Pokémon 49/202

Pokémon Lapras V 49/202 Sword & Shield Ultra Rare Foil Card Instruction Manual

Official Guide for the Lapras V (49/202) Trading Card Game Collectible

1. Product Overview

This instruction manual provides comprehensive details regarding the Pokémon Lapras V card, specifically card number 49/202 from the Sword & Shield series. This is an Ultra Rare Foil collectible trading card designed for gameplay within the Pokémon Trading Card Game (TCG) and for collection purposes.

2. Card Details

Figure 1: The Lapras V (49/202) Pokémon card. This image displays the complete Lapras V Pokémon card, featuring the Water-type Pokémon Lapras amidst splashing water. The card details include its HP, type, attacks, weakness, resistance, and retreat cost.

The Lapras V card is a Basic Pokémon with specific attributes essential for gameplay:

- **Card Name:** Lapras V
- **Card Number:** 49/202
- **Rarity:** Ultra Rare Foil
- **Type:** Water (indicated by the blue symbol)
- **HP:** 210
- **Attacks:**
  - **Body Surf:** Requires 1 Water Energy. Effect: Attach a Water Energy card from your hand to this Pokémon. If you do, switch it with 1 of your Benched Pokémon.
  - **Ocean Loop:** Requires 3 Water Energy and 1 Colorless Energy. Effect: Deals 210 damage. Put 2 Energy attached to this Pokémon into your hand.
- **Weakness:** Lightning (x2)
- **Resistance:** None
- **Retreat Cost:** 2 Colorless Energy
- **V Rule:** When your Pokémon V is Knocked Out, your opponent takes 2 Prize cards.

3. Setup and Integration

To integrate the Lapras V card into your Pokémon TCG deck, ensure it adheres to the official Pokémon TCG deck construction rules. A standard deck consists of 60 cards, including Pokémon, Energy cards, and Trainer cards. Lapras V is a Basic Pokémon, meaning it can be played directly onto your Bench or Active Spot without needing to evolve from

another Pokémon.

- **Deck Inclusion:** Consider the synergy of Lapras V's Water typing and attacks with other cards in your deck, particularly Water Energy and other Water-type Pokémon.
- **Energy Requirements:** Ensure your deck contains sufficient Water Energy cards to power Lapras V's attacks.
- **Strategic Placement:** As a V Pokémon, Lapras V is a powerful card that gives up two Prize cards when Knocked Out. Plan its deployment carefully during gameplay.

4. Operating (Gameplay Instructions)

During a Pokémon TCG match, Lapras V can be played from your hand to your Bench. Once in the Active Spot and with sufficient Energy attached, it can use its attacks:

- **Body Surf (1 Water Energy):** This attack allows you to attach a Water Energy from your hand to Lapras V. This is useful for accelerating Energy attachment. The secondary effect allows you to switch Lapras V with one of your Benched Pokémon, providing strategic flexibility for retreating or bringing in a different attacker.
- **Ocean Loop (3 Water Energy, 1 Colorless Energy):** This attack deals 210 damage, a significant amount. However, it requires you to return two Energy cards attached to this Pokémon to your hand. This effect needs to be managed carefully to ensure Lapras V can attack again in subsequent turns or to re-allocate Energy to other Pokémon.

Remember to account for its Lightning Weakness and the V Rule when planning your strategy.

5. Care and Handling (Maintenance)

To preserve the condition and value of your Lapras V Ultra Rare Foil card, follow these care guidelines:

- **Protective Sleeves:** Always store the card in a soft sleeve, then place it into a top loader or a binder with protective pages.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading and damage to the card's artwork and foil.
- **Temperature and Humidity:** Store cards in a stable environment, away from extreme temperature fluctuations or high humidity, which can cause warping or moisture damage.
- **Clean Hands:** Handle the card with clean, dry hands to prevent oils and dirt from transferring to its surface.
- **Safe Transport:** When transporting, ensure the card is securely protected to prevent bending or creasing.

6. Troubleshooting

This section addresses common concerns regarding collectible trading cards:

- **Card Damage:** If the card sustains minor damage (e.g., a small bend or scratch), its collectible value may decrease. For significant damage, consider professional grading services for assessment, though severe damage may render it ineligible for high grades.
- **Authenticity Concerns:** If you suspect the card is not authentic, compare it against known genuine cards from the Sword & Shield set. Look for discrepancies in print quality, color, texture, and font. Consult reputable card shops or online communities for verification.
- **Lost or Stolen Card:** Report lost or stolen valuable cards to local authorities if applicable. Keep records of your card's details (e.g., photos, purchase receipts) for identification.

7. Specifications

Attribute	Detail
Brand	Pokémon
Card Name	Lapras V
Card Number	49/202
Set Name	Sword & Shield (Base Set)
Rarity	Ultra Rare Foil
Year	2020
