AirScape Steel Coffee Canister Family Set of 3

AirScape Steel Coffee Canister Family Instruction Manual

Brand: AirScape | **Model:** Steel Coffee Canister Family Set of 3

INTRODUCTION

The AirScape Steel Coffee Canister Family is designed to preserve the freshness and flavor of your dry goods, especially coffee. Featuring a patented plunger lid, these canisters effectively remove and lock out air and humidity, extending the life of your stored items. This set includes small, medium, and large sizes to suit various storage needs.

The AirScape Steel Coffee Canister Family includes three sizes to accommodate various storage needs.

COMPONENTS

Each AirScape canister consists of three main parts:

- **Canister Body:** Made from 18/8 restaurant-grade stainless steel with a soft impact rubber base.
- **AirScape Inner Lid:** The patented plunger lid designed to push out excess air.
- **BPA-Free Plastic Top Lid:** A clear outer lid for additional protection and stackability.

SETUP

Before first use, and after each use, follow these cleaning instructions:

1. Hand wash all components (canister body, inner lid, and outer lid) with warm, soapy water.
2. Rinse thoroughly to remove all soap residue.
3. Allow all parts to air dry completely before reassembling or storing contents.

Note: These canisters are not dishwasher safe. Avoid using abrasive cleaners or scrubbers that could damage the finish.

OPERATING INSTRUCTIONS

The AirScape system is designed for optimal freshness by removing air from the container. The patented two-way valve in the inner lid pushes out excess air, creating an airless environment.

Watch this video to see how the Airscape lid effectively removes air to keep contents fresh.

Filling the Canister

- Remove both the outer clear lid and the inner plunger lid.

- Pour your desired dry goods (e.g., coffee beans, tea, flour) into the canister. Do not overfill; leave enough space for the inner lid to be pressed down.

The AirScape canister is ideal for storing whole bean coffee, preserving its aroma and flavor.

Sealing for Freshness

- Place the inner plunger lid directly on top of the contents inside the canister.
- Press down firmly on the inner lid. As you press, the patented two-way valve will push out excess air. You will hear a distinct "swoosh" sound as the air is expelled.
- Continue pressing until the inner lid is flush with the contents, or as far down as it can go.
- Flip the handle on the inner lid down to lock the valve and prevent further oxygen exchange.
- Place the clear outer lid on top for added protection and to allow for stacking.

RECOMMENDED USES

AirScape canisters are versatile and can be used for a variety of dry goods:

- Whole bean or ground coffee
- Loose-leaf tea
- Flour, sugar, and other baking ingredients
- Cereal and granola
- Cookies and crackers
- Seeds, herbs, and spices
- Nuts and dried fruits
- Pet food and treats

MAINTENANCE AND CARE

To ensure the longevity and effectiveness of your AirScape canisters, please adhere to the following care instructions:

- **Hand Wash Only:** All components should be hand washed with warm, soapy water.
- **Do Not Dishwash:** The canisters are not dishwasher safe, as high temperatures and harsh detergents can damage the finish and seals.
- **Do Not Microwave:** These canisters are made of steel and are not microwave safe.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or harsh chemicals, as these can scratch the surface or damage the enamel paint finish.
- **Dry Thoroughly:** Ensure all parts are completely dry before storing contents to prevent moisture buildup.

SPECIFICATIONS

Feature	Description
Product Dimensions (Large Kilo)	7"W x 8"H
Product Dimensions (Medium)	5"W x 7"H
Product Dimensions (Small)	5"W x 4"H
Material	18/8 Restaurant-Grade Stainless Steel, BPA-Free Components
Color	Matte Black
Capacity (Large Kilo)	Approx. 2.2 lbs (1 kg) whole bean coffee
Capacity (Medium)	Approx. 1 lb (500 g) whole bean coffee
Capacity (Small)	Approx. 0.5 lb (250 g) whole bean coffee
Special Feature	Air Tight, Stackable, Sturdy

AIRSCAPE®

size:	small 4"	medium 7"	kilo 8"
material:	stainless steel, glass & ceramic		galvanized steel
dimensions:	5"w x 4"h	5"w x 7"h	7.5"w x 8"h
capacity: (coffee beans)	 8oz/250gr	1lb/500gr	2.5lb/1.1kg
capacity: (coffee grounds)	 10oz/250gr	1.25lb/550gr	3.13lb/1.42kg
volume: (liquid)	 32 fl. oz./946ml	64 fl. oz./1.8gl	120 fl. oz. /3.55l

Refer to this table for detailed specifications on each canister size.

TROUBLESHOOTING

- **Lid not pressing down easily:** Ensure the contents are not overfilled. The inner lid needs space to create the vacuum. Check for any debris around the silicone seal.
- **No "swoosh" sound:** The "swoosh" sound indicates air being expelled. If you don't hear it, ensure the inner lid is properly seated and you are pressing down firmly. The seal might be compromised if there's debris.
- **Contents not staying fresh:** Verify that the inner lid is pressed down as far as possible and the handle is flipped to the locked position. Ensure the outer lid is also securely placed.
- **Stains or odors:** Hand wash immediately after emptying contents. For stubborn odors, a baking soda paste can be used, followed by thorough rinsing and drying.

WARRANTY AND SUPPORT

Your AirScape Steel Coffee Canister Family is designed for durability and long-lasting freshness. For any product-related inquiries, issues, or to understand the return policy, please contact the seller directly. As per standard policy, a 30-day

return/replacement period is typically offered for new products.

For further assistance, you may reach out to Planetary Design, the manufacturer of AirScape products.
