5. Maintenance

To ensure the longevity and optimal performance of your Electactic electric fireplace, follow these general maintenance guidelines:

- Cleaning:** Ensure the unit is turned off and unplugged before cleaning. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or sprays.
- Air Vents:** Periodically check and clean the air intake and outlet vents to ensure they are free from dust and debris. Blocked vents can reduce heating efficiency and pose a fire hazard.
