ZJYWSCH WC036

ZJYWSCH Grill Cover Instruction Manual

Model: WC036

INTRODUCTION

The ZJYWSCH Grill Cover is designed to provide superior protection for your outdoor grill, safeguarding it from various environmental elements. Made from durable 600D polyester with a reinforced PVC backing, this cover ensures your grill remains in optimal condition year-round. This manual provides essential information for the proper setup, operation, maintenance, and care of your grill cover.

This cover is specifically designed for Pit Boss 700 Sq. In. wood pellet grills, including models such as Pit Boss 700FB, PB700FB1, 700 Classic 700FBW2, Classic 700 Onyx PB700NX, and 440TG. It also fits Louisiana Grills LG700, Rec Tec Patio Legend 410, RecTec RT-B380 Bullseye, and other pellet grills/smokers with similar dimensions.

FEATURES

- **Custom Fit:** Measured 42"W x 26"D x 38"H, designed for Pit Boss 700 Sq. In. wood pellet grills and similar models.
- **Durable Material:** Constructed from 600D polyester material with a reinforced PVC backing for dependable protection.
- **Drawstring Closure:** Features an additional drawstring at the bottom for a better fit, helping to tighten the cover and prevent it from slipping or blowing off in strong winds.
- **Weather Resistant:** Protects against outdoor elements including sun damage, rain, dust, and snow.
- **Easy to Clean:** Can be easily cleaned by wiping with a damp cloth or hosing with water.

SETUP

Before placing the cover, ensure your grill is completely cool and clean. Unfold the ZJYWSCH Grill Cover and carefully drape it over your grill, aligning the top with the grill's main body. Adjust the cover to ensure it fully encloses the grill, including any side shelves or smoke stacks.

Utilize the integrated drawstring at the bottom to tighten the cover securely around the base of the grill. This helps prevent the cover from being dislodged by wind and ensures a snug fit.

The ZJYWSCH Grill Cover securely fitted over a pellet grill, providing full coverage.

GRILL COVER SIZE

Suitable for **Pit Boss 700FB, Classic 700 Wood Pellet Grill**

Anti-tearing 600D Oxford Polyester

Detail of the adjustable hem cord (drawstring) at the bottom of the cover, designed for a secure and tight fit.

