3. SETUP AND INSTALLATION

Compatibility

These magnetic shield kits are specifically designed for and compatible only with V-MODA S-80 headphones. They are not intended for use with other headphone models.

Installing the Magnetic Shields

The V-Moda S-80 Magnetic Shields are designed for straightforward installation due to their magnetic attachment system.

1. **Identify Left and Right Shields:** Each shield is designed for a specific ear cup. Ensure you have the correct shield for the left and right sides of your headphones.
2. **Align the Shield:** Gently place the shield over the outer surface of the headphone ear cup. The magnetic connection will guide it into the correct position.

3. **Secure Attachment:** Once aligned, the shield will snap into place magnetically. Ensure it is flush with the ear cup and securely attached.
4. **Repeat for the Other Side:** Follow the same steps for the second shield on the other ear cup.

4. OPERATING INSTRUCTIONS

Once installed, the magnetic shields function as a decorative and protective outer layer for your V-Moda S-80 headphones. They do not affect the audio performance or electronic functions of the headphones.

Changing Shields

To change your shields, simply grasp the edge of the installed shield and gently pull it away from the ear cup. The magnetic attachment will release, allowing you to replace it with a different shield from your collection. Ensure the new shield is properly aligned and securely attached.

5. MAINTENANCE AND CARE

- **Cleaning:** To clean the aluminum shields, use a soft, dry, lint-free cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use, store the shields in the provided protective case to prevent scratches and damage.
- **Handling:** Handle the shields by their edges to avoid leaving fingerprints on the main surface.

6. TROUBLESHOOTING

- **Shields not attaching securely:** Ensure the ear cup surface is clean and free of debris. Verify that you are using shields specifically designed for the V-Moda S-80 model.
- **Scratches or damage:** While durable, aluminum can scratch. Always store shields in their protective case when not attached to headphones.

7. SPECIFICATIONS

Feature	Detail
