

Accutime BAD9001AZ

Accutime Star Wars: The Bad Batch Analog Quartz Wrist Watch User Manual

Model: BAD9001AZ

PRODUCT OVERVIEW

The Accutime Star Wars: The Bad Batch Analog Quartz Wrist Watch (Model: BAD9001AZ) is a timepiece designed for fans of the Star Wars universe. It features an analog display with quartz movement, ensuring accurate timekeeping. The watch incorporates design elements inspired by The Bad Batch, making it a distinctive accessory.

Figure 1: Front view of the Accutime Star Wars: The Bad Batch Analog Quartz Wrist Watch. The watch features a black strap with blue accents, a silver-tone case, and a black dial with a stylized image of a Bad Batch helmet.

Initial Setup and Time Setting

1. **Unpacking:** Carefully remove the watch from its packaging. Ensure all protective films are removed from the watch face and case back.
2. **Crown Operation:** Locate the crown on the right side of the watch case.
3. **Setting the Time:**
 - Pull the crown out to the time-setting position. You may feel a slight click.
 - Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the correct time.
 - Once the time is set, push the crown back in fully to its original position. This will start the watch movement.
4. **Strap Adjustment:** Adjust the strap to fit comfortably on your wrist. The watch features a standard buckle closure.

Basic Timekeeping

The Accutime Star Wars watch operates using a precise quartz movement, powered by a watch battery. Once the time is set, the watch will continuously display the current time. No further daily adjustments are typically required unless the time zone changes or the battery needs replacement.

Wearing the Watch

Wear the watch comfortably on your wrist. Avoid wearing it too tightly, which can restrict circulation, or too loosely, which can cause it to move excessively and potentially get damaged.

MAINTENANCE

Cleaning

To maintain the appearance of your watch, wipe the case and strap regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the watch case. Avoid using harsh chemicals or abrasive materials.

Battery Replacement

The watch is powered by a standard watch battery. When the watch stops or the hands move erratically, it is likely time for a battery replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and prevent damage to the internal components.

Water Resistance

Important: This watch is **not water resistant**. Avoid exposure to water, including rain, splashes, showering, swimming, or submersion. Water exposure can cause severe damage to the internal movement and void the warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch hands do not move or stop.	Depleted battery.	Replace the battery. Consult a professional watch technician.
Time is inaccurate.	Crown not fully pushed in; low battery; magnetic interference.	Ensure crown is fully pushed in. Replace battery if needed. Keep watch away from strong magnetic fields.
Condensation under the crystal.	Moisture ingress (watch is not water resistant).	Immediately take the watch to a professional watch repair service. Do not attempt to dry it yourself.

SPECIFICATIONS

- **Model Number:** BAD9001AZ
- **Brand:** Accutime
- **Movement:** Analog Quartz
- **Display Type:** Analog
- **Case Material:** Metal alloy (Silver-tone)
- **Strap Material:** Silicone/Rubber (Black with Blue Accents)
- **Water Resistance:** Not Water Resistant
- **Power Source:** Watch Battery

- **Package Dimensions:** 10.28 x 9.53 x 6.26 inches
- **Item Weight:** 9.7 ounces
- **Country of Origin:** China
