Razer Strider Chroma Hybrid Gaming Mouse Mat

Instruction Manual

1. INTRODUCTION

The Razer Strider Chroma is a hybrid gaming mouse mat designed to offer a balance between the smooth glide of a hard surface and the stopping power of a soft mat. It features Razer Chroma RGB lighting with 19 customizable zones, providing extensive personalization options. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your mouse mat.

The Razer Strider Chroma Hybrid Gaming Mouse Mat, showcasing its extended size and vibrant RGB lighting.

Key Features:

- **Hybrid Soft/Hard Surface:** Combines the characteristics of both soft fabric and hard surfaces for precise and agile mouse movement.
- **19 Razer Chroma RGB Lighting Zones:** Offers 16.8 million colors and various lighting effects, compatible

with Chroma-integrated games.

- **Extended Size:** Provides ample space for both keyboard and mouse, enhancing desk coverage.
- **Warp- and Water-Resistant:** Designed to maintain a flat surface and resist accidental spills.
- **Seamless Edges:** Ensures unobstructed mouse movement without interference from raised stitching.
- **Anti-Slip Base:** Features a grooved pattern on the underside to prevent accidental sliding during use.

2. SETUP

Follow these steps to set up your Razer Strider Chroma Hybrid Gaming Mouse Mat:

1. **Unpack the Mouse Mat:** Carefully remove the mouse mat from its packaging. Allow it to unroll and flatten completely on your desk surface.
2. **Position the Mat:** Place the mouse mat in your desired location on your desk. Ensure the surface is clean and free of debris for optimal adhesion of the anti-slip base.
3. **Connect the USB Cable:** Locate the integrated USB cable on the mouse mat. Plug the USB connector into an available USB port on your computer. This connection powers the Razer Chroma RGB lighting.
4. **Install Razer Synapse (Optional but Recommended):** For full customization of the RGB lighting and to synchronize with other Razer Chroma devices, download and install the latest version of Razer Synapse software from the official Razer website (www.razer.com/synapse).

ANTI-SLIP BASE

Solid stability

The anti-slip base ensures the mat remains stable on your desk.

3. OPERATING THE RAZER STRIDER CHROMA

Once connected, the Razer Strider Chroma will illuminate with default RGB lighting effects. To unlock its full potential, utilize the Razer Synapse software.

Razer Chroma RGB Customization:

- **Launch Razer Synapse:** Open the Razer Synapse application on your computer.
- **Select Your Device:** In Synapse, select the Razer Strider Chroma from your list of connected Razer devices.
- **Customize Lighting:** Navigate to the 'Lighting' tab. Here you can:
 - Choose from various Quick Effects (e.g., Static, Breathing, Spectrum Cycling, Wave).
 - Create advanced effects using Chroma Studio, allowing per-zone customization across the 19 lighting zones.
 - Synchronize lighting with other Razer Chroma-enabled devices.
 - Integrate lighting with supported games for dynamic in-game reactions.

19 RAZER CHROMA RGB LIGHTING ZONES

16.8 million colors and over 200 Chroma-integrated games

The mouse mat features 19 individually controllable Razer Chroma RGB lighting zones.

Hybrid Surface Performance:

The unique hybrid surface provides a balance of speed and control. The slightly textured surface allows for quick mouse glides while retaining enough friction for precise stopping power. This design is intended to cater to various gaming styles.

HYBRID SOFT/HARD MAT

The best of both worlds

The hybrid surface offers a blend of speed and control for diverse gaming needs.

4. MAINTENANCE

Proper care ensures the longevity and performance of your Razer Strider Chroma mouse mat.

Cleaning Instructions:

