SP CONNECT 52826

SP CONNECT Universal Mount Instruction Manual

Model: 52826

1. Introduction

The SP CONNECT Universal Mount is designed to provide a flexible and secure mounting solution for your SP Phone Case across a wide range of applications. This mount allows you to attach your smartphone to various objects, ensuring your device is always accessible and stable.
Key features include:

- **Universal Application:** Enables flexible use of your SP Phone Case in diverse situations.
- **Versatile Compatibility:** Securely attach your phone to bicycles, motorcycles, golf carts, strollers, and many other objects.
- **Easy Installation:** Quick attachment and alignment without the need for tools, thanks to the practical hook-and-loop fastener.
- **Flexible Adjustment:** The spring-loaded head offers multiple alignment options for optimal viewing and use.
- **Secure Hold:** Includes two hook-and-loop strap lengths to ensure a stable and secure attachment, regardless of where you mount your smartphone.

2. Setup and Installation

The Universal Mount is designed for quick and tool-free attachment to various bars or surfaces. Follow these steps for proper installation:

1. **Prepare the Mount:** Select the appropriate hook-and-loop strap length for your desired mounting surface. The mount comes with two strap lengths to accommodate different diameters.
2. **Attach the Mount:** Wrap the hook-and-loop strap around the bar or surface where you intend to mount your device. Thread the strap through the mount's slots and pull it tightly to secure the mount firmly in place. Ensure there is no significant movement or slippage.

3. Operating Instructions

Once the Universal Mount is securely attached, your SP Phone Case can be quickly mounted and dismounted using the patented twist-to-lock mechanism.

1. **Attaching Your Phone Case:** Align the SP Phone Case with the mount's interface. Gently place the phone case onto the mount.

Image: Step 1 - Placing the SP Phone Case onto the Universal Mount.

2. **Locking the Phone Case:** Rotate the phone case 90 degrees clockwise or counter-clockwise until it clicks firmly into place. This ensures a secure and stable connection, preventing accidental detachment during use.

Image: Step 2 - Rotating the phone case 90 degrees to engage the locking mechanism.

3. **Ready for Use:** Your device is now securely mounted and ready for your activity.

Image: Step 3 - The phone case is securely locked onto the mount, ready for use.

Removing Your Phone Case: To remove your device, press down lightly on the phone case and rotate it 90 degrees in the opposite direction (counter-clockwise if you locked it clockwise, or vice-versa) to unlock, then lift it off the mount.

Examples of Use:

Mounted on a scooter handlebar.

Mounted on a stroller handle.

Mounted on a golf cart handle.

Mounted on a bicycle handlebar.

4. Maintenance

To ensure the longevity and optimal performance of your SP CONNECT Universal Mount, follow these maintenance guidelines:

- **Cleaning:** Wipe the mount with a damp cloth to remove dirt and dust. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material.
- **Strap Inspection:** Regularly check the hook-and-loop straps for any signs of wear, fraying, or reduced grip. Replace them if they show significant damage to maintain a secure hold.
- **Storage:** When not in use, store the mount in a cool, dry place away from direct sunlight and extreme temperatures.

5. Troubleshooting

If you encounter any issues with your SP CONNECT Universal Mount, refer to the following common problems and their solutions:

- **Issue: The mount feels wobbly or insecure after installation.**
  Solution: Ensure the hook-and-loop straps are pulled as tightly as possible around the mounting surface. The mount comes with two strap lengths; use the appropriate length for a snug fit. For extremely demanding conditions or if a more permanent solution is desired, some users have found success replacing the hook-and-loop straps with durable cable ties (not included) for enhanced stability.
- **Issue: The phone case does not lock securely onto the mount.**
  Solution: Ensure the phone case is correctly aligned with the mount's interface before attempting to rotate. Apply firm, even pressure and rotate 90 degrees until you hear or feel a distinct click, indicating it is locked. Check for any debris or obstructions on either the mount or the phone case interface that might prevent a proper connection.

6. Specifications

Model Number	52826
Brand	SP CONNECT
Color	Black
Material Type	Plastic
Compatibility	Smartphones (with SP Phone Case)
Product Dimensions	12.7 x 9.91 x 4.06 cm
Item Weight	64 Grams
Included Components	Universal Mount, Hook-and-loop straps (two lengths)

7. Warranty and Support

For product support, technical assistance, or warranty inquiries regarding your SP CONNECT Universal Mount, please contact SP CONNECT customer service directly through their official website. It is recommended to retain your proof of purchase for any warranty claims.
