LOVEPS D091

LOVEPS 1800W Ionic Travel Hair Dryer Instruction Manual

Model: D091

1. Introduction

Welcome to your new LOVEPS 1800W Ionic Travel Hair Dryer. This manual provides essential information for safe and effective use, maintenance, and troubleshooting. Please read it thoroughly before first use and keep it for future reference.

Key Features

- **Advanced Ionic Technology:** Utilizes a moisture-balancing dual ionic system to reduce static and frizz, promoting smoother, shinier hair.
- **Powerful and Efficient:** Equipped with a robust 1800W motor for rapid drying performance, saving you time.
- **Safety Certification:** ETL and UL approved US ALCI Safety Plug provides enhanced protection during use, alongside constant temperature protection to prevent hair damage.
- **Innovative Design:** Features magnetic diffuser and concentrator nozzles for easy attachment and removal. A double safety non-removable filter prevents hair from being drawn into the dryer.
- **Foldable and Portable:** The compact, foldable design makes it ideal for travel, home, and business trips, ensuring easy storage and portability.
- **Temperature Settings:** Offers 3 distinct heat settings (Cool, Warm, Hot) to suit various hair types and styling needs.
- **Speed Settings:** Provides 2 speed settings (Low, High) for precise control over airflow.

2. Important Safety Instructions

Please read all instructions before using this appliance. Keep this manual for future reference.

General Safety Guidelines

- Do not use this appliance near water, such as in a bathroom, near a sink, or in a wet environment.
- Always unplug the appliance immediately after use.
- Do not operate the appliance with a damaged cord or plug. If the cord or plug is damaged, contact customer service.
- Keep the appliance away from heated surfaces to prevent damage.
- Ensure air openings are not blocked during use. Blocked openings can lead to overheating.
- Do not use while sleeping.
- Do not use outdoors or operate where aerosol (spray) products are being used.

- Do not touch the air nozzle during use to prevent burns, as it can become hot.

ALCI Safety Plug

Your hair dryer is equipped with an Appliance Leakage Current Interrupter (ALCI) safety plug. This device is designed to make the appliance inoperable under certain abnormal conditions, such as immersion in water. It is crucial to test the ALCI plug before each use to ensure it is functioning correctly.

1. Plug the hair dryer into a standard electrical outlet.
2. Press the **"TEST"** button on the plug. The **"RESET"** button should pop up.
3. Press the **"RESET"** button. The **"RESET"** button should click back in.
4. If the ALCI fails to test correctly, do not use the appliance. Unplug it and contact customer service.

3. Package Contents

Ensure all items are present and in good condition upon opening the package:

- 1 x LOVEPS Hair Dryer
- 1 x Diffuser
- 1 x Concentrator Nozzle
- 1 x User Manual

The LOVEPS hair dryer with its included concentrator nozzle, diffuser, and user manual.

4. Setup and Assembly

Attaching Nozzles

The hair dryer comes with magnetic attachments for easy installation and removal. These attachments allow for versatile styling options.

- **Concentrator Nozzle:** This nozzle is ideal for precise styling and straightening. To attach, simply align the concentrator nozzle with the front of the dryer, and it will magnetically snap into place.
- **Diffuser:** Designed to enhance natural curls and waves, the diffuser distributes air evenly to reduce frizz and add volume. To attach, align the diffuser with the front of the dryer, and it will magnetically snap into place.

5. Operating Instructions

Powering On/Off

Plug the hair dryer into a standard 110-125V, 60Hz electrical outlet. Use the power switch located on the handle to turn the appliance on or off.

Temperature and Speed Settings

The hair dryer features 3 temperature settings and 2 speed settings, controlled by switches on the handle. Adjust settings according to your hair type and desired styling outcome.

Setting	Description	Recommended Use
Low Speed (I)	Cold Wind	For fine hair, gentle drying, or to finish a style.

Setting	Description	Recommended Use
Medium Speed (II)	Medium Temperature (Warm)	For fine hair, gentle drying and styling, or for sensitive scalps.
High Speed (III)	High Temperature (Hot)	For thick hair, fast drying, or initial drying stages.
Cool Shot Button (*)	Instant Cold Air	To set your style, close the hair cuticle, and add shine.

Diagram illustrating the 3 heat and 2 speed settings available on the hair dryer for customized styling.

Hair Drying Steps

1. Remove excess water from your hair with a towel after washing.
2. Divide your hair into several manageable sections.
3. Select the appropriate temperature and speed setting based on your hair type and desired styling outcome.
4. Begin blow drying one section at a time, moving the dryer continuously to prevent heat concentration on any single area.
5. Use the concentrator nozzle for targeted airflow when straightening or styling specific sections, or attach the diffuser for gentle drying of curls and waves.
6. Finish with a cool shot (by pressing the snowflake button) to set your style, seal the hair cuticle, and enhance shine.

6. Care and Maintenance

Cleaning the Air Filter

The hair dryer features a double safety non-removable filter designed to prevent hair from being sucked in. Regularly cleaning the external part of the filter is essential to maintain optimal performance and prolong the life of your appliance.

1. Ensure the hair dryer is unplugged from the power outlet and completely cool before cleaning.
2. Gently wipe the rear air inlet filter with a soft, dry cloth or a small brush to remove any accumulated dust, lint, or hair.
3. Do not attempt to remove the internal filter, as it is non-removable and designed for internal protection.

Storage

The foldable handle design makes the hair dryer compact and convenient for both storage and travel.

1. Ensure the appliance is completely cool before storing.
2. Fold the handle for compact storage by gently pushing it towards the main body until it locks into place.

3. Store the hair dryer in a dry place, away from moisture and direct sunlight.

7. Troubleshooting

Common Issues and Solutions

- **No Power:**
  - Check if the ALCI plug has tripped (the RESET button will be popped out). Press the RESET button to restore power.
  - Ensure the power cord is securely plugged into a functional electrical outlet.
- **Overheating:**
  - The hair dryer is equipped with overheat protection and will automatically shut off if it gets too hot. Unplug the appliance and allow it to cool down for several minutes.
  - Check the air inlet filter for any blockages (dust, lint, hair) and clean it if necessary.

- **Weak Airflow:**
  - A weak airflow is often caused by a clogged air inlet filter. Clean the external filter as described in the Maintenance section.
- **Hair Getting Sucked In:**
  - The double safety non-removable filter is designed to prevent this. Ensure the filter is clean and not damaged.
  - Avoid holding hair too close to the rear air inlet during operation.

8. Technical Specifications

Feature	Detail
Model	D091
Voltage	110-125V
Frequency	60Hz
Power	1800W
Cord Length	6.56 ft
Dimensions (L x W x H)	8.3 x 4.9 x 0.24 inches
Weight	1.9 Pounds
Material	Ceramic
Max Temperature	198 Degrees Fahrenheit
Special Features	Foldable, Ionic Technology, Removable Air Filter (external), ALCI Safety Plug, Lightweight, Portable, Low Noise, Overheat Protection

9. Warranty and Support

Manufacturer Warranty

This LOVEPS hair dryer comes with a 6-month manufacturer warranty. Please retain your proof of purchase for any warranty claims. The warranty covers defects in materials and workmanship under normal use.

Customer Support

For any questions, concerns, or support needs regarding your LOVEPS hair dryer, please contact LOVEPS customer service. Refer to the product packaging or the official LOVEPS website for the most up-to-date contact details.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
