SP Connect Anti Vibration Module SPC+ User Manual

Protect your smartphone from motor vibrations while riding.

1. INTRODUCTION

The SP Connect Anti Vibration Module SPC+ is designed to protect sensitive smartphone components from vibrations generated by motorcycle engines. This module integrates seamlessly with compatible SP Connect mounts, providing a secure and vibration-damped platform for your device during rides.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- Anti Vibration Module SPC+
- Screw (M5x16mm)
- Screw (M5x20mm)
- Sprocket adapter

4. SETUP AND INSTALLATION

The Anti Vibration Module SPC+ is designed for easy installation. Follow these steps to integrate it with your existing SP Connect mount:

1. Identify a compatible SP Connect mount on your motorcycle or bicycle.
2. Remove the existing head of the compatible mount.
3. Attach the Anti Vibration Module SPC+ to the mount using the appropriate screws provided (M5x16mm or M5x20mm) and the sprocket adapter if needed. Ensure it is securely fastened.
4. Once installed, your SP Connect mount is now equipped with vibration damping technology.

5. OPERATING INSTRUCTIONS

Once the Anti Vibration Module SPC+ is installed, operating it is straightforward:

- Align your SPC+ compatible smartphone case with the module.
- Place the phone onto the module and rotate it 90 degrees clockwise until it locks securely into place.
- To remove, rotate the phone 90 degrees counter-clockwise and lift it off.
- The module allows for both landscape and portrait orientation of your smartphone.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Anti Vibration Module SPC+, follow these simple maintenance guidelines:

- Regularly inspect the module and screws for any signs of wear or loosening.
- Clean the module with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- Ensure the mounting surface on your vehicle is clean and free of debris before attaching the module.

7. TROUBLESHOOTING

If you encounter any issues with your Anti Vibration Module SPC+, consider the following:

- **Module not fitting securely:** Ensure you are using an SPC+ compatible mount and phone case. The module is not compatible with older SPC standard systems.
- **Excessive vibration:** Verify that the module is correctly installed and all screws are tightened. Check for any loose components on your vehicle's mounting area.
- **Difficulty attaching/detaching phone:** Ensure the module and phone case are clean and free of obstructions. Apply gentle, firm pressure and a full 90-degree rotation.

If problems persist, please contact SP CONNECT customer support.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions	3.94 x 3.94 x 3.94 inches
Item Weight	3.88 ounces
ASIN	B0B74XZ6TG
Item Model Number	688066-00-001
Material	Thermoplastic Polyurethane (TPU)
Color	black
Compatible Phone Models	iPhone 12 (and other SPC+ compatible devices)
Fastener Type	Screw

9. WARRANTY AND SUPPORT

For information regarding warranty coverage, returns, or technical support, please refer to the official SP CONNECT website or contact their customer service directly. Keep your proof of purchase for any warranty claims.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
