INFANTINO Flip Advanced 4-In-1

Infantino Flip Advanced 4-In-1 Convertible Baby Carrier User Manual

Model: Flip Advanced 4-In-1

INTRODUCTION

Thank you for choosing the Infantino Flip Advanced 4-In-1 Convertible Baby Carrier. This carrier is designed to provide comfort and support for both you and your child, offering four versatile carrying positions. Please read this manual thoroughly before using the carrier to ensure safe and proper operation.

This carrier is suitable for infants and toddlers weighing between 3.6 kg (8 lbs) and 18.14 kg (40 lbs).

SAFETY GUIDELINES

- Always ensure your baby's airway is clear and unobstructed.
- Regularly check that all buckles, straps, and adjustments are securely fastened.
- Ensure your baby is positioned correctly according to their age and developmental stage.
- Never use the carrier if any part is damaged or missing.
- Be mindful of your balance and surroundings when carrying your child.
- Do not engage in activities that could be dangerous while wearing the carrier, such as cooking, driving, or operating machinery.

SETUP AND ADJUSTMENTS

Before placing your child in the carrier, familiarize yourself with its components and adjustment points.

Image: The Infantino Flip Advanced 4-In-1 Convertible Baby Carrier, empty, highlighting its structure and adjustable components.

1. Waist Belt Adjustment

1. Fasten the waist belt around your natural waist or hips, ensuring a snug and comfortable fit.
2. Thread the strap through the buckle and pull to tighten.
3. Secure any excess webbing with the elastic loops.

2. Shoulder Strap Adjustment

- The shoulder straps are padded for comfort. Adjust their length to ensure the carrier sits high and snug on your body, with your baby close enough to kiss.
- The chest clip (connecting the shoulder straps) can be moved up or down for optimal comfort and support.

3. Seat Width Adjustment

The carrier features an adjustable seat to accommodate your baby's growth and different carrying positions.

- **Folded Seat:** For smaller infants or when carrying facing out. The seat narrows to support smaller legs.
- **Expanded Seat:** For older infants and toddlers, or when carrying facing in or on your back. The seat widens to provide an ergonomic "M" position for the baby's hips.

- Adjust the seat width using the buttons or toggles located at the base of the carrier, as indicated in the operating section.

OPERATING INSTRUCTIONS: CARRYING POSITIONS

The Infantino Flip Advanced offers four distinct carrying positions. Always ensure your baby is within the recommended weight range of 3.6 kg (8 lbs) to 18.14 kg (40 lbs) for all positions.

Image: Visual guide to the four carrying positions: 1. Facing-in folded seat, 2. Facing-in expanded seat, 3. Facing-out folded seat, 4. Back carry expanded seat.

1. Facing-In (Folded Seat) - For Newborns

Recommended for: Infants from 3.6 kg (8 lbs) with good head and neck control.

1. Ensure the seat is in the **folded** (narrow) position.
2. Fasten the waist belt securely around your waist.
3. Hold your baby against your chest and carefully guide their legs through the leg openings.
4. Bring the carrier panel up over your baby's back, ensuring it supports their head and neck.
5. Put on the shoulder straps and fasten the chest clip behind your neck/shoulders.
6. Adjust all straps for a snug fit, ensuring your baby is high enough to kiss and their knees are higher than their bottom (M-position).

2. Facing-In (Expanded Seat) - For Older Infants

Recommended for: Infants with strong head and neck control, typically from 6 months or when they outgrow the folded seat.

1. Ensure the seat is in the**expanded** (wide) position.
2. Follow steps 2-6 from the "Facing-In (Folded Seat)" instructions. The wider seat provides continued ergonomic support for growing babies.

3. Facing-Out (Folded Seat) - For Curious Babies

Recommended for: Babies with excellent head and neck control, typically from 6 months, who are actively engaging with their surroundings. Use for short periods only.

1. Ensure the seat is in the**folded** (narrow) position.
2. Fasten the waist belt securely around your waist.
3. Hold your baby facing outwards against your chest and guide their legs through the leg openings.
4. Bring the carrier panel up over your baby's back.
5. Put on the shoulder straps and fasten the chest clip.
6. Adjust all straps for a snug fit. Monitor your baby for signs of overstimulation.

4. Back Carry (Expanded Seat) - For Toddlers

Recommended for: Toddlers with strong trunk control, typically from 6 months and able to sit unassisted.

1. Ensure the seat is in the**expanded** (wide) position.
2. Fasten the waist belt securely around your waist.
3. With assistance, or using a safe method you are comfortable with, position your child on your back.
4. Bring the carrier panel up over your child's back.
5. Put on the shoulder straps and fasten the chest clip across your chest.
6. Adjust all straps for a secure and comfortable fit for both you and your child. Ensure your child has a clear view and is well-supported.

MAINTENANCE AND CARE

Proper care will extend the life of your Infantino Flip Advanced carrier.

- **Cleaning:** The carrier is machine washable. Use cold water on a gentle cycle with mild detergent.
- **Drying:** Air dry or tumble dry on low heat. Do not bleach or iron.
- **Storage:** Store the carrier in a clean, dry place away from direct sunlight when not in use.
- **Inspection:** Regularly inspect all buckles, straps, and seams for wear and tear. Discontinue use if any damage is found.

TROUBLESHOOTING

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Discomfort for wearer	Adjust the waist belt to sit higher or lower. Ensure shoulder straps are evenly tightened and the chest clip is at a comfortable height.
Baby seems uncomfortable or slumps	Ensure the carrier is snug and baby is high enough to kiss. Check that the seat width is appropriate for their size and position, supporting an "M" shape for their hips. Re-adjust straps.
Straps are difficult to adjust	Loosen all straps before placing the baby, then tighten them one by one. Ensure webbing is not twisted or caught in buckles.
Carrier feels loose or insecure	Double-check all buckles are securely fastened and audible clicks are heard. Tighten all straps until the carrier feels snug against your body and your baby is secure.
