CellularLine MAGSFHOLDERVENT2K

Cellularline Touch Mag Air Vents Magnetic Car Phone Holder User Manual

Model: MAGSFHOLDERVENT2K | Brand: CellularLine

INTRODUCTION

The Cellularline Touch Mag Air Vents is a magnetic car phone holder specifically designed for iPhones with MagSafe technology. This holder provides a secure, simple, and stable solution for mounting your smartphone in your vehicle. Its powerful magnets ensure your device remains firmly in place without interfering with its functions. The innovative hook attachment system allows for versatile installation on various car air vent types, including both standard and round designs.

This manual will guide you through the installation, operation, and maintenance of your Touch Mag Air Vents holder, ensuring optimal performance and safety.

PACKAGE CONTENTS

- Cellularline Touch Mag Air Vents Car Phone Holder
- Instruction Manual

SETUP AND INSTALLATION

Follow these steps to correctly install your Cellularline Touch Mag Air Vents holder in your vehicle.

FOR ALL AIR VENTS

Image: The Touch Mag Air Vents holder securely mounted on a car's air vent, demonstrating its adaptability to different vent designs.

1. **Choose an Air Vent:** Select a suitable air vent in your car that provides a clear view of your phone without obstructing your driving. The holder is compatible with both standard horizontal/vertical and round air vents.
2. **Attach the Hook:** Extend the hook mechanism on the back of the holder. Carefully insert the hook into one of the slats of your chosen air vent.

Image: Detailed view of the holder's robust hook and arc-shaped support structure, designed for secure attachment.

3. **Secure the Holder:** Once the hook is in place, push the holder firmly towards the vent until it is securely fastened. The unique hook design and arc-shaped support structure ensure a stable grip.
4. **Adjust the Angle:** The holder features a ball joint that allows for 360-degree rotation. Adjust the holder to your preferred viewing angle.

OPERATING INSTRUCTIONS

Using your Cellularline Touch Mag Air Vents holder is straightforward.

Image: An iPhone magnetically attaching to the holder, highlighting MagSafe compatibility.

1. **Prepare Your Device:** Ensure your iPhone is MagSafe compatible (iPhone 12 series or newer) or is equipped with a MagSafe-compatible case. Using a non-MagSafe case may reduce magnetic strength.
2. **Attach Your Phone:** Simply bring your MagSafe-compatible iPhone or case close to the magnetic surface of the holder. The magnets will automatically align and secure your phone.

Image: The holder's 360-degree rotation feature, allowing for flexible viewing adjustments.

- Adjust Viewing Angle:** Rotate your phone to either portrait or landscape orientation as needed. The 360-degree rotatable ball joint allows for precise angle adjustments for optimal visibility.

