LOMAZOO LZAMY

LOMAZOO LZAMY Black Stainless Steel Kitchen Sink Instruction Manual

Model: LZAMY

1. INTRODUCTION

Thank you for choosing the LOMAZOO LZAMY Black Stainless Steel Kitchen Sink. This manual provides essential information for the safe installation, operation, and maintenance of your new sink. Please read these instructions carefully before beginning installation and retain them for future reference.

2. PRODUCT OVERVIEW

The LOMAZOO LZAMY is a premium black stainless steel kitchen sink designed for durability and functionality. It features a single basin, an integrated soap dispenser, and advanced noise reduction and anti-condensation technologies to enhance your kitchen experience.

5. SAFETY INSTRUCTIONS

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during installation.
- Ensure all water supply lines are turned off before beginning any plumbing work.
- Handle the sink carefully to avoid scratches or damage.
- If you are unsure about any step of the installation process, consult a qualified plumber.
- Do not use harsh chemicals or abrasive cleaners on the sink surface.

6. SETUP AND INSTALLATION

The LOMAZOO LZAMY sink is designed for drop-in installation. Follow these general steps:

1. **Prepare the Countertop:** Ensure the countertop opening matches the sink's dimensions. Use the provided template if available, or measure carefully. The recommended cutout size should be slightly smaller than the sink's rim to allow it to rest securely.
2. **Apply Sealant:** Apply a bead of silicone sealant around the edge of the countertop opening to create a watertight seal.
3. **Position the Sink:** Carefully lower the sink into the countertop opening, ensuring it is centered and aligned. Press down firmly to engage the sealant.
4. **Secure the Sink:** From underneath the countertop, attach and tighten the mounting clips (if included) to secure the sink in place. Do not overtighten.
5. **Install Faucet and Soap Dispenser:** Install your kitchen faucet and the included soap dispenser into their respective holes on the sink deck according to their individual instructions.
6. **Assemble Drain and Siphon:** Connect the drain assembly (strainer, gaskets, nuts) to the sink's drain opening. Then, connect the siphon and P-trap to the drain assembly and to your household plumbing. Ensure all connections are hand-tightened and then gently secured with a wrench, avoiding overtightening.
7. **Connect Water Lines:** Connect the hot and cold water supply lines to your faucet.
8. **Test for Leaks:** Turn on the water supply and check all connections for leaks. Tighten any leaking

connections as necessary.

7. OPERATING INSTRUCTIONS

Your LOMAZOO kitchen sink is designed for everyday use. Simply use your faucet to fill the basin with water for washing dishes or other tasks. The integrated soap dispenser can be refilled from the top by lifting the pump head and pouring liquid soap into the reservoir below.

8. MAINTENANCE AND CLEANING

To maintain the appearance and longevity of your stainless steel sink, follow these cleaning guidelines:

- **Daily Cleaning:** After each use, rinse the sink thoroughly with water and wipe it dry with a soft cloth to prevent water spots and mineral buildup.
- **Regular Cleaning:** For general cleaning, use a mild dish soap or a specialized stainless steel cleaner with a soft sponge or cloth. Always rub in the direction of the grain.
- **Avoid:** Do not use abrasive cleaners, steel wool, scouring pads, or harsh chemicals (e.g., bleach, ammonia-based cleaners) as these can scratch or damage the finish.
- **Stubborn Stains:** For tougher stains, a paste of baking soda and water can be gently applied and then rinsed thoroughly.
- **Soap Dispenser:** Regularly clean the soap dispenser nozzle to prevent clogging. Refill with liquid hand

soap or dish soap as needed.

9. TROUBLESHOOTING

- **Slow Drainage:** Check the drain strainer for food particles or debris. If the issue persists, the siphon or plumbing lines may be partially clogged and require cleaning.
- **Leaks Around Drain:** Ensure the drain assembly nuts are securely tightened and that all gaskets are properly seated. If necessary, disassemble, clean, reapply plumber's putty or silicone sealant, and reassemble.
- **Water Spots/Stains:** These are often caused by hard water. Wipe the sink dry after each use. For existing spots, use a vinegar-water solution (1:1 ratio) and rinse thoroughly.
- **Soap Dispenser Not Pumping:** Check if the reservoir is empty. If not, the pump mechanism may be clogged. Try flushing it with warm water.

10. WARRANTY AND SUPPORT

LOMAZOO products are manufactured to high-quality standards. For warranty information, technical support, or to inquire about replacement parts, please contact your retailer or the LOMAZOO customer service department. Keep your purchase receipt as proof of purchase.

Contact information can typically be found on the LOMAZOO official website or through your point of purchase.
