Key Features

4K UHD Resolution with HDR10

Experience an amazingly pristine image with a resolution of 3840 x 2180, producing vivid and brilliant pictures. High Dynamic Range (HDR10) technology improves contrast with true-to-life shadows and detail, offering a wider range of warm and bright colors for a truly immersive viewing experience.

Direct LED (DLED) Technology

DLED technology provides a high contrast ratio with brilliant, saturated colors. Local dimming minimizes blooming for deep blacks, enhancing the overall picture quality.

ROKU Integrated Advantages

With Roku integrated, you have instant access to a vast selection of apps from top-tier streaming services like Netflix, Disney+, YouTube, and many more. The single remote control simplifies your entertainment experience, eliminating the need for multiple remotes.

Voice Control with Popular Assistants

The JVC Roku TV supports voice control through the free Roku mobile app, allowing you to search by voice. It is

also compatible with popular voice assistants like Alexa, Siri, and Google Assistant, enabling you to control your TV with simple voice commands.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your JVC Roku Smart TV.

Cleaning the Screen

Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a screen-specific cleaning solution. Never spray liquid directly onto the screen.

Cleaning the Cabinet

Wipe the TV cabinet with a soft, dry cloth. Avoid using abrasive cleaners or solvents.

Software Updates

Your Roku TV automatically receives software updates when connected to the internet. Ensure your TV is connected to Wi-Fi or Ethernet to receive the latest features and performance improvements.

Troubleshooting

If you encounter issues with your TV, refer to the following common solutions.

Problem	Possible Solution
No Power	Check if the power cord is securely plugged into the TV and the wall outlet. Try a different outlet.
No Picture, But Sound	Ensure the correct input source is selected. Check all cable connections (HDMI, AV).
No Sound, But Picture	Check the volume level and mute settings. Verify audio cable connections. If using external speakers, check their power and connections.
Cannot Connect to Wi-Fi	Ensure your Wi-Fi router is on and working. Re-enter the Wi-Fi password. Try restarting both the TV and the router.
Remote Not Working	Replace the batteries in the remote. Ensure there are no obstructions between the remote and the TV's IR sensor.
