

Ibergrif M85545

Ibergrif M85545 Stainless Steel Over-the-Counter Sink User Manual

Model: M85545

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Ibergrif M85545 Stainless Steel Over-the-Counter Sink. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product.

The Ibergrif M85545 sink is crafted from high-quality stainless steel, offering resistance to high temperatures and corrosion. Its design incorporates a large capacity, an easy-to-clean surface with X-channel drainage, noise-reducing pads, and overflow protection for enhanced functionality and user convenience.

2. SAFETY INFORMATION

- Always read and understand all instructions before beginning installation or use.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure all plumbing connections are secure and watertight to prevent leaks.
- Do not use harsh chemicals or abrasive cleaning agents on the sink surface, as this can damage the finish.
- If you are unsure about any installation steps, consult a qualified plumber.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- 1 x Ibergrif M85545 Stainless Steel Sink
- 1 x Drain Filter Assembly (basket, main body, cover)
- Mounting Hardware
- Flexible Drainage Pipe

- Overflow Pipe

4. SPECIFICATIONS

Brand:

Ibergriif

Model:

M85545

Material:

Stainless Steel

Finish:

Brushed

Overall Dimensions (L x W x H):

55 x 45 x 19 cm (21.65"D x 17.72"W x 7.48"H)

Inner Bowl Dimensions (L x W x H):

50 x 35 x 19 cm

Panel Thickness:

3mm

Installation Type:

Over-the-Counter (Countertop)

Hole Count:

2 (for faucet and accessories)

Drain Type:

Grid

Item Weight:

15.53 pounds (approx. 7.04 kg)

5. SETUP & INSTALLATION

The Ibergrif M85545 sink is designed for over-the-counter installation. Follow these steps carefully for a secure and leak-free setup.

5.1. Preparation

- Ensure your countertop is clean, dry, and structurally sound.
- Gather all necessary tools (e.g., sealant, screwdriver, wrench, jigsaw for cutout).

5.2. Countertop Cutout

Using the provided template (if included) or the dimensions below, carefully cut the opening in your countertop.

