VICTGOAL HT-23

VICTGOAL Bike Helmet with LED Rear Light (Model HT-23) Instruction Manual

Introduction

This manual provides essential information for the proper use, adjustment, and maintenance of your VICTGOAL Bike Helmet (Model HT-23). Please read these instructions carefully before using your helmet to ensure maximum safety and comfort. This helmet is designed for cycling activities and features an integrated LED rear light, magnetic goggles, and a sun visor.

Product Features

- **Rechargeable LED Rear Light:** Enhances visibility with three lighting modes: steady, fast flashing, and slow flashing. Charges via USB and provides up to 10 hours of use.
- **Cool and Lightweight Design:** Features 21 breathable vents to reduce air resistance and maintain comfort during rides. Weighs approximately 310g (0.68 lb).
- **Impact Resistance:** Constructed with a high-density PC shell and EPS foam to absorb impact and provide comprehensive protection.
- **Magnetic Goggles and Visor:** Includes a detachable magnetic goggle and a sun visor. The goggle protects eyes from sunlight, wind, and debris, and can be worn with prescription glasses.
- **Adjustable Fit System:** Equipped with an adjustable dial for a secure and comfortable fit for various head sizes. Available in M, L, and XL.

Setup and Installation

1. Adjusting Helmet Fit

Proper fit is crucial for helmet safety. The helmet should sit level on your head, covering your forehead, and should not move excessively when shaken.

1. Place the helmet on your head.
2. Locate the adjustment dial at the back of the helmet.
3. Turn the dial clockwise to tighten the fit or counter-clockwise to loosen it until the helmet feels snug but comfortable.

4. Adjust the side straps so they form a 'V' shape just below your ears.
5. Fasten the chin strap buckle and tighten it so that no more than two fingers can fit between the strap and your chin.

2. Attaching the Sun Visor

The sun visor can be attached to the front of the helmet to provide shade.

1. Align the three pins on the visor with the corresponding slots on the helmet.
2. Gently push the pins into the slots until they snap securely into place.
3. To remove, carefully pull the visor away from the helmet at each pin location.

3. Attaching Magnetic Goggles

The magnetic goggles attach to the helmet for eye protection.

1. Hold the goggles near the front of the helmet.
2. The magnets will automatically align and secure the goggles to the helmet.
3. To remove, gently pull the goggles away from the helmet.

