Maintenance

To ensure the longevity and appearance of your TenCloud silicone bands, follow these maintenance guidelines:

- **Cleaning:** Wipe the bands regularly with a soft, damp cloth. For deeper cleaning, use mild soap and water, then rinse thoroughly and dry completely before reattaching your tracker.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong detergents, as these can damage the silicone material.
- **Storage:** Store the bands in a cool, dry place away from direct sunlight when not in use to prevent material degradation.

Troubleshooting

If you encounter any issues with your TenCloud bands, consider the following common solutions:

- **Tracker Not Fitting Securely:** Ensure you are using a compatible Oppo band or OnePlus Smart Band tracker. Verify that the tracker is inserted correctly and fully seated within the band's protective case.
- **Band Feels Uncomfortable:** Adjust the tang buckle to a different hole to find a more comfortable fit. The band should be snug but not too tight.
- **Band Discoloration:** Regular cleaning as described in the Maintenance section can help prevent discoloration. Avoid prolonged exposure to direct sunlight or harsh chemicals.