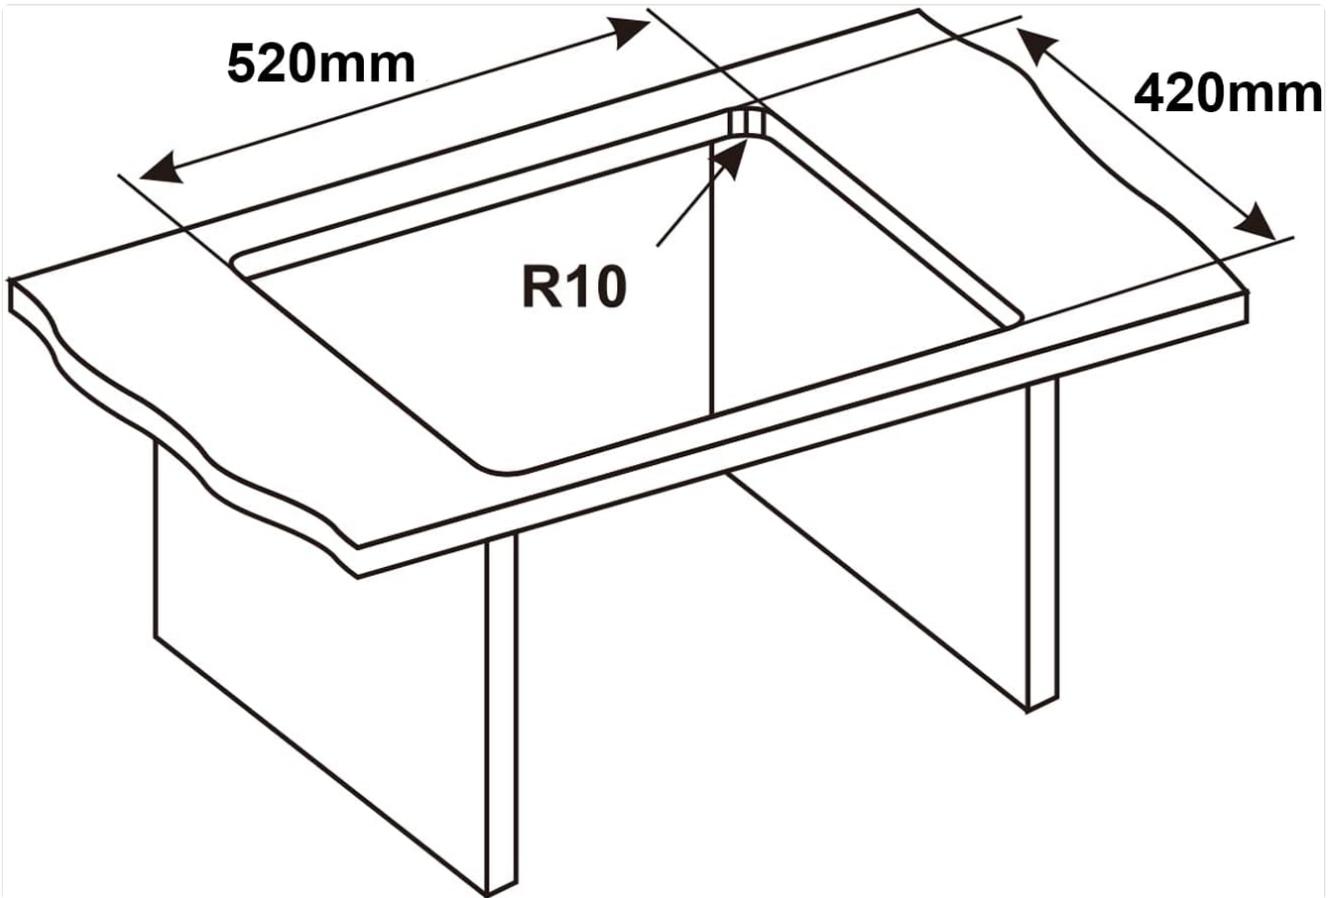

Image 5.1: This diagram illustrates the recommended countertop cutout dimensions (520mm x 420mm with R10 corners) for the Ibergrif M85545 sink. Ensure your cutout matches these measurements for a secure fit.

5.3. Sink Placement

- Apply a bead of silicone sealant around the perimeter of the countertop cutout.
- Carefully lower the sink into the opening, ensuring it is centered and level.

5.4. Secure Mounting

- From underneath the countertop, attach the provided mounting clips or hardware to secure the sink.
- Tighten the screws evenly until the sink is firmly seated against the countertop. Do not overtighten.

5.5. Drain Assembly Installation

Assemble and install the drain filter components into the sink's drain hole.

1. Refer to Image 5.2 and 5.3 for the correct order of components.
2. Place the rubber gasket and drain body into the sink's drain opening from above.
3. From underneath, secure the drain body with the washer and locking nut, ensuring a watertight seal.
4. Insert the removable drain basket into the drain body.

Image 5.2: This image displays the individual components of the drain filter assembly, including the basket, main body, and cover. Proper assembly ensures effective filtration and drainage.

