Prolux 8000

Prolux 8000 Commercial Upright Vacuum Cleaner Instruction Manual

Model: 8000 | Brand: Prolux

1. PRODUCT OVERVIEW

The Prolux 8000 Commercial Upright Vacuum Cleaner is designed for powerful and efficient cleaning across various floor types. It features a robust 12-amp Amtek motor, advanced HEPA filtration, and a suite of onboard tools for comprehensive cleaning tasks.

Figure 1: Front view of the Prolux 8000 Commercial Upright Vacuum Cleaner.

Key Features:

- **Powerful Performance:** 12-amp Amtek motor delivering 107 CFM suction power.
- **Advanced HEPA Filtration:** Dual filtration system with HEPA technology and a paper collection bag to prevent dust recirculation.
- **Versatile Cleaning Tools:** Includes Mini Pet Turbo Brush, crevice tool, and duster brush for various cleaning needs.
- **Illuminating Efficiency:** Integrated LED headlights to reveal hidden dirt.
- **Durable Construction:** Sturdy steel brush roll and easy-to-stretch hose for heavy-duty use.

2. SETUP AND ASSEMBLY

Before first use, ensure all components are present and correctly assembled.

2.1 Unpacking and Component Identification

Carefully remove all parts from the packaging. Verify that the following components are included:

- Vacuum Unit - 8000 Upright
- Extendable Wand
- Upholstery Tool
- Crevice Tool
- Duster Tool
- Mini Turbo Head
- 2-pack of HEPA Bags
- HEPA Filter - 6000/8000 compatible

2.2 Handle and Hose Assembly

Attach the handle to the main vacuum body. Secure the flexible hose to the designated port on the vacuum. Ensure all connections are firm.

Figure 3: Back view highlighting the ergonomic handle, 6-foot hose, quick draw wand, and 3-piece onboard tool set.

2.3 Power Cord Management

Wrap the 40-foot heavy-duty power cord around the pivoting cord holders for organized storage. Ensure the cord is fully unwound before operation to prevent overheating.

Figure 4: Side view showing the pivoting cord holder and 40-foot heavy-duty power cord.

3. OPERATING INSTRUCTIONS

3.1 Powering On/Off

Plug the power cord into a suitable electrical outlet. The power switch is located on the handle for easy access. Press the switch to turn the vacuum on or off.

3.2 Floor Type Selection

The Prolux 8000 features a floor selector switch to optimize cleaning for different surfaces. Adjust the setting for carpets or hard floors as needed. The auto-adjusting powerhead adapts to varying floor heights.

Figure 5: The vacuum head features integrated LED headlights for improved visibility during cleaning.

3.3 Using Onboard Tools

For detailed cleaning, detach the hose and attach the desired tool. The extendable wand provides additional reach for high areas or tight spaces. The Mini Pet Turbo Brush is effective for removing pet hair from upholstery and stairs.

4. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your Prolux 8000 vacuum.

4.1 Replacing the Dust Bag

The vacuum utilizes a paper collection bag as part of its dual filtration system. Replace the bag when it is full to maintain suction power and filtration efficiency. Refer to the vacuum unit for specific bag replacement instructions.

Figure 7: Genuine Prolux HEPA dust bags for replacement.

4.2 HEPA Filter Maintenance

The advanced HEPA filter captures fine particles and allergens. Periodically check and replace the HEPA filter according to usage to ensure continued high-level filtration.

Figure 8: A 5-layer HEPA filter, crucial for advanced air purification.

4.3 Brush Roll Inspection

Regularly inspect the steel brush roll for tangled hair or debris. A quick-release metal bottom plate allows for easy access to the brush and belt for cleaning or replacement.

Figure 9: Visual representation of carpet fibers before and after cleaning, demonstrating effective dirt removal.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Vacuum unplugged; circuit breaker tripped.	Ensure cord is securely plugged in; check and reset circuit breaker.
Loss of Suction	Full dust bag; clogged hose/filter; brush roll obstructed.	Replace dust bag; clear any clogs in hose/filter; remove obstructions from brush roll.
Unusual Noise	Obstruction in brush roll or fan; worn belt.	Inspect and clear brush roll/fan; replace worn belt.
Vacuum Not Picking Up Dirt	Incorrect floor setting; worn brush roll; full dust bag.	Adjust floor selector; inspect/replace brush roll; replace dust bag.

If issues persist, please contact customer support.

6. SPECIFICATIONS

Feature	Detail
Brand	Prolux