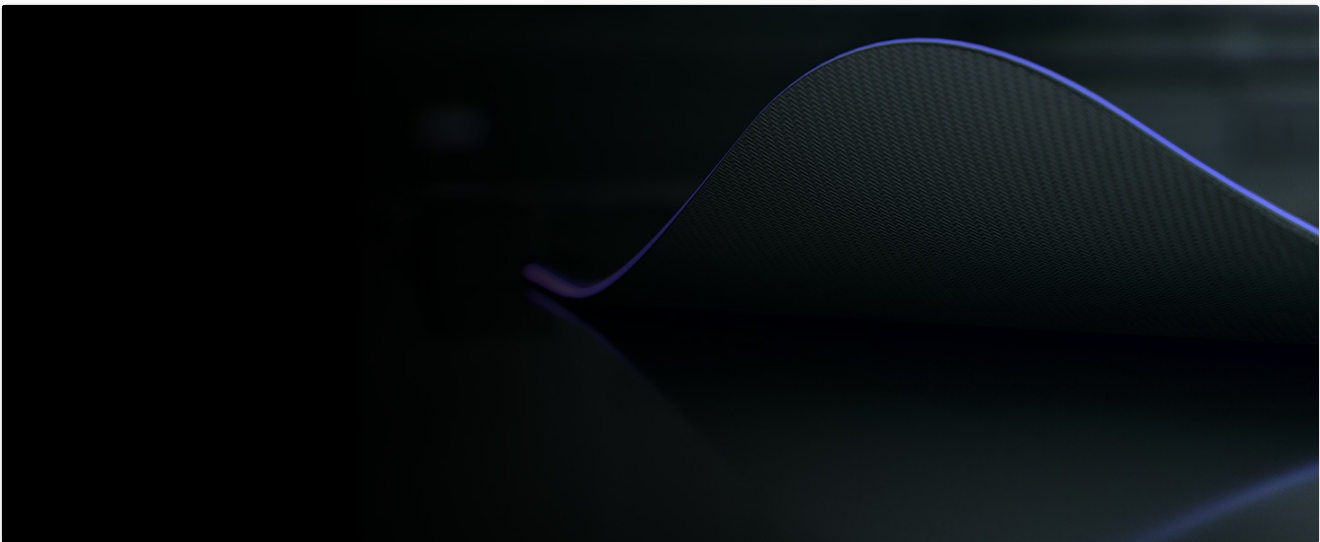

- **Disconnect Power:** Always disconnect the USB cable from your computer before cleaning.
- **Gentle Cleaning:** Use a soft, damp cloth with a small amount of mild soap (if necessary) to gently wipe the surface of the mat. Avoid harsh chemicals or abrasive materials.
- **Water Resistance:** The mat is water-resistant, meaning it can withstand minor spills. In case of a spill, immediately wipe it dry with a clean cloth. Do not submerge the mat in water.
- **Drying:** Allow the mat to air dry completely before reconnecting it to your computer. Do not use direct heat sources for drying.

The water-resistant surface helps protect against accidental spills.

Storage:

When not in use or for transport, the mat can be rolled up. Roll it loosely to avoid creasing the surface or damaging the internal RGB lighting elements. Store in a cool, dry place.

The mat can be rolled for storage or transport, maintaining its flat surface.

5. TROUBLESHOOTING

If you encounter issues with your Razer Strider Chroma, refer to the following common solutions:

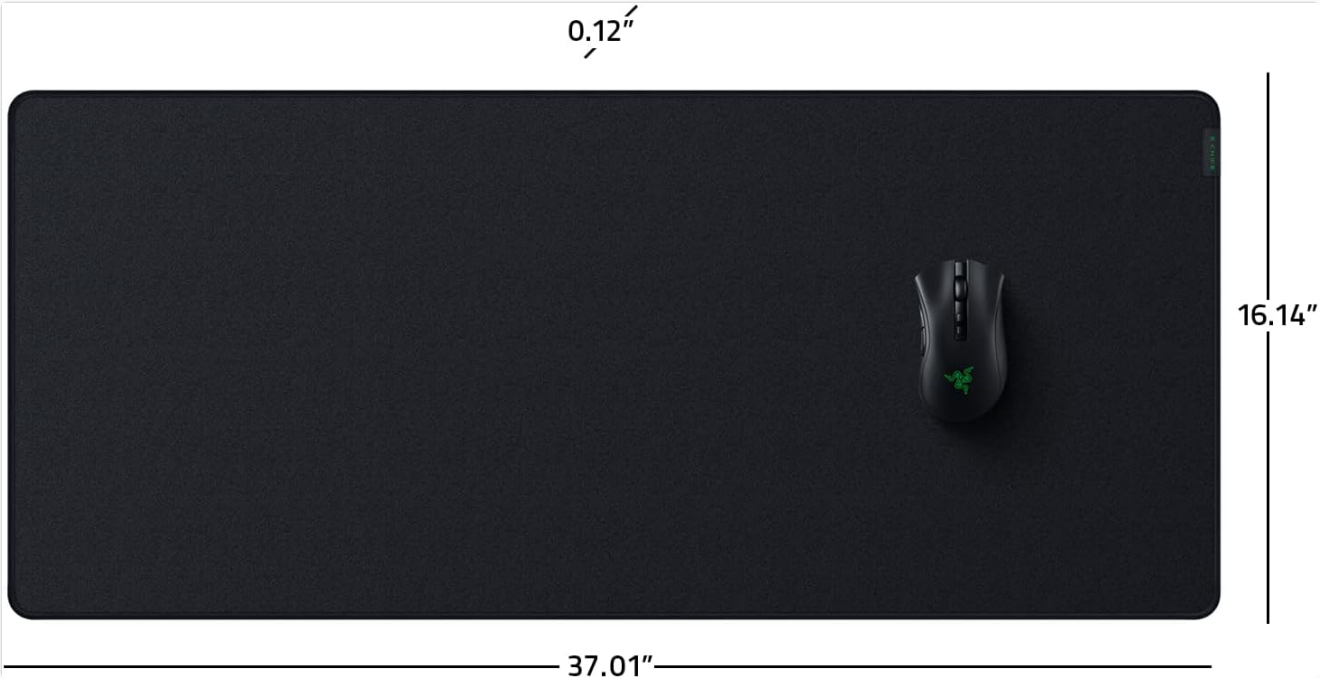

Problem	Possible Solution
RGB lighting is not working.	<p>Ensure the USB cable is securely connected to a functioning USB port on your computer.</p> <p>Try connecting to a different USB port.</p> <p>Restart your computer.</p> <p>Verify that Razer Synapse is installed and updated. Check for any lighting profiles that might be set to 'off' or 'dark'.</p>

Problem	Possible Solution
Mouse tracking issues.	Ensure the mouse mat surface is clean and free of dust or debris. Clean the optical sensor of your mouse. If using Razer Synapse, perform mouse surface calibration for your specific mouse.
Mat does not lie flat.	Allow the mat more time to flatten out after unrolling. Gently roll the mat in the opposite direction for a short period, then unroll. Ensure the desk surface is even.

6. SPECIFICATIONS

Detailed technical specifications for the Razer Strider Chroma Hybrid Gaming Mouse Mat:

- **Model Number:** RZ02-04490100-R3U1
- **Dimensions (L x W x H):** Approximately 37.01 x 16.14 x 0.18 inches (940 x 410 x 4.5 mm)
