## 1. PRODUCT OVERVIEW

The VilroCaz House-Shape Twin Loft Bed is designed to maximize space and provide a functional sleeping and play area for children. This bed features a unique house-shape design, integrated storage staircases, a fun slide, and robust safety guardrails.

### Key Features:

- **Space-Saving Design:** Combines a sleeping area with storage steps and a slide, optimizing room space.
- **Integrated Storage:** Two drawers are located beneath the attached staircase, providing convenient storage for clothing and bedding.
- **Play Area:** The space underneath the loft bed can be utilized for play, reading, or additional storage.
- **Durable Construction:** Constructed from solid pine wood and MDF with iron alloy bolts for stability and long-term use.
- **Safety Features:** Equipped with high guardrails around the upper bed and a strengthened frame to support up to 250 lbs.
- **No Box Spring Required:** Features 14 upper slats to support the mattress directly.

## 2. SETUP AND ASSEMBLY

This loft bed requires assembly. All necessary parts, tools, and instructions are included in the packaging. It is recommended that two people assemble the bed, and assembly typically takes less than one hour.

### Important Notes Before Assembly:

- **Avoid Power Tools:** Do not use power tools for assembly, as this may damage the wood or fasteners. Hand tools are sufficient and included.
- **Clear Area:** Ensure you have a clear, spacious area for assembly to prevent damage to components or injury.
- **Check All Parts:** Before starting, verify that all components listed in the parts list are present and undamaged.

### Assembly Steps:

1. Unpack all components and lay them out on a soft, clean surface to prevent scratches.
2. Identify all hardware and match them with the provided parts list.

3. Follow the step-by-step diagrams in the included assembly manual to connect the main frame components.
4. Attach the storage staircases, ensuring all connections are secure.
5. Install the bed slats onto the upper bed frame.
6. Secure the safety guardrails around the upper bed.
7. Attach the slide to the designated area, ensuring it is firmly secured.
8. Once assembled, gently shake the bed to ensure all connections are tight and the structure is stable.

### 3. OPERATING INSTRUCTIONS AND SAFETY GUIDELINES

---

#### Using the Loft Bed:

- **Sleeping Area:** The upper bed is designed for a standard twin-size mattress (recommended thickness: 4-6 inches). Ensure the mattress fits snugly within the guardrails.
- **Staircase Access:** Use the integrated staircases for safe access to the upper bed. The drawers within the steps can be used for storing personal items.
- **Slide Usage:** The slide is intended for recreational use. Ensure the area around the slide exit is clear before use.
- **Under-Bed Space:** The area beneath the loft bed can be used as a play space, reading nook, or for additional storage.

#### Safety Guidelines:

- **Weight Capacity:** The upper bed has a maximum weight capacity of 250 lbs. Do not exceed this limit.
- **Guardrails:** Always ensure the guardrails are properly installed and maintained to prevent falls from the upper bunk.
- **Slide Safety:** Supervise children when using the slide. Only one person should use the slide at a time. Do not climb up the slide.
- **No Jumping:** Do not jump on the bed, especially the upper bunk, as this can compromise the bed's structure.

and lead to injury.

- **Ladder/Staircase Use:** Always use the provided ladder/staircase for ascending and descending the loft bed. Do not use chairs or other furniture.
- **Ventilation:** Ensure adequate ventilation around the bed, especially if using the under-bed space as a play area.

## 4. CARE AND MAINTENANCE

---

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Regular Inspection:** Periodically check all bolts, screws, and fasteners to ensure they are tight. Loose connections can compromise the bed's stability and safety. Tighten as needed.
- **Avoid Excessive Moisture:** Keep the bed in a dry environment. Prolonged exposure to moisture can cause wood to warp or swell.
- **Sunlight Exposure:** Avoid placing the bed in direct sunlight for extended periods, as this can cause fading or discoloration of the finish.
