

## CaDA C51072W

# CaDA RC Racing Building Toy Instruction Manual

MODEL: C51072W

## 1. Introduction

This instruction manual provides comprehensive guidance for the assembly, operation, and maintenance of your CaDA RC Racing Building Toy, Model C51072W. This STEM building block set allows you to construct a detailed sports car that can be controlled via both a dedicated 2.4GHz remote control and a smartphone application, offering multiple interactive play modes.

## 2. Safety Information

- This product is not suitable for children under 3 years old due to small parts which may present a choking hazard.
- Adult supervision is recommended during assembly and operation.
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Ensure all battery compartments are securely closed before use.
- Avoid operating the vehicle near water or in wet conditions to prevent damage to electronic components.

## 3. What's in the Box

Your CaDA RC Racing Building Toy package includes the following components:

- Building Blocks (approximately 306 pieces)
- RC Chassis / Motor Unit (pre-assembled)
- 2.4GHz Remote Control
- Instruction Manual (this document)

# Fun to Build Perfect for Play & Display

## 4. Setup

### 4.1 Assembly

Follow the detailed step-by-step instructions provided in the included physical instruction manual to assemble the sports car using the building blocks. The RC chassis and motor unit come pre-assembled, simplifying the construction process.

### 4.2 Battery Installation

Ensure batteries are inserted with correct polarity (+/-) as indicated in the compartments.

- **For the Car:** Insert 3 x AA 1.5V batteries (not included) into the battery compartment of the RC chassis.
- **For the Remote Control:** Insert 2 x AAA 1.5V batteries (not included) into the battery compartment of the remote control.

### 4.3 App Download and Connection

To utilize the advanced app control features, download the CaDA Smart APP:

1. Scan the QR code found on the product packaging or in the video cover image to directly download the

APP.

2. Alternatively, visit the official CaDA website to find the download link.
3. Ensure your smartphone meets the minimum requirements: iOS 12.0 or Android 8.0 and above.
4. Once installed, open the app and follow the on-screen instructions to connect to your RC car via Bluetooth.

## 5. Operating Instructions

### 5.1 Remote Control Operation

The included 2.4GHz remote control provides intuitive command over your RC car. Ensure both the car and remote have fresh batteries and are powered on.

- **Power Switch:** Located on the remote, turn it on to activate. An indicator light will illuminate.

- **Driving Control:** Use the left joystick to control forward and reverse movement.
- **Steering Control:** Use the right joystick to control left and right steering.
- The remote offers an interference-free system with a range of approximately 25 meters.

## 5.2 App Control Operation

The CaDA Smart APP unlocks advanced control modes for enhanced playability:

- **Remote Control Mode:** Mimics the physical remote, allowing direct control of movement and steering via your smartphone screen.
- **Scratch Programming Mode:** Drag and drop coding blocks to create custom movement sequences for the car. This mode supports various commands like forward, reverse, turns, and pauses, allowing for creative programming.
- **Gyroscope Control:** Control the car's steering by tilting your smartphone, providing an immersive driving experience.
- **Path Mode:** Draw a path on your smartphone screen, and the car will automatically follow the drawn route.

## 6. Maintenance

- Keep the building blocks and RC unit clean and free from dust. Wipe with a dry cloth.
- Avoid exposing the product to extreme temperatures or direct sunlight for prolonged periods.
- If the toy will not be used for an extended period, remove all batteries from both the car and the remote control to prevent leakage and corrosion.
- Store the assembled car and loose blocks in a dry, safe place.

## 7. Troubleshooting

| Problem                                | Possible Cause   | Solution   |
|--|--|--|
| Car does not move or respond.          | Low or dead batteries in car or remote; incorrect battery installation; car/remote not powered on; out of range. | Replace batteries; ensure correct polarity; turn on both devices; move closer to the car.  |
| App connection issues.                 | Bluetooth not enabled; app not updated; car not powered on; interference.  | Enable Bluetooth on your device; update the app to the latest version; ensure car is on; try connecting in a different location. |
| Car moves erratically or not straight. | Steering trim needs adjustment; loose connections in assembly.   | Adjust the steering trim on the remote or within the app; check the assembly of the car, especially the steering components.     |

## 8. Specifications

- **Product Name:** RC Racing Building Toy
- **Model Number:** C51072W
- **Brand:** CaDA
- **Pieces:** Approximately 306 PCS
- **Product Dimensions:** 7.9 x 3.7 x 2.1 inches (20.07 x 9.4 x 5.33 cm)
- **Item Weight:** 1.41 pounds (0.64 kg)
- **Manufacturer Recommended Age:** 6 - 12 years
- **Car Battery:** 3 x AA 1.5V (not included)
- **Radio Control Battery:** 2 x AAA 1.5V (not included)
- **Radio Control Range:** Up to 25 meters
- **Vehicle Speed:**  $\geq 3.8$  km/h