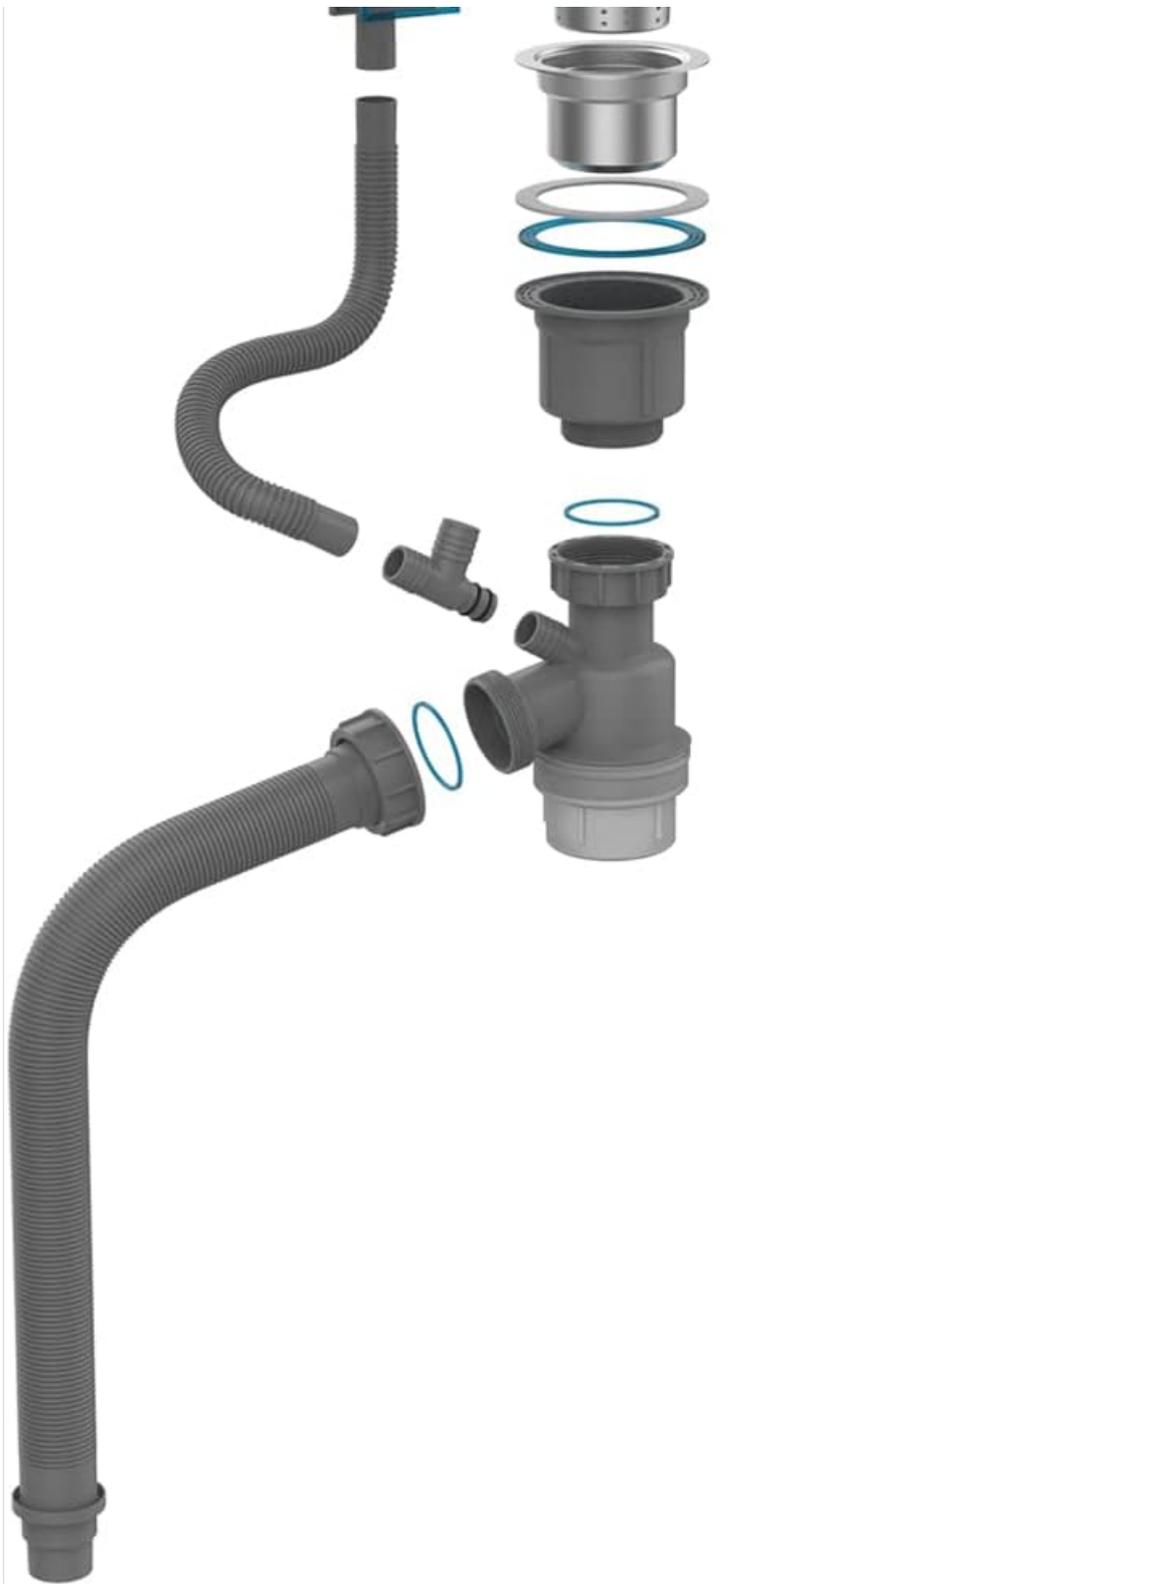

Image 5.3: Detailed view of the drain assembly components and their order of installation, including gaskets and pipes, for a leak-free connection.