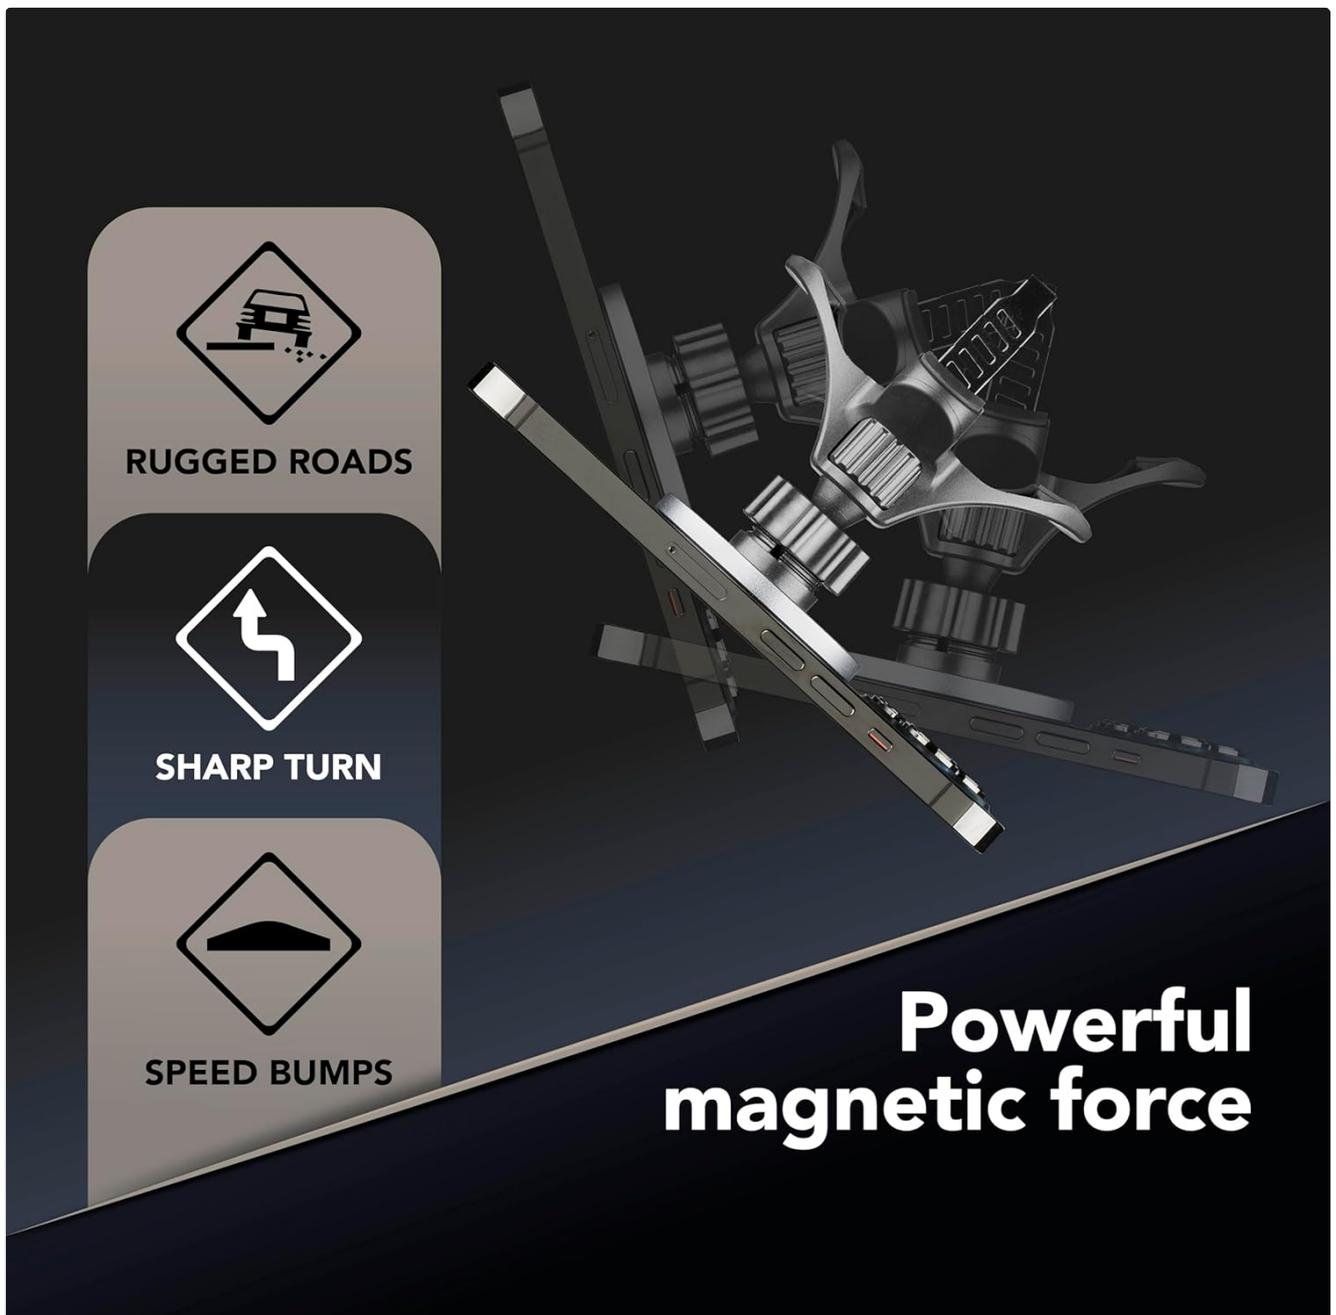

Image: The powerful magnetic hold ensures stability even on challenging road conditions.

4. **Remove Your Phone:** Gently pull your phone away from the magnetic surface to detach it.

MAINTENANCE

To ensure the longevity and optimal performance of your car phone holder, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, or slightly damp cloth to wipe the surface of the holder. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the material.
- **Inspection:** Periodically check the air vent attachment hook and the ball joint for any signs of wear or damage. Ensure all parts are securely in place.
- **Storage:** If you need to remove the holder for an extended period, store it in a clean, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your CellularLine Touch Mag Air Vents holder, refer to the following common solutions:

- **Phone does not attach securely:**
 - Ensure your phone is MagSafe compatible or has a MagSafe-compatible case.
 - Remove any thick, non-MagSafe cases that might interfere with the magnetic connection.
 - Check for any debris on the magnetic surface of the holder or your phone/case.
- **Holder feels loose on the air vent:**
 - Verify that the hook is fully inserted and securely gripping an air vent slat.
 - Ensure the holder is pushed firmly against the vent.
 - Some air vent designs may offer a more secure fit than others. Try a different vent if available.
- **Difficulty adjusting the viewing angle:**
 - The ball joint should allow for smooth rotation. If it feels stiff, gently apply pressure while rotating.
 - Ensure no foreign objects are obstructing the ball joint mechanism.

If these solutions do not resolve the issue, please contact CellularLine customer support.

SPECIFICATIONS

Model Name	MAGSFHOLDERVENT2K
Brand	CellularLine
Item Weight	120 g
Product Dimensions (L x W x H)	9 x 17.5 x 5.5 cm
Special Features	Rotatable
