Tiiyee Tiiyee1shrzokpvb

Tiiyee Spring Facial Hair Remover

Model: Tiiyee1shrzokpvb

INTRODUCTION

The Tiiyee Spring Facial Hair Remover is a manual epilator designed for effective and virtually painless removal of unwanted facial hair from areas such as the chin, cheek, mustache, upper lip, neck, and sideburns. Crafted from durable stainless steel with a comfortable plastic handle, this portable tool utilizes a unique spring coil mechanism to remove hair from the root, offering a physical hair removal method without the need for waxing or bleaching.

SETUP

The Tiiyee Spring Facial Hair Remover requires no assembly or batteries. It is ready for immediate use upon unboxing. Ensure the device is clean before first use.

OPERATING INSTRUCTIONS

1. **Prepare Your Skin:** Before use, ensure your skin is clean and dry. Avoid using on irritated, broken, or sensitive skin areas.
2. **Bend the Device:** Grasp the handles of the facial hair remover and bend the device into an inverted 'U' shape. This action activates the spring coil, preparing it for hair removal.

Image: Proper grip and bending of the device for use.

3. **Position and Roll:** Place the curved spring section against the area of unwanted facial hair. Gently roll the device upwards, or in the direction of hair growth, across the skin. The spring will trap and pull out hairs from the root.

Image: Application of the hair remover on the face.

4. **Repeat as Needed:** For best results, apply light pressure and repeat the rolling motion as needed until the desired area is clear of hair. This physical hair removal method is designed to be gentle on the skin, avoiding the harshness of chemical bleaches or waxes.

MAINTENANCE

After each use, clean the spring coil and handles. You can use a soft brush or a dry cloth to remove any trapped hairs. For thorough cleaning, the device can be wiped with an alcohol wipe. Ensure the device is completely dry before storing. Store in a clean, dry place away from direct sunlight and extreme temperatures.

Premium material made

TROUBLESHOOTING

• Hair not being removed effectively:

- Ensure the device is bent into a proper 'U' shape to activate the spring.
- Verify you are rolling the device against the direction of hair growth.
- Clean the spring coil to remove any accumulated debris that might hinder performance.

• Skin irritation after use:

- Ensure skin is clean and dry before use. Avoid using on sensitive or inflamed areas.
- Apply a soothing, non-comedogenic lotion or aloe vera gel after hair removal.
- Reduce pressure during use if irritation persists.

- **Device feels stiff or difficult to bend:**
 - Check for any obstructions in the spring mechanism.
 - If no obstructions, the material may be cold. Warm it slightly with your hands before use.