5.6. Plumbing Connections

Connect the flexible drainage pipe and overflow pipe to the installed drain assembly and then to your household plumbing system. Ensure all connections are hand-tightened and then gently secured with a wrench, avoiding overtightening.

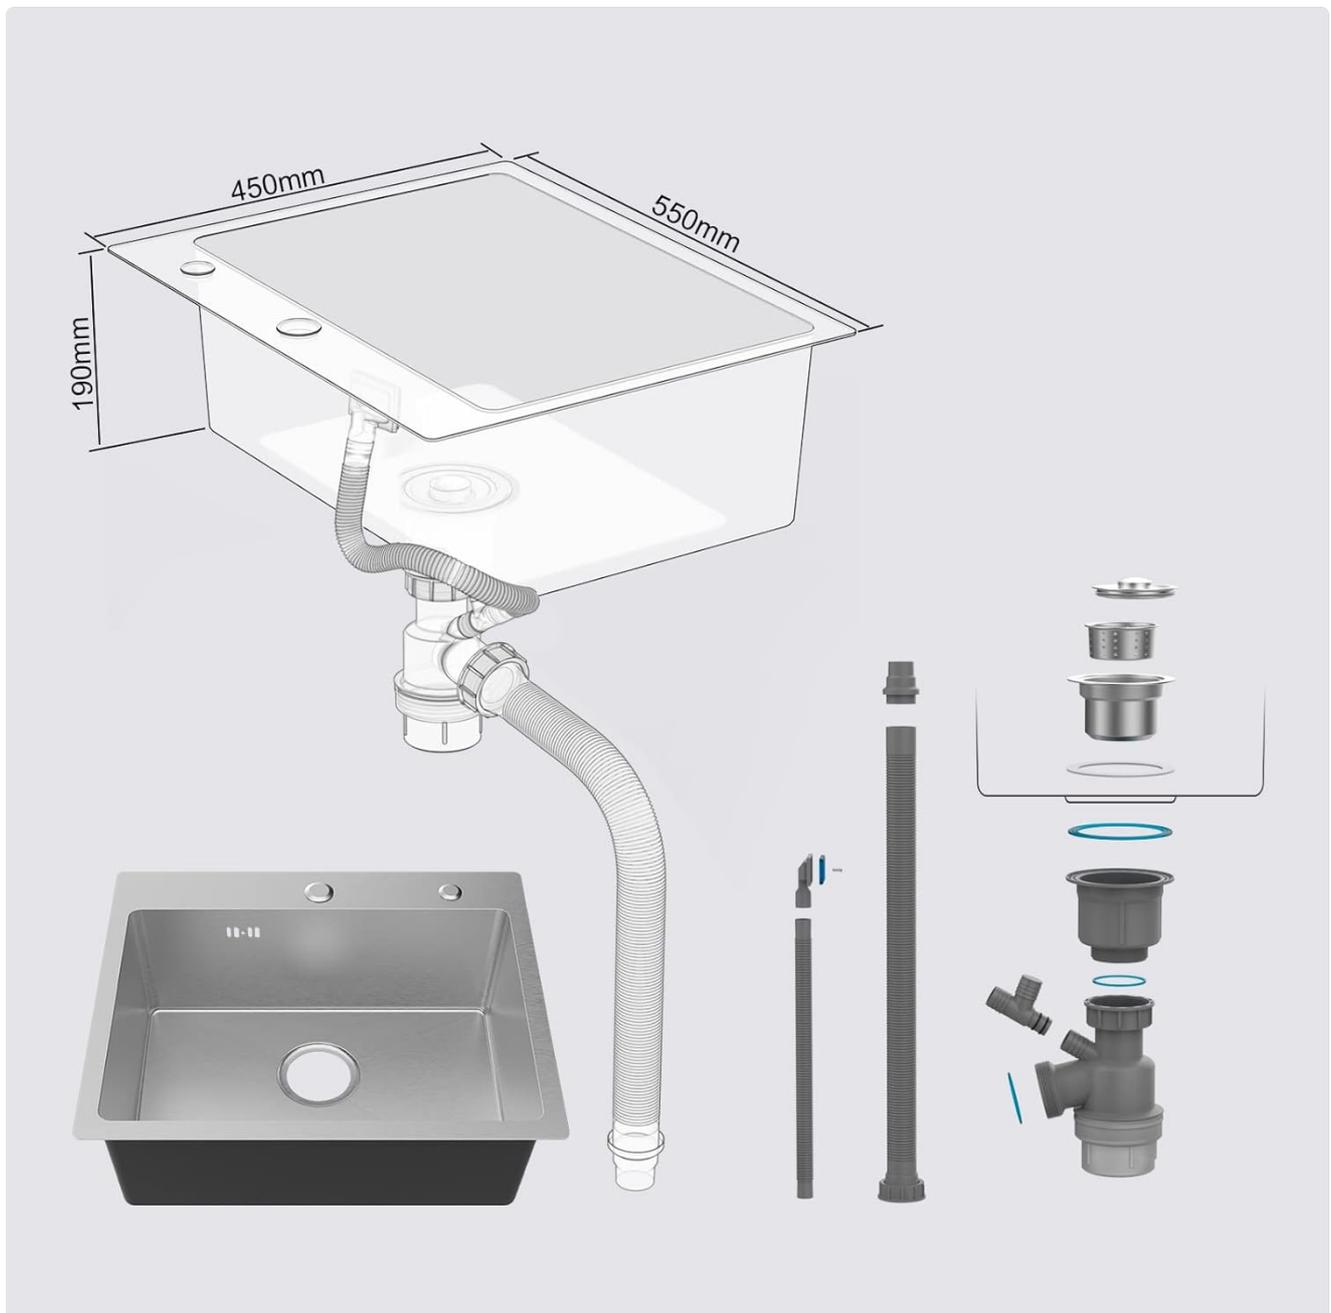

Image 5.4: This diagram illustrates the complete plumbing setup for the Ibergrif M85545 sink, showing the connection of the drain, overflow, and flexible pipes to the main waste line.

5.7. Faucet and Accessory Installation

Install your chosen faucet and any other accessories (e.g., soap dispenser) into the pre-drilled holes according to their respective manufacturer's instructions.

5.8. Leak Test

Once all connections are made, turn on the water supply and run water into the sink. Carefully inspect all connections for any signs of leaks. Tighten any leaking connections as needed.

6. OPERATING INSTRUCTIONS

The Ibergrif M85545 sink is designed for standard kitchen tasks such as washing dishes, food preparation, and general cleaning. The integrated drain filter effectively catches food particles, preventing clogs in your plumbing. The overflow hole provides an additional safety measure, preventing water from spilling over the countertop if the faucet is accidentally left running.

Image 6.1: The Ibergrif M85545 sink installed in a kitchen setting, demonstrating its functional integration with a faucet and countertop.

7. MAINTENANCE & CARE

Proper care will help maintain the appearance and extend the life of your stainless steel sink.

- **Daily Cleaning:** After each use, wipe the sink surface with a soft cloth or sponge and mild dish soap or detergent. Rinse thoroughly with clean water and dry to prevent water spots.
