6. Maintenance

Regular maintenance ensures the longevity and safe operation of your ride-on car.

- **Cleaning:** Wipe the car with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:**
  - Charge the battery fully after each use.
  - If storing for an extended period, charge the battery at least once a month to maintain its lifespan.
  - Do not overcharge the battery. Disconnect the charger once charging is complete.
  - Only use the charger supplied with the product.
- **Storage:** Store the car in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all screws, nuts, and connections to ensure they are tight. Inspect wheels and axles for wear or damage.

7. Troubleshooting

If you encounter issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not move	Battery is low or not connected; Power switch is off; Loose wiring; Overload protection activated.	Charge the battery; Ensure battery is connected; Turn on power switch; Check all wiring connections; Reduce load on the car.
Remote control not working	Remote batteries are dead; Remote not paired; Interference.	Replace remote batteries (2 x 1.5V AAA); Re-pair the remote control (refer to printed manual); Move to an area with less interference.
Car moves slowly	Low battery; Overload; Operating on rough terrain.	Charge the battery fully; Reduce load; Operate on flat, smooth surfaces.
Lights or music not working	Loose wiring; Component malfunction.	Check wiring connections; Contact customer support if problem persists.
