MILTON CELGBOT001BLCK0001

MILTON Euroline Smart Stainless Steel Water Bottle 880 ml User Manual

Introduction

The MILTON Euroline Smart Stainless Steel Water Bottle is designed to assist you in maintaining optimal hydration throughout your day. This innovative bottle features Bluetooth-enabled smart technology that measures your water consumption and provides timely hydration reminders through LED lights on the lid. It integrates with the MILTON App to offer personalized hydration goals based on your age, body weight, and type, helping you track your fluid intake effectively.

Package Contents

Please verify that all the following items are included in your package:

- 1 x MILTON Euroline Smart Stainless Steel Water Bottle (880 ml)
- 1 x Smart Lid
- 1 x Battery (3V CR2032)
- 1 x User Manual (this document)

Setup

1. Powering Up the Smart Lid

1. Using a 10 coin or similar flat object, rotate the top cover of the smart lid counter-clockwise to open it.
2. Place the provided 3V CR2032 battery into the battery compartment, ensuring correct polarity. The cap should light up upon inserting the battery.
3. Align the top cover and rotate it clockwise to securely close the cap.

2. Installing the MILTON App

The MILTON App is essential for utilizing the smart features of your bottle. Download it from your device's app store:

Download MILTON App (iOS & Android)

3. Pairing with Your Smartphone

1. Open the MILTON App on your smartphone.
2. Scan the QR code located at the bottom of your MILTON Smart Bottle. For existing users, select 'Add new device (+)' and then scan the QR code.
3. Ensure Bluetooth is enabled on your smartphone. The bottle needs to be within a 20-foot range for successful pairing.
4. Follow the on-screen instructions within the app to complete the pairing process. The cap's LED lights should blink rapidly during pairing.
5. After successful pairing, set up your profile details (gender, age, body weight, and type) within the app to receive personalized hydration recommendations.

Operating Instructions

Hydration Reminders

The smart lid features LED lights that will illuminate at set intervals throughout your day to remind you to take a hydration break. These intervals are determined by your personalized hydration goals set in the

MILTON App.

Image: Illustration of the hydration alert system, showing LED lights on the lid indicating a reminder.

Water Consumption Tracking

The bottle utilizes proprietary Lidar Technology to measure the quantity of your drink. This data is automatically synced with the MILTON App, allowing you to track your water consumption levels and frequency in real-time.

Personalized Hydration Goals

Based on the profile details you provide (age, body weight, and type), the MILTON App will recommend an optimal amount of fluids to be consumed daily, helping you achieve your hydration goals.

Note: The app level will take approximately 10 seconds to update after a sip is taken and the cap is closed. The app provides a representation showing the approximate level of water in the bottle.

Maintenance and Care

Proper care ensures the longevity and optimal performance of your MILTON Smart Bottle.

- **Initial Use:** Wash and rinse the lid and bottle thoroughly before first use.
- **Cleaning:** Hand wash only. Do not submerge the smart lid under water; wash it under running water with a soft brush.
- **Avoid:** Do not use harsh cleaners or abrasive scrubbers.
- **Liquids:** Keep away from hot liquids. Do not store dairy products, carbonated drinks, or dry ice.
- **Heating:** Do not use this product in a microwave, on a stove top, or in any type of oven.
- **Filling:** Do not overfill the bottle.
- **Storage:** Do not keep the bottle in a refrigerator.

- **Safety:** Not recommended for use by children without adult supervision.

Troubleshooting

If you encounter issues with your MILTON Smart Bottle, refer to the following common solutions:

- **App Connectivity Issues:** If the bottle does not connect to the MILTON App, ensure your phone's Bluetooth is enabled and the bottle is within range (up to 20 feet). Check if your smartphone's operating system is compatible with the latest MILTON App version. Try restarting both the app and your phone.
- **Leakage:** If the bottle leaks, ensure the cap is securely tightened and that the internal rubber stopper is correctly seated within the cap.
- **Reminder Light Not Visible:** The hydration reminder LED lights are located on the lid. Ensure the bottle is positioned where the lid is visible to you for effective reminders.
- **Inaccurate Water Tracking:** Ensure the cap is properly closed after each sip for accurate measurement by the Lidar Technology.

Specifications

Feature	Detail
