- **Versatile Use:** Functions as a body pillow, lumbar support, or decorative item.
- **Durable Construction:** Designed for lasting comfort and use.

2. Initial Setup

Your Mewaii Long Cat Plush is typically shipped in vacuum-sealed packaging to ensure cleanliness and reduce shipping volume. Upon arrival, follow these steps to prepare your plush for use:

1. **Unpack:** Carefully remove the plush from its vacuum-sealed bag. The plush will appear compressed and wrinkled.
2. **Fluff:** Gently rub and vigorously fluff the pillow to help it regain its original shape and volume. This helps distribute the internal filling evenly.

3. **Allow to Expand:** Allow the plush to sit for 12-24 hours. During this time, the down cotton filling will naturally expand, and the plush will become softer and fuller.

5. Troubleshooting

Issue	Possible Cause	Solution
Plush appears flat or wrinkled upon arrival.	Vacuum-sealed packaging for shipping.	Follow the "Initial Setup" instructions (Section 2) to fluff and allow the plush to expand for 12-24 hours.
Plush feels less firm than expected.	Natural compression over time or insufficient expansion after unpacking.	Vigorously fluff the plush to redistribute the filling. Allow it to air out and expand further if recently unpacked.
Minor stitching issues or tears.	Wear and tear from extensive use, especially on smaller parts like tails or legs.	For minor issues, hand-stitch the affected area. For significant defects, contact customer support.
Unpleasant odor.	New product smell from packaging or materials.	Air out the plush in a well-ventilated area for a few days.
