Blink B0B5VGZTXH

Blink Wired Floodlight Camera User Manual

Model: B0B5VGZTXH

PRODUCT OVERVIEW

The Blink Wired Floodlight Camera is a smart security solution designed to protect your home day and night. It combines a high-definition security camera with powerful 2600-lumen LED lighting, enhanced motion detection, and a built-in security siren. This device allows for 1080p HD live view, color night vision, and two-way audio communication directly from the Blink app. It integrates seamlessly with Alexa for voice control and offers flexible video storage options.

blink wired floodlight camera

Weather Resistant · Day + Night HD View · Two-Way Audio · Enhanced Motion Detection · 2600 LED Lumens

An overhead view of the Blink Wired Floodlight Camera mounted on a wall, showcasing its dual floodlights and central camera unit. Below the camera are icons representing its key features: weather resistance, day and night HD viewing, two-way audio, enhanced motion detection, and 2600 LED lumens.

WHAT'S INCLUDED

- 1 Blink Wired Floodlight Camera
- 1 Installation Kit

SETUP AND INSTALLATION

The Blink Wired Floodlight Camera is designed for self-installation. It requires connection to your home's existing outdoor wiring.

Installation Requirements:

- Mount to existing 4-inch round, UL listed, weatherproof electrical box on a wall or covered ceiling.

- Outdoor silicone sealant is not included and may be required.

Power Requirements:

- Hardwired connection.
- Neutral wire required.
- 100-240VAC, 50/60Hz, 45W.

Wi-Fi Connectivity:

- High-speed internet connection (broadband, fiber, or DSL).
- 2.4 GHz 802.11b/g/n Wi-Fi network.

Blink Home Monitor App:

Download the Blink Home Monitor app to your smartphone or tablet to set up and manage your camera.

- Minimum smartphone requirements: iOS 15.0, Android 9.0, or Fire 9.0.

Shine a light on what's happening with night view in color and 2600 Lumen LEDs

The Blink Wired Floodlight Camera is mounted on an exterior wall, casting bright light over a patio area at night. This image demonstrates the camera's outdoor placement and illumination capabilities.

OPERATING YOUR CAMERA

Live View and Two-Way Audio:

Access 1080p HD live view and communicate using crisp two-way audio directly through the Blink app. The camera also provides color night view.

A pair of hands holding a smartphone horizontally, displaying a live video feed from the Blink Wired Floodlight Camera. The screen shows a person waving from a car, demonstrating the camera's live viewing capability.

Motion Detection and Alerts:

The camera features dual-zone, customizable motion detection. You will receive real-time alerts to your device. You can set specific motion zones within the Blink Home Monitor app to minimize unnecessary notifications.

Built-in Siren:

Activate the built-in 105-decibel security siren from the app when needed to deter intruders.

Person Detection (Optional):

Utilize Blink's person detection feature with embedded computer vision (CV) as part of an optional Blink Subscription Plan (sold separately).

Alexa Integration:

Connect your Wired Floodlight Camera to Alexa-enabled devices. Use voice commands to engage live view, arm, and disarm your camera.

An Amazon Echo Show device on a table displaying a live video feed from the Blink Wired Floodlight Camera, showing a backyard scene. A speech bubble above reads 'Alexa, show me the backyard.', illustrating voice control integration with Alexa.

Video Storage:

Securely store your footage in the cloud with a free 30-day trial of a Blink Subscription Plan. Videos are stored for up to 60 days with a subscription. You can also back up footage locally with a Sync Module 2 and a USB drive or Sync Module XR and a MicroSD card (all sold separately).

MAINTENANCE

To ensure optimal performance of your Blink Wired Floodlight Camera, regular maintenance is recommended.

- **Cleaning:** Periodically wipe the camera lens and floodlight surfaces with a soft, damp cloth to remove dust, dirt, or debris that may obstruct the view or reduce light output. Avoid abrasive cleaners.
- **Software Updates:** Ensure your camera's firmware is up to date. The device receives guaranteed software security updates until at least four years after it is last available for purchase as a new unit. Updates are typically managed through the Blink Home Monitor app.
- **Connection Check:** Occasionally verify the Wi-Fi connection strength in the Blink app to ensure stable operation.

TROUBLESHOOTING

If you encounter issues with your Blink Wired Floodlight Camera, consider the following common troubleshooting steps:

- **No Live View/Offline:**

  - Check your Wi-Fi connection and ensure your router is functioning correctly.
  - Verify the camera is receiving power.
  - Restart your Wi-Fi router and the Blink camera (if safely accessible).

- **Motion Detection Issues:**

  - Review motion zone settings in the Blink app to ensure they cover the desired areas.
  - Adjust sensitivity settings.

- Ensure the camera lens is clean and free from obstructions.

- **Poor Video Quality:**

  - Check your internet speed and Wi-Fi signal strength.
  - Clean the camera lens.

- **Audio Problems:**

  - Ensure your smartphone's volume is up.
  - Check microphone and speaker settings in the Blink app.

For further assistance, please refer to the official Blink support page.

SPECIFICATIONS
