).
 - Ensure there are no major obstructions (thick walls, metal objects) between the lamp and your control device/Bridge.
 - Reset the lamp (refer to Philips Hue support for specific reset procedures if needed).
- **Color/Brightness Inconsistencies:**
 - Ensure the lamp's firmware is up to date via the Hue app.
 - Calibrate colors within the Hue app if available.

For further assistance, please refer to the official Philips Hue support resources.
