Philips Hue 579789

Philips Hue Enrave Medium Ceiling Lamp User Manual

Model: 579789 | Brand: Philips Hue

INTRODUCTION

The Philips Hue Enrave Medium Ceiling Lamp is a smart LED light designed to provide warm-to-cool white ambiance. It offers versatile control options and integrates seamlessly into your smart home ecosystem. This manual provides essential information for setup, operation, and maintenance of your new smart lighting product.

WHAT'S IN THE BOX

Your Philips Hue Enrave Medium Ceiling Lamp package includes:

- One white Enrave Medium ceiling lamp.
- One White Ambiance smart bulb.

This combination is ideal for illuminating larger areas such as living rooms, bedrooms, and kitchens.

KEY FEATURES

- **Shades of White:** Choose from warm-to-cool white light (2200-6500K) to enhance room decor and ambiance. Cool white light is suitable for focus or energizing, while warm white light is ideal for relaxation.
- **Voice Control:** Convenient smart control is available through voice commands using Alexa or Google Assistant after setup in the Hue app.
- **Preset Light Recipes:** Utilize pre-configured light settings for various daily activities, such as Energize, Relax, Concentrate, and Read.
- **Slim and Sleek Design:** The Enrave lamp features a modern design that adds a premium look to your home, providing powerful and uniform light with a subtle, indirect ceiling effect.
- **Easy Installation:** Designed for straightforward installation, typically requiring only two hands.
- **Connectivity:** Control instantly via Bluetooth in a single room or pair with a Philips Hue Bridge (sold separately) to unlock full smart lighting features, including automations and control from anywhere.

Get a sleek, premium design that matches any decor

SETUP

Setting up your Philips Hue Enrave Medium Ceiling Lamp involves a few simple steps:

1. **Step 1: Install your lighting.**

Carefully install the Philips Hue Enrave Medium Ceiling Lamp according to standard electrical fixture installation procedures. Ensure power is off before installation.

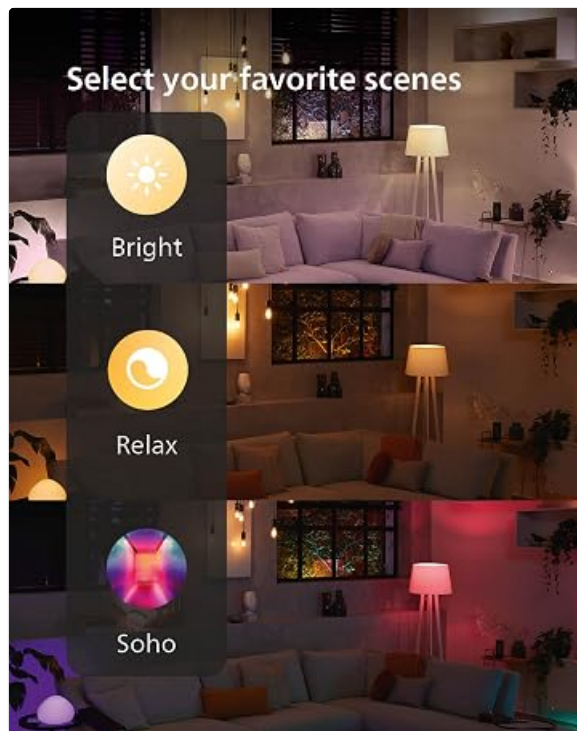

Image: Step 1 of setup, illustrating options to start with Philips Hue Starterkits or a Philips Hue Bridge with your choice of lights.

2. Step 2: Connect the Philips Hue Bridge (Optional, for full features).

If you wish to unlock the full suite of smart lighting features, including automations, control from anywhere, and a secure, stable connection, connect a Philips Hue Bridge to your Wi-Fi router. The Bridge creates a dedicated network for your lights, independent of your Wi-Fi, ensuring reliable performance.

Image: Step 2 of setup, detailing how to connect the Philips Hue Bridge and its benefits, such as remote control, scheduling, instant response, and future-proofing.

3. Step 3: Download the Philips Hue app.

Download the Philips Hue app from your device's app store (available on iOS and Android). Follow the in-app instructions to discover and add your new Enrave ceiling lamp. The app allows for easy control and customization of your lighting.

OPERATING INSTRUCTIONS

The Philips Hue Enrave Medium Ceiling Lamp offers multiple ways to control your lighting:

- **Philips Hue App:**

The primary method of control is through the Philips Hue app. From the app, you can:

- Turn lights on/off.
- Adjust brightness (dimable).
- Change color temperature (warm white to cool daylight).
- Apply preset scenes (e.g., Energize, Relax, Concentrate, Read).
- Create custom scenes and routines.
- Set timers and automations.
- Sync lights with movies, games, and music (requires Hue Bridge).

Image: The Philips Hue app displaying various light scenes like Bright, Relax, and Soho, allowing users to select their preferred ambiance.

- **Voice Control:**

Integrate your Philips Hue system with voice assistants like Amazon Alexa or Google Assistant. Once configured in the Hue app, you can use simple voice commands to control your lights, such as "Turn on all the lights" or "Set living room to warm white."

Cast light evenly across an entire room for full illumination

- **Smart Switches and Motion Sensors (with Hue Bridge):**

For advanced control, Philips Hue offers smart switches and motion sensors (sold separately) that can be paired with the Hue Bridge. These accessories provide physical control and automated lighting based on presence or time of day.

- **Bluetooth Control:**

For basic control without a Hue Bridge, you can control the Enrave lamp directly via Bluetooth using the Philips Hue Bluetooth app within a single room.

The Philips Hue Enrave Medium Ceiling Lamp is designed for low maintenance. Follow these guidelines to ensure optimal performance and longevity:

- **Cleaning:** Gently wipe the lamp with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or electrical components.
- **Bulb Replacement:** The smart bulb included with the Enrave lamp is designed for long-term use. If replacement is ever needed, ensure you use a compatible Philips Hue White Ambiance smart bulb.
- **Software Updates:** Regularly check the Philips Hue app for firmware updates for your lamp and Bridge. Updates often include performance improvements, new features, and security enhancements.
- **Environmental Conditions:** Ensure the lamp is used within its specified operating temperature and humidity ranges. Avoid exposing it to excessive moisture or extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Enrave Medium Ceiling Lamp, try the following troubleshooting steps:

Problem	Possible Cause	Solution
Lamp not responding to app/voice.	Bluetooth connection issue, Wi-Fi interference, Hue Bridge offline.	Ensure Bluetooth is enabled on your device and you are within range. Check if your Hue Bridge is powered on and connected to your router. Restart the Hue app. Perform a power cycle on the lamp (turn off/on at the switch).
Lamp is flickering or dimming unexpectedly.	Loose wiring, incompatible dimmer switch (if applicable), power fluctuations.	Verify the lamp is securely installed and wiring connections are tight. Philips Hue lights are not designed for traditional dimmer switches; use the Hue app or Hue dimmer switch. Check your home's electrical supply for stability.
Cannot connect to Hue Bridge.	Bridge not found, network issues.	Ensure the Hue Bridge is connected to your router and has power. Restart your router and the Hue Bridge. Try moving the Bridge closer to the lamp if possible, though Zigbee range is generally good.
Light color/brightness not as expected.	Incorrect scene selected, app setting error.	Verify the selected scene or color temperature in the Hue app. Reset the lamp to factory settings (refer to Philips Hue support for specific instructions if needed).

SPECIFICATIONS

Attribute	Detail
Brand	Philips Hue

Attribute	Detail
Model Name	Enrave Medium
Model Number	579789
Color	White