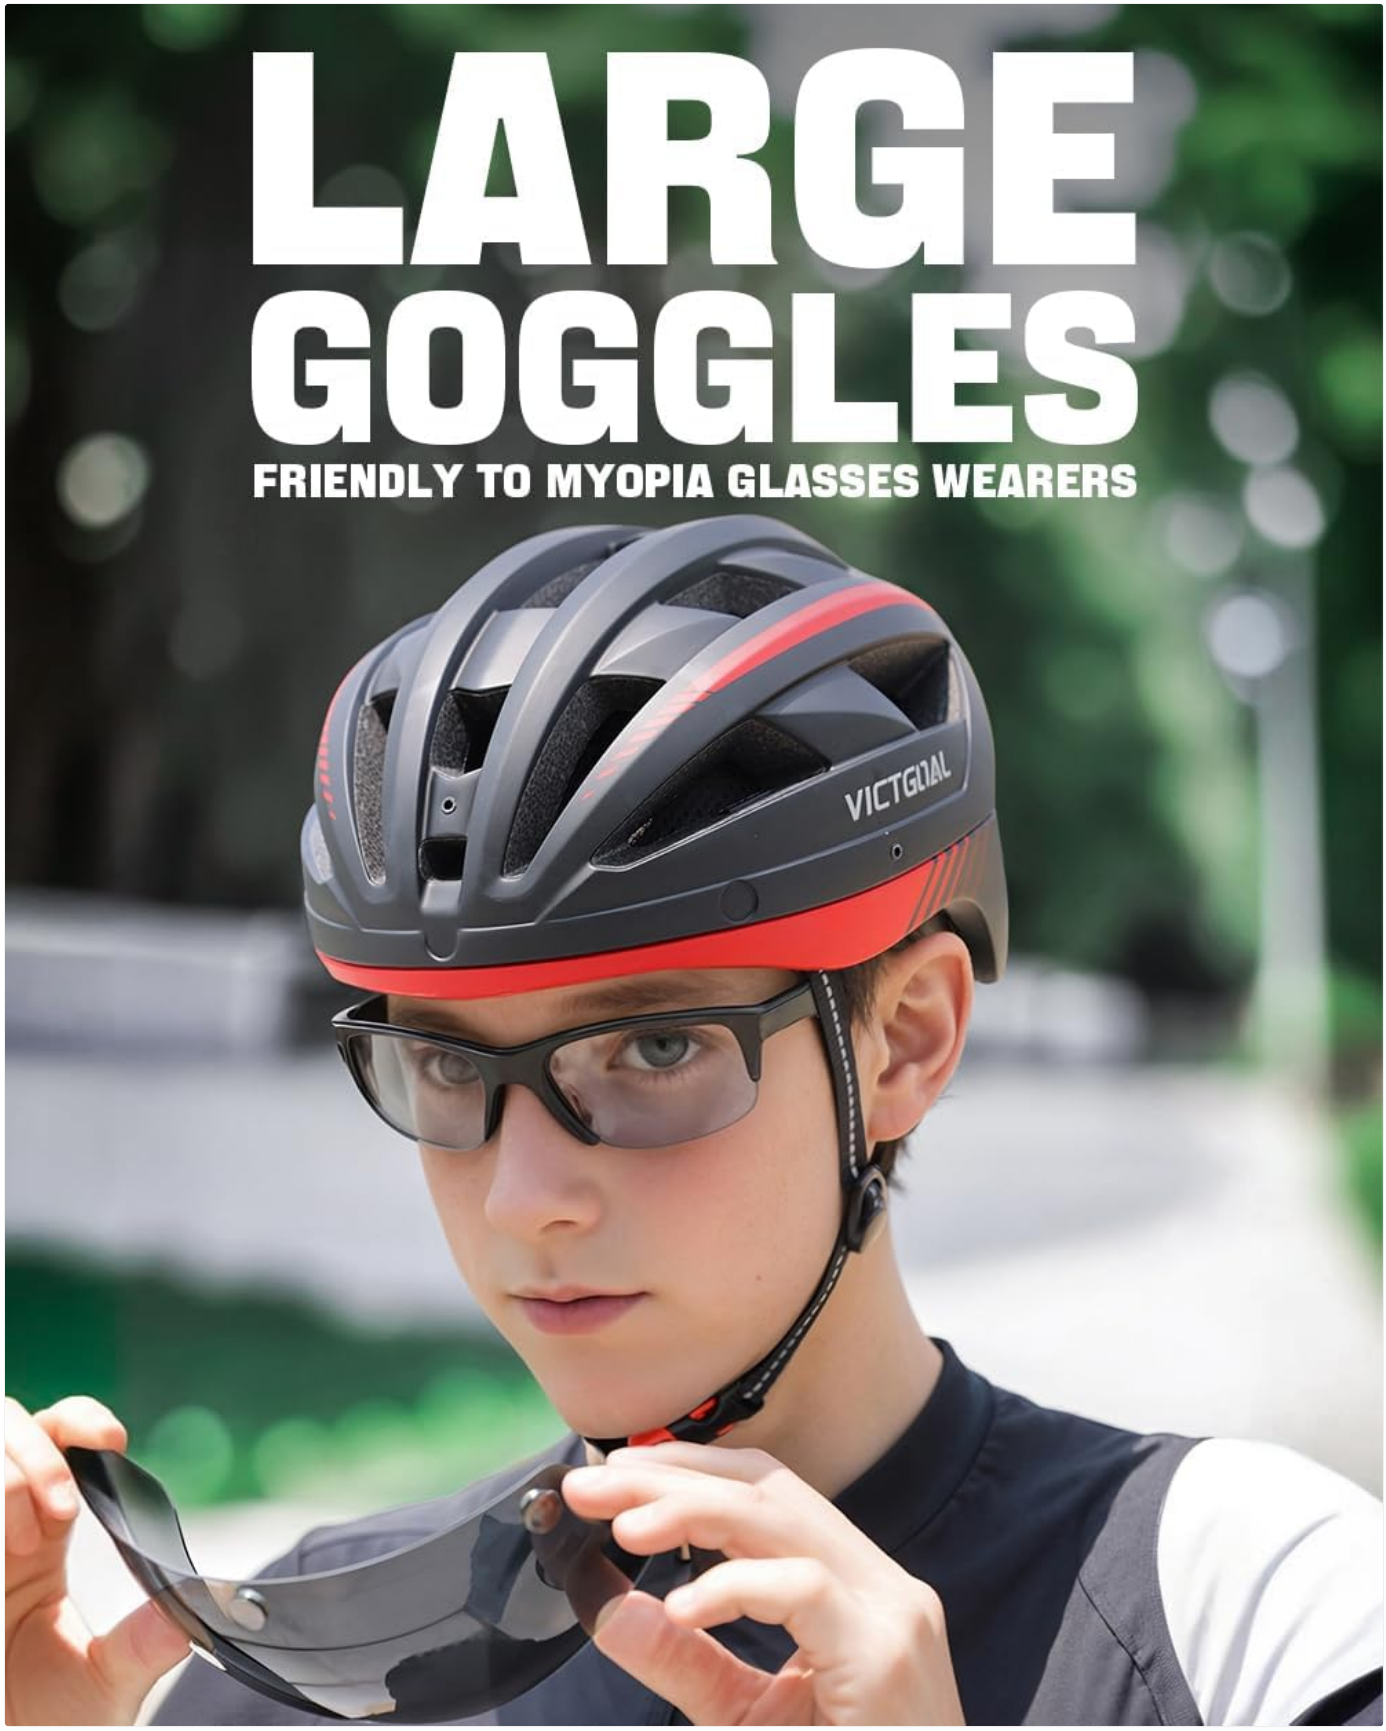

Image: Attaching the magnetic goggles to the helmet.

4. Charging the LED Rear Light

The integrated LED rear light is rechargeable via USB.

1. Locate the USB charging port on the rear light unit.
2. Connect the provided USB cable to the port and to a standard USB power source (e.g., computer, wall adapter).
3. The indicator light will show charging status (e.g., red for charging, green/blue for fully charged).

4. A full charge typically takes approximately 2 hours.

Operation

1. Using the LED Rear Light

Press the power button on the LED light unit to cycle through the three lighting modes:

- **Steady:** Constant illumination for continuous visibility.
- **Fast Flashing:** Rapid flashing for increased attention.
- **Slow Flashing:** Slower flashing pattern for varied visibility needs.

Press and hold the button to turn the light off.

2. Using Goggles and Visor

The magnetic goggles provide protection from sun, wind, and debris. They are designed to fit over most prescription glasses. The sun visor offers additional shade.

Sizing and Fit Guide

To determine your correct helmet size, measure the circumference of your head approximately 0.6 inch (1.5 cm) above your ears and across your forehead.

Size	Head Circumference	Recommended For

Size	Head Circumference	Recommended For
M	54-58 cm (21.3-22.8 inches)	Teenagers / Adults with Small Head Size