- **Stain Removal:** For stubborn stains, use a non-abrasive stainless steel cleaner. Always rub in the direction of the grain to avoid scratching.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, steel wool, scouring pads, or harsh chemicals such as bleach, ammonia-based cleaners, or drain cleaners directly on the sink surface. These can damage the stainless steel finish.
- **Drain Filter:** Regularly remove and clean the drain filter to prevent the buildup of food particles and ensure efficient drainage.
- **Prevent Scratches:** While stainless steel is durable, it can scratch. Use cutting boards for food preparation and

avoid dragging heavy or sharp objects across the sink surface.

8. TROUBLESHOOTING

Here are some common issues and their potential solutions:

- **Slow Drainage:**
 - Check if the drain filter is clogged with food particles. Clean it thoroughly.
 - Inspect the flexible drainage pipe for kinks or blockages.
- **Leaks around Drain:**
 - Ensure all drain assembly gaskets are properly seated and tightened.
 - Check plumbing connections for tightness. Apply plumber's tape or sealant if necessary.
- **Water Spots/Streaks:**
 - These are common with stainless steel, especially in hard water areas. Wipe the sink dry after each use.
 - Use a stainless steel polish to restore shine and reduce water spot visibility.
- **Minor Scratches:**
 - Stainless steel can develop minor scratches over time. These are often part of normal wear.
 - Specialized stainless steel scratch removal kits may help reduce the appearance of minor scratches.

9. WARRANTY INFORMATION

Ibergrif products typically come with a manufacturer's warranty. For detailed warranty terms, conditions, and registration information, please refer to the warranty card included with your purchase or visit the official Ibergrif website. This manual does not provide specific warranty details.
