5.5 Group Control & Device Sharing

Create groups for your rooms and devices within the app, allowing you to control multiple devices with a single tap. You can also share control of devices with family members, enabling multiple users to manage a single device simultaneously.

6. MAINTENANCE

To ensure the longevity and optimal performance of your EIGHTREE ET21 Smart WiFi Socket, please follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the smart plug. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use for extended periods, store the plug in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the plug to strong impacts, as this may damage internal components.

7. TROUBLESHOOTING

If you encounter any issues with your EIGHTREE ET21 Smart WiFi Socket, please refer to the table below for common problems and their solutions.

Problem	Possible Cause	Solution
Device is offline in app	No Wi-Fi connection; Router is off; Plug is unplugged or powered off.	Check your Wi-Fi router and ensure it's on. Verify the smart plug is securely plugged in and powered on. Reconnect the plug to Wi-Fi if necessary.
Cannot connect to Wi-Fi	Incorrect Wi-Fi password; Not a 2.4GHz network; Too far from router.	Ensure you are entering the correct Wi-Fi password. Confirm your Wi-Fi network is 2.4GHz. Move the smart plug closer to your router.
Voice control not working	Smart Life app not linked to voice assistant; Incorrect device name.	Check that your Smart Life account is correctly linked to Alexa or Google Home. Ensure the device name in the app is easy for the voice assistant to recognize.
Energy monitoring seems inaccurate	Electricity rates not set or incorrect in app.	Go to the energy monitoring section in the Smart Life app and ensure your electricity rates are correctly entered for accurate cost calculation.
