# Audecook Hot Pot Electric 2L Instruction Manual

Model: 10205FR

Audecook Hot Pot Electric 2L, Ceramic Glaze Non-Stick Frying Pan 8 Inch, Portable Travel Cooker with Dual Power Control.

## 1. IMPORTANT SAFEGUARDS

Please read all instructions carefully before using this product to ensure safe and proper operation. Keep this manual for future reference.

- Before use, check whether the rated voltage on the product nameplate is the same as the voltage you use.
- The power cord plug must be plugged in the appropriate position.
- This container is prohibited from being soaked in water to avoid short circuit of the internal circuit.
- User should watch over the product when it works. Do not leave it unattended to avoid accidents.
- Do not allow children to approach or touch the product while working to avoid burns. This product is prohibited to be used unattended, and the power cord must be unplugged when it not in use.
- In order to clean the pot, please add the moderate amount of water and pour it out after boiling when you use the product for the first time.
- Do not hang the power cord on the table or in contact with hot objects.

### Key Features:

- **2L Capacity with Steamer:** Designed for multi-cooking, allowing steaming above and cooking below.
- **Multifunctional Electric Skillet:** Dual power control (350W for gentle cooking, 800W for high heat tasks).
- **Healthy Non-Stick Coating:** 5h hardness aluminum alloy interior with upgraded PFOA-free non-stick coating for easy cleaning.
- **Quick & Even Heating:** Unique 360° annular heating base ensures rapid and uniform heat distribution.
- **Overheating Protection:** Automatic power-off when temperature exceeds 180°C.
- **Portable and Stable:** Compact and lightweight design with four-leg non-slip base, ideal for travel and small spaces.

### 3. SETUP

1. **Unpack:** Carefully remove all components from the packaging, including the hot pot, lid, steamer insert, and silicone spatula.
2. **Initial Cleaning:** Before first use, clean the non-stick interior of the pot and the steamer insert with warm, soapy water. Rinse thoroughly and dry completely. As per safety instructions, you may also add a moderate amount of water to the pot and boil it, then pour it out.
3. **Placement:** Place the hot pot on a stable, flat, and heat-resistant surface. Ensure there is adequate ventilation around the unit.

4. **Power Connection:** Plug the power cord into a suitable electrical outlet. Ensure the voltage matches the product's rated voltage.

## 4. OPERATING INSTRUCTIONS

### 4.1 Dual Power Control

The Audecook Hot Pot features a dual power control knob located on the handle, allowing you to select between two power settings:

- **350W (Low Power):** Ideal for gentle cooking tasks such as making omelettes, ramen, or pancakes.
- **800W (High Power):** Suitable for more intensive cooking like steaming salmon, frying, cooking hot pot, sautéing vegetables, or steaks.

#### 4.2 Using the Pot (Cooking)

1. Add your ingredients to the non-stick pot.
2. Select the desired power setting (350W or 800W) using the control knob.
3. Monitor your cooking. The non-stick surface ensures food does not stick, and the 360° annular heating base provides quick and even heating.
4. Use the included silicone spatula or other non-abrasive utensils to protect the non-stick coating.

### 4.3 Using the Steamer Insert

The removable steamer insert allows for simultaneous steaming while cooking in the main pot.

1. Ensure there is sufficient liquid (water, broth, etc.) in the main pot to generate steam.
2. Place the steamer insert into the main pot.
3. Arrange your vegetables, fish, or other items to be steamed in the steamer insert.
4. Cover with the lid. The steam from the main pot will cook the food in the steamer, preserving nutrients and flavor.

## 5. MAINTENANCE AND CLEANING

Proper care and cleaning will extend the life of your Audecook Hot Pot.

- **Always unplug the appliance** from the power outlet and allow it to cool completely before cleaning.
- **Non-Stick Pot:** The interior of the pot is non-stick and easy to clean. Wipe clean with a soft cloth or sponge and mild dish soap. Rinse thoroughly. *Do not immerse the main pot in water.*
- **Steamer Insert and Lid:** The steamer insert (made of food-grade PP material) and the lid can be washed with warm, soapy water. They are not dishwasher safe.

- 
- A white Audecook electric skillet with a wooden handle is the centerpiece on a white marble table. The skillet is filled with a bubbling yellow sauce. Surrounding it are various dishes: a plate of french fries and corn, a fried egg with vegetables, a plate of chicken wings, a bowl of chicken nuggets with dipping sauce, a glass of orange juice, and a plate of strawberry shortcake. The table is set with gold cutlery and a candle holder.

## 6. TROUBLESHOOTING

Problem	Possible Cause / Solution
Appliance does not turn on.	<ul style="list-style-type: none"> <li>◦ Ensure the power cord is securely plugged into both the appliance and a working electrical outlet.</li> <li>◦ Check if the power outlet is functioning correctly by testing it with another appliance.</li> </ul>

Problem	Possible Cause / Solution
Food is not heating evenly.	<ul style="list-style-type: none"> <li>◦ Ensure the appliance is placed on a flat, stable surface.</li> <li>◦ Stir ingredients periodically to promote even cooking.</li> <li>◦ Ensure the correct power setting (350W or 800W) is selected for your cooking needs.</li> </ul>
