SETUP AND ASSEMBLY

Assembly typically requires two people. Follow the numbered steps in the included assembly diagram (if provided) for best results. A general sequence is outlined below:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface.
2. **Assemble Metal Frame:** Connect the metal frame components using the provided screws and tools. Ensure all connections are secure but do not overtighten.
3. **Attach Leveling Feet:** Screw the leveling feet into the bottom of the metal frame. These can be adjusted later to ensure stability.
4. **Install Drawer Slides:** Secure the telescopic drawer slides to the designated areas on the table structure and the drawer itself. Ensure they are aligned correctly for smooth operation.

5. **Assemble Drawer:** Construct the drawer box using the MDP panels and hardware. Insert the assembled drawer into the slides.