L	57-61 cm (22.4-24 inches)	Adult Men and Women
XL	59-63 cm (23.2-24.8 inches)	Adults with Large Head Size

Recommendation: If your head measurement falls between two sizes, choose the larger size for a more comfortable fit.

Maintenance

1. Cleaning the Helmet

Regular cleaning helps maintain hygiene and extends the helmet's lifespan.

- The inner liner is soft and washable. Detach it from the helmet for cleaning.

- Wash the liner by hand with mild soap and water. Allow it to air dry completely before reattaching.
- Wipe the outer shell with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.

2. LED Light Care

- Ensure the USB charging port cover is securely closed when not charging to prevent moisture ingress.
- Charge the LED light regularly, especially if the helmet is stored for extended periods, to maintain battery health.

Troubleshooting

- **Helmet feels loose or too tight:** Re-adjust the rear dial and chin straps as described in the "Adjusting Helmet Fit" section.
- **LED Rear Light not turning on:** Ensure the light is fully charged. If the issue persists, contact customer support.
- **Goggles/Visor not attaching securely:** Check for any obstructions on the magnetic points or pins. Ensure they are clean and properly aligned.

Specifications

Feature	Detail
Brand	VICTGOAL
Model Number	HT-23 (VA112)
Material (Outer)	Polycarbonate (PC)
Material (Inner)	Expanded Polystyrene (EPS)
