- Step 1: Assemble the Headboard.** Attach the headboard posts to the main headboard panel using the provided hardware. Ensure all connections are secure.
- Step 2: Assemble the Footboard.** Similar to the headboard, attach the footboard posts to the main footboard panel.
- Step 3: Prepare Side Rails.** Attach the support blocks and any necessary hardware to the inner side of the long side rails.
- Step 4: Connect Headboard and Footboard to Side Rails.** Securely attach the prepared side rails to the headboard and footboard using the designated bolts and nuts. Do not fully tighten until all frame components are aligned.
- Step 5: Install Bed Slats.** Place the wooden slats across the bed frame, ensuring they are evenly spaced. Secure each slat to the side rails using the provided screws. This forms the mattress support.
- Step 6: Assemble Drawer Sides.** Connect the front, back, and side panels of each storage drawer.
- Step 7: Install Drawer Bottoms.** Slide the drawer bottom panels into the grooves of the assembled drawer sides.
- Step 8: Attach Drawer Casters.** Secure the casters to the bottom of each assembled drawer using screws. This allows the drawers to roll smoothly under the bed.
- Step 9: Insert Drawers.** Carefully slide the completed storage drawers into position under the bed frame.

Once all steps are completed, double-check all connections for tightness and stability before placing a mattress on the bed.

## MAINTENANCE

- **Cleaning:** Wipe down the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and safety.
- **Drawer Care:** Keep the drawer tracks clean and free of debris to ensure smooth operation.
- **Avoid Excessive Moisture:** Protect the wood from prolonged exposure to moisture or extreme temperature changes.

## TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame makes squeaking noises, check all hardware connections and tighten any loose bolts or screws. Ensure slats are properly seated.
- **Drawers Not Sliding Smoothly:** Check for any obstructions in the drawer tracks. Ensure casters are clean and properly attached.
- **Instability:** If the bed feels unstable, verify that all components are correctly assembled according to the instructions and all fasteners are fully tightened.

- **Missing Parts:** If you discover any missing parts during assembly, please contact Bellemave customer support for assistance.
