onerbl SPN5886A SSW-2680US

onerbl AC/DC Adapter Instruction Manual

Model: SPN5886A SSW-2680US

1. Product Overview

The onerbl AC/DC Adapter is a high-quality replacement power supply designed for specific Motorola Droid devices. It provides reliable power conversion from AC wall outlets to DC power required by your device, ensuring efficient charging and operation.

Key Features:

- **Universal Input:** AC 100-240V 50/60Hz automatic voltage adjustment for worldwide use.
- **Extended Cable:** Features a 6.5-foot (approximately 1.98 meters) long cord for convenient reach.
- **Safety Protections:** Built-in over voltage protection and over heat protection to safeguard your device.

2. Setup Instructions

Follow these steps to properly set up your onerbl AC/DC Adapter:

1. **Verify Compatibility:** Ensure your device is compatible with the SPN5886A, SSW-2680US, or Droid L6 power specifications. This adapter is specifically designed for Moto DROID Turbo and similar models.
2. **Connect to Device:** Insert the barrel connector end of the adapter cable firmly into the charging port of your compatible device.
3. **Connect to Power Outlet:** Plug the two-prong AC plug of the adapter into a standard AC 100-240V wall power outlet.
4. **Confirm Charging:** Once connected, your device should indicate that it is charging. If not, check all connections.

3. Operating Guidelines

The onerbl AC/DC Adapter is designed for straightforward operation. Simply connect it as described in the setup section to begin powering or charging your device.

- **Continuous Power:** The adapter provides continuous power to your device when plugged into an active electrical outlet.
- **Charging Indicator:** Refer to your device's user manual for information on its charging indicator light or display.
- **Unplug When Not in Use:** For energy conservation and safety, it is recommended to unplug the adapter from the wall outlet when not in use for extended periods.

4. Maintenance and Care

Proper care will extend the life of your AC/DC adapter:

- **Cleaning:** Use a soft, dry cloth to clean the adapter. Do not use liquid cleaners or aerosols.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Management:** Avoid bending or crimping the cable excessively, especially near the connectors, to prevent internal wire damage.
- **Avoid Moisture:** Do not expose the adapter to water or high humidity.

5. Troubleshooting

If you encounter issues with your onerbl AC/DC Adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging/powering on.	Loose connection, faulty outlet, incompatible device.	Ensure all connections are secure. Try a different wall outlet. Verify device compatibility.
Adapter feels hot.	Normal operation (slight warmth), or excessive load/poor ventilation.	A slight warmth is normal. Ensure adequate ventilation around the adapter. If it's excessively hot, discontinue use and contact support.
Intermittent charging.	Damaged cable, loose connector, unstable power supply.	Inspect the cable for visible damage. Ensure the connector is fully inserted. Try a different power outlet.

If troubleshooting steps do not resolve the issue, please contact the product manufacturer for further assistance.

6. Specifications

Detailed technical specifications for the onerbl AC/DC Adapter:

- **Input:** AC 100-240V, 50/60Hz
- **Cable Length:** 6.5 feet (approximately 1.98 meters)
- **Connector Type:** Barrel connector
- **Compatible Devices:** Motorola Droid Turbo, SPN5886A, SSW-2680US, Droid L6

- **Special Feature:** Travel-friendly design
- **Manufacturer:** Shenzhen Waweis Technology Co., Ltd
- **Item Weight:** 8 ounces (approximately 227 grams)

7. Safety Information

The onerbl AC/DC Adapter incorporates a smart chip for multiple safety protections:

- **Short-Circuit Protection:** Prevents damage from electrical shorts.
- **Over-Voltage Protection:** Safeguards against excessive voltage input.
- **Over-Current Protection:** Protects against excessive current flow.

Always use the adapter in a well-ventilated area and avoid covering it during operation.
