Official product video showcasing the Master & Dynamic MW75 Noise-Cancelling Wireless Headphones.

WHAT'S IN THE BOX

Your MW75 headphones package includes:

- Cable

SETUP

Charging Your Headphones

Before first use, fully charge your MW75 headphones. Connect the provided USB-C cable to the charging port on the headphone and to a power source. A full charge provides up to 28 hours of battery life with ANC enabled. A quick 15-minute charge can provide up to 6 hours of listening time.

Bluetooth Pairing

To pair your MW75 headphones with a device:

1. Ensure the headphones are powered on.
2. Activate Bluetooth on your source device (e.g., smartphone, tablet, computer).
3. Select "MW75" from the list of available Bluetooth devices.
4. Once connected, the LED indicator on the headphones will confirm successful pairing.

The MW75 supports Bluetooth 5.1 with aptX Adaptive technology for a stable and high-resolution wireless audio experience.

Controls

The MW75 headphones feature intuitive physical controls for easy management of your audio and calls.

Close-up view of the physical control buttons on the MW75 headphones.

- **Power Button:** Located on the left earcup. Press and hold to power on/off.
- **ANC Button:** Located on the left earcup, below the power button. Cycle through Active Noise Cancellation (ANC) modes.
- **Multi-function Button:** Located on the right earcup. Controls playback (play/pause) and call management.
- **Volume Buttons:** Located on the right earcup. Adjust audio volume.

Active Noise Cancellation (ANC) Modes

The MW75 offers adaptive ANC to adjust to your environment. Use the ANC button to switch between modes:

- **Adaptive ANC:** Automatically adjusts noise cancellation based on your surroundings.
- **Ambient Listening:** Allows you to hear your surroundings without removing your headphones.

Useful for improved outdoor awareness.

M&D Connect App

Personalize your listening experience by downloading the M&D Connect app on your mobile device. The app allows you to:

- Adjust EQ with in-app sound profiles.
- Access additional ANC modes.
- Download firmware updates for your MW75 headphones.

Multi-Point Connectivity

The MW75 headphones support multi-point connectivity, allowing you to connect to two Bluetooth devices simultaneously. This enables seamless switching between audio sources, such as listening to music on your computer and taking a call on your phone.

On-Head Detection

The headphones feature on-head detection, which automatically pauses playback when you remove them and resumes when you put them back on. This feature helps conserve battery life and provides a convenient user experience.

MAINTENANCE

To ensure the longevity and optimal performance of your MW75 headphones, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the anodized aluminum and tempered glass surfaces. For lambskin leather, gently wipe with a damp cloth and allow to air dry. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store your headphones in the provided hard shell travel case when not in use to protect them from dust, scratches, and impacts.
- **Earpad Replacement:** While durable, earpads may wear over time. Replacement earpads can be purchased separately from authorized retailers. Refer to the product support section for instructions on how to replace them.

TROUBLESHOOTING

If you encounter any issues with your MW75 headphones, refer to the following common solutions:

- **No Power:** Ensure the headphones are fully charged. Connect to a power source using the USB-C cable.
- **No Sound:** Check if the headphones are properly paired with your device. Ensure the volume is turned up on both the headphones and the source device. If using a wired connection, ensure the cable is securely connected.
- **Pairing Issues:** Turn off Bluetooth on your source device and then turn it back on. Forget the MW75 from your device's Bluetooth list and attempt to re-pair. Ensure no other devices are actively connected to the headphones.
- **Poor Call Quality:** Ensure the microphones are not obstructed. Check your environment for

excessive background noise. The 4 beamforming microphones are designed to filter out environmental noise, but extreme conditions may affect performance.

SPECIFICATIONS

Feature	Detail
Headphones Jack	USB-C
Model Name	MW75
Connectivity Technology	Wireless
Wireless Communication Technology	Bluetooth
Included Components	Cable
Material	Leather
Specific Uses For Product	Music
Charging Time	15 minutes (for 6 hours playtime)