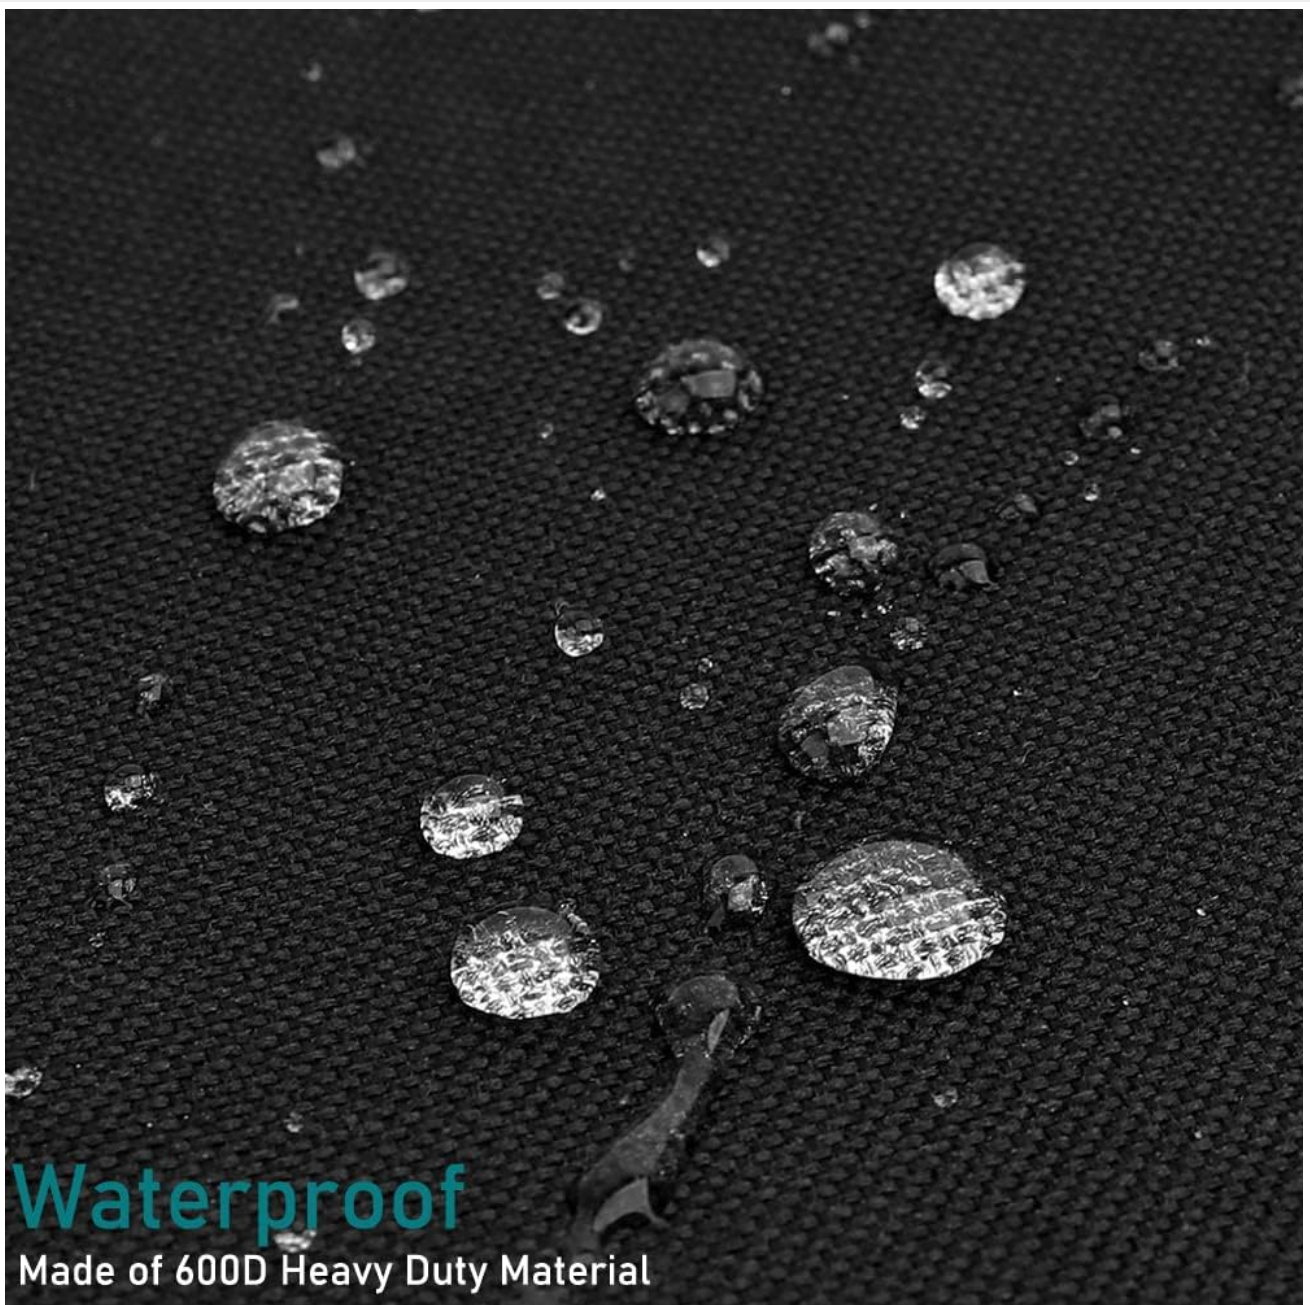

OPERATING

The ZJYWSCH Grill Cover operates passively by providing a protective barrier. Once installed, it continuously shields your grill from external elements such as rain, wind, dust, and UV rays. Ensure the cover is properly secured, especially during windy conditions, to maintain its protective function.

MAINTENANCE

To clean your ZJYWSCH Grill Cover, simply wipe it with a damp cloth. For more stubborn dirt, a gentle hose-down can be performed. Allow the cover to air dry completely before storing or reapplying to the grill to prevent mold and mildew growth.

Important Safety Information: Avoid prolonged exposure to harsh weather conditions or direct sunlight. Keep away from heat sources and open flames. Allow the cover to dry completely after cleaning to prevent mold growth.

Stay like new after
several months

Others →
Easy to fade

Visual comparison highlighting the ZJYWSCH cover's ability to maintain its color and appearance over several months compared to other covers that may fade.

TROUBLESHOOTING

- **Issue: Cover blows off in wind.**

Solution: Ensure the drawstring at the bottom is pulled tight and securely fastened. Verify the cover is the correct size for your grill model to ensure a snug fit.

- **Issue: Water pooling on top of the cover.**

Solution: While the cover is waterproof, prolonged pooling of water can stress the material. Periodically check and remove any accumulated water or debris from the top of the cover.

- **Issue: Cover appears faded or worn prematurely.**

Solution: This cover is designed for durability. If fading or wear occurs, ensure it's not exposed to extreme, prolonged direct sunlight or abrasive surfaces. Regular cleaning can also help maintain its appearance.
