5. ASSEMBLY INSTRUCTIONS

The Galano Isadora TV Stand requires assembly. For optimal results and ease of construction, it is recommended to have two people for assembly, especially when handling larger panels and attaching doors. Please refer to the detailed assembly manual included in your package for step-by-step instructions and diagrams.

General Assembly Steps:

1. **Preparation:** Clear a spacious area for assembly. Lay out all components on a soft, clean surface to prevent scratches. Identify all parts using the labels and the included parts list.
2. **Frame Construction:** Begin by assembling the main frame components (side panels, bottom panel, and fixed shelves) using the designated hardware. Ensure all connections are secure before proceeding.
3. **Shelf Installation:** Insert the adjustable shelf pins into the desired holes within the cabinet sections. Place the adjustable shelves onto these pins.
4. **Door Attachment:** Attach the hinges to the cabinet doors and then to the main frame. The acrylic transparent door panels are pre-installed in the door frames. Door alignment may require minor adjustments to ensure they close smoothly and evenly.
5. **Handle Installation:** Secure the metal handles to the cabinet doors.
6. **Back Panel:** Attach the back panel to the unit, typically using small nails or screws, to enhance stability and enclose the storage areas.
7. **Wall Mounting:** For safety, attach the anti-tip wall mounting hardware to the back of the unit and secure it to a wall stud. This prevents accidental tipping.

6. OPERATING INSTRUCTIONS

The Galano Isadora TV Stand is designed to enhance your living space with organized storage and a stable platform for your television.

6.1. TV Placement

- Place your television centrally on the top surface of the stand. The unit is designed to safely support TVs up to 75 inches.
- Ensure the TV's base is fully supported and stable on the stand's surface.

6.2. Storage and Organization

- Utilize the eight internal compartments and adjustable shelves to store media players, gaming consoles, soundbars, books, and decorative items.
- The four framed acrylic doors provide protection from dust while allowing visibility of the stored items.
- Adjust the shelves to accommodate items of varying heights by repositioning the shelf pins.

7. MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your Galano Isadora TV Stand.

- **Cleaning Surfaces:** Clean the engineered wood surfaces with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or furniture polish that may damage the PU paper lamination.
- **Acrylic Doors:** For the acrylic door panels, use a soft, lint-free cloth and a mild, non-abrasive cleaner specifically designed for acrylic or plastic. Avoid glass cleaners containing ammonia, which can damage acrylic.
- **Hardware:** Periodically check all screws, bolts, and other hardware connections to ensure they remain tight. Retighten if necessary to maintain structural integrity.
- **Environmental Factors:** Avoid placing the unit in direct sunlight or near heat sources, as this can cause discoloration or warping. Protect the surface from excessive moisture.
- **Protection:** Use coasters or protective pads under hot items, beverages, or objects with sharp edges to prevent damage to the top surface.

8. TROUBLESHOOTING

This section addresses common issues you might encounter with your TV stand.

8.1. Assembly Difficulties

- **Misaligned Doors:** If the cabinet doors do not align perfectly, minor adjustments to the hinges may be required. Refer to the hinge adjustment section in your physical assembly manual. Sometimes, having a second person hold the door in place while fastening can help.
- **Missing or Damaged Parts:** If you find any parts missing or damaged upon unboxing, do not proceed with assembly. Contact Galano customer service immediately for assistance.

8.2. Stability Issues

- **Wobbling Unit:** Ensure the TV stand is placed on a flat, level surface. Verify that all assembly screws and connections are fully tightened.
- **Tipping Hazard:** Always use the provided wall mounting hardware to secure the unit to a wall stud. This is the most effective way to prevent tipping.
