## Panasonic ES-LT2B

# Panasonic ES-LT2B LAMDASH 3-Blade Men's Shaver Instruction Manual

MODEL: ES-LT2B

Brand: Panasonic

## Introduction

Thank you for purchasing the Panasonic ES-LT2B LAMDASH 3-Blade Men's Shaver. This high-performance electric shaver is designed to provide a precise and comfortable shaving experience. Featuring a waterproof design, it is suitable for both wet and dry use, including in the bath. The shaver is powered by a high-speed linear motor and includes specialized oil and a cleaning brush for maintenance.

## Safety Information

---

- Always use the shaver over a sink to avoid accidental drops.
- Do not use while charging or near water.
- Always use the lock function when not in use to prevent accidental activation.
- Clean the shaver thoroughly after each use to prevent bacterial growth.

## Setup

Before first use, ensure the shaver is fully charged. The shaver comes with an AC adapter for charging. The battery provides approximately 14 days of use on a full charge.

### Charging the Shaver

1. Connect the AC adapter to the charging port at the bottom of the shaver.
2. Plug the AC adapter into a suitable power outlet (AC100-240V compatible).
3. The charging indicator will illuminate. Allow the shaver to charge completely before its first use.

### Activating the Shaver

To turn on the shaver, press the power button. To turn it off, press the power button again. The shaver also features a switch lock to prevent accidental activation during travel or storage.

## Operating Instructions

### Shaving Techniques

- The ES-LT2B features a high-speed linear motor with approximately 13,000 strokes/minute, ensuring

powerful and quick shaving even for dense beards.

- The 3-blade system, including 34° sharp angled nano-edge inner blades, is designed for a deep and close shave.
- The shaver automatically controls power based on beard density, using high-precision sensing technology (216 times/second) for optimal performance and skin comfort.

## Wet/Dry Shaving

This shaver is waterproof and can be used for both dry shaving and wet shaving with foam or gel. For a comfortable wet shave, apply shaving foam or gel to your face before use. The shaver is also suitable for use in the shower.

### Official Product Video (ES-LV67 - Similar Model)

Your browser does not support the video tag.

*Video: This official Panasonic product video demonstrates features of the ES-LV67 shaver, a similar model. It highlights the ultra-fast linear motor, multi-flex shaving head, beard sensor technology, and wet/dry shaving capabilities, many of which are also present in the ES-LT2B model.*

## Maintenance

### Water Through Wash

The ES-LT2B is equipped with a "water through wash" feature, allowing you to easily rinse away beard debris without removing the blade. Simply hold the shaver under running water while it is turned on to clean the head.

## General Cleaning

- After each use, clean the shaver head to maintain hygiene and performance.
- Use the provided cleaning brush to remove any stubborn hair clippings.
- Apply a small amount of specialized oil (included) to the blades periodically to ensure smooth operation and longevity.

## Troubleshooting

If you encounter any issues with your Panasonic ES-LT2B shaver, please refer to the comprehensive troubleshooting section in the full user manual or contact Panasonic customer support for assistance.
