Weego C120

Weego 120 Jump Starter User Manual

Model: C120 | Brand: Weego

INTRODUCTION

The Weego 120 is a powerful and versatile 12V jump starter designed to provide reliable starting power for a wide range of vehicles. Weighing just 5.5 lbs, this compact device delivers 5000 peak amps and 1200 cranking amps, making it suitable for all gas engines and diesel engines up to 15L. Beyond jump starting, it functions as a portable power bank for USB and 12V devices and includes a 600 lumen flashlight. Equipped with patented Smarty Clamps and built-in safety features, the Weego 120 ensures a safe and easy jump starting experience.

WHAT'S IN THE Box

- Weego 120 Jump Pack

- 30" Detachable Smarty Clamps
- Wall Charger
- Car Charger
- USB Type-C Charging Cord
- Drawstring Carry Bag

All items included with your Weego 120 Jump Starter.

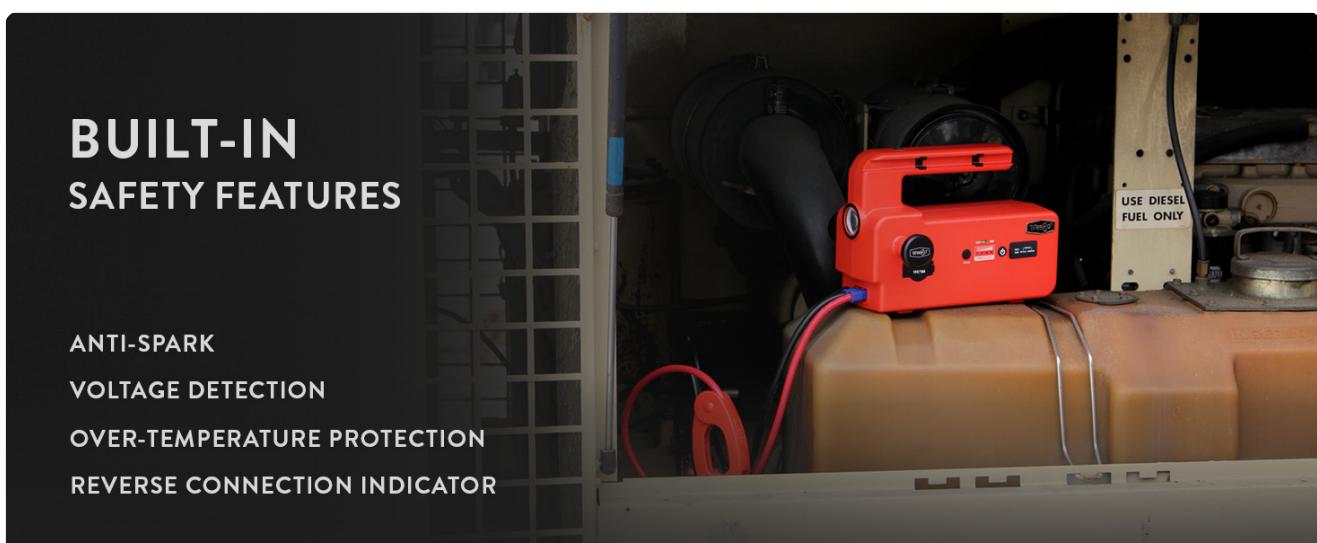

SETUP

Initial Charge

Before first use, fully charge your Weego 120 using the provided wall or car charger. The battery indicator lights on the unit will show the charge level. A full charge typically takes a few hours.

Connecting Smarty Clamps

To prepare for use, lift the protective flap on the Weego 120 unit and firmly plug the Smarty Clamps cable into the designated port. The unit will power on automatically once connected.

OPERATING INSTRUCTIONS

Jump Starting Your Vehicle

- Attach Black (-) and Red (+):** Connect the black clamp to the vehicle's negative battery terminal and the red clamp to the positive battery terminal.
- Wait for Green Light:** Observe the indicator light on the Smarty Clamps. A solid green light indicates it is ready to proceed. If the light is red or flashing, refer to the Troubleshooting section.
- Start Your Engine:** Once the green light is solid, start your vehicle's engine.
- Detach Clamps:** After the engine starts, immediately detach the clamps from the battery terminals.

Follow these three simple steps to jump start your vehicle.

Using as a Portable Power Bank

The Weego 120 features USB-C and two USB-A ports, allowing you to charge various electronic devices such as smartphones, tablets, and other USB-powered gadgets on the go.

Charge your essential devices anywhere with the Weego 120's power bank functionality.

Flashlight Functionality

The integrated 600 lumen LED flashlight provides illumination in low-light conditions. It offers multiple modes including solid, strobe, and SOS for emergency situations.

The powerful 500-lumen LED flashlight offers solid, strobe, and SOS modes for various needs.

12V Device Compatibility

The Weego 120 is compatible with portable air pumps, tire inflators, and other 12V devices, expanding its utility beyond jump starting.

Connect and power your 12V accessories with the Weego 120.

MAINTENANCE

Charging and Storage

To ensure optimal performance, it is recommended to fully charge your Weego 120 every 12 months, even if not in use. This helps maintain battery health. Store the unit in its drawstring carry bag in a cool, dry place, away from extreme temperatures.

TROUBLESHOOTING

Smarty Clamp Indicator Lights

The Smarty Clamps feature an indicator light that provides feedback on the connection status:

- Solid Green Light:** The connection is correct and the unit is ready to jump start.
- Solid Red Light:** The clamps are connected in reverse polarity. Disconnect and re-attach the clamps to the correct terminals (black to negative, red to positive).

- **Flashing Red Light:** The unit needs to cool down. Wait for a minute before attempting to jump start again.
