Atrix AHSC1

Atrix Red Lil Portable Canister Vacuum Cleaner - Premium Bundle AHSC1-5 User Manual

Model: AHSC1

PRODUCT OVERVIEW

The Atrix Lil' Red Canister Vacuum Premium Bundle AHSC1-5 is a lightweight and powerful HEPA vacuum designed for efficient cleaning in homes, offices, and vehicles. It features a 1200-watt variable speed motor, 3-stage HEPA filtration, and a 16.5' auto-retract power cord. Its compact design and included accessories make it versatile for various cleaning tasks.

Key Features

- **Powerful 1,200-Watt Suction:** Equipped with a robust 1,200-watt motor, our HEPA canister vacuum cleaners for home provide strong cleaning power to tackle tough dirt and debris with ease.
- **Lightweight & Easy to Carry:** Designed for effortless maneuverability, this vacuum weighs in at a manageable size, making it easy to carry and handle for all your cleaning needs.
- **Convenient 16' 6" Auto-Retractable Cord:** Enjoy unrestricted movement with the 16-foot 6-inch auto-retractable power cord, offering ample reach and convenient storage with a single touch.
- **Enhanced 3-Stage HEPA Filtration System:** Featuring a 2-quart HEPA bag and three levels of filtration, this vacuum helps ensure a healthier home environment by effectively trapping dust and allergens (not suitable for hazardous particles).
- **Bonus 5-Pack of Filters:** Keep your vacuum performing at its best with the included 5-pack of replacement filters, providing you with extra filters to maintain optimal air quality and extend the life of your vacuum.

WHAT'S INCLUDED

Your Atrix Lil' Red Portable Canister Vacuum Premium Bundle comes with the following components:

LIL RED PORTABLE PREMIUM BUNDLE

ATRIX

This diagram illustrates the components included in your vacuum cleaner bundle. It features the Lil' Red Canister Vacuum unit (F), 6" Hose (A), Crevice Nozzle (B), Round Dust Brush (C), Upholstery Nozzle (D), Accessory Holder (E), Telescopic Extension 22"-36" (G), Carpet to Floor Tool (H), Floor Tool (I), and a 5-pack of HEPA Bags (J).

SETUP AND ASSEMBLY

Follow these steps to assemble your Atrix Lil' Red Canister Vacuum Cleaner:

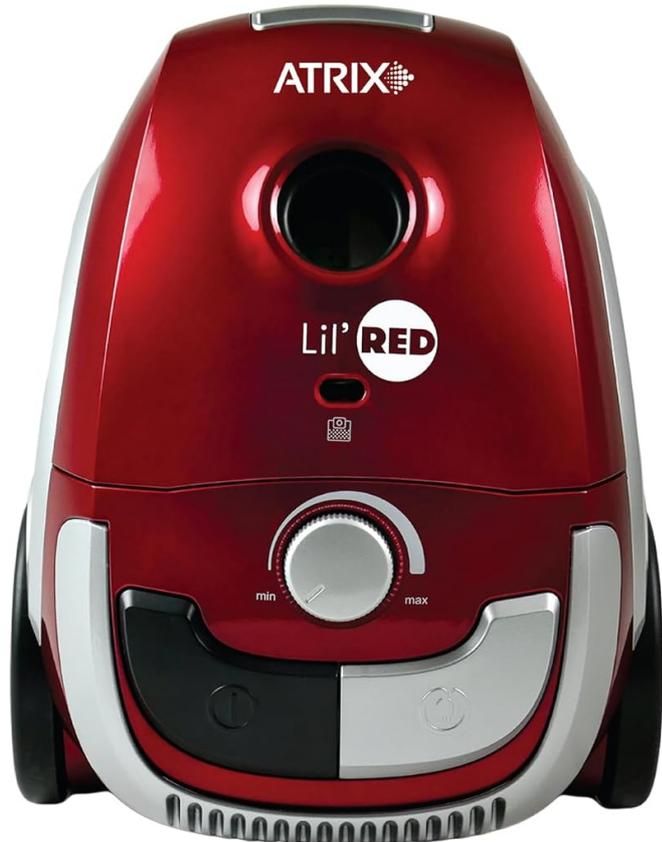

1. Insert the flexible hose into the suction inlet on the front of the main vacuum unit until it clicks securely into place.
2. Attach the telescopic extension wand to the end of the hose. Adjust the wand length by pressing the release button and sliding it to your desired height.
3. Connect your chosen cleaning tool (e.g., Floor Tool, Carpet to Floor Tool, Crevice Nozzle) to the end of the telescopic wand.
4. Ensure a HEPA bag is correctly installed inside the vacuum. Open the lid, position the bag, and close the lid securely.

LIL' RED CANISTER VACUUM, PREMIUM BUNDLE

OPERATING INSTRUCTIONS

Power On/Off: Plug the power cord into a suitable electrical outlet. Press the power button located on the main unit to turn the vacuum on or off.

Variable Speed Control: Use the variable speed dial on the top of the vacuum to adjust suction power. Turn the dial towards 'Min' for delicate surfaces like drapes or 'Max' for carpets and heavily soiled areas.

Auto-Retract Cord: To retract the power cord, gently pull the cord slightly and then release it. The cord will automatically rewind into the unit.

The image highlights the variable speed dial, allowing users to adjust suction power from minimum to maximum for different cleaning needs.

Using Attachments

- **Floor Tool / Carpet to Floor Tool:** Use for general cleaning of hard floors and carpets. The Carpet to Floor Tool (H) is specifically designed for transitioning between these surfaces.
- **Crevice Nozzle (B):** Ideal for reaching tight spaces, corners, and edges.
- **Round Dust Brush (C):** Suitable for dusting delicate surfaces, furniture, and blinds.
- **Upholstery Nozzle (D):** Designed for cleaning upholstery, curtains, and car interiors.

This image shows the vacuum in action, effectively cleaning a hard floor surface using the attached floor tool.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your vacuum cleaner.

HEPA Bag Replacement

The vacuum uses 2-quart HEPA bags. A full bag indicator on the front of the vacuum will illuminate when the bag needs to be changed.

1. Unplug the vacuum cleaner from the power outlet.
2. Open the vacuum's lid (usually by pressing a release button).
3. Carefully remove the full HEPA bag, ensuring the opening is sealed to prevent dust escape.
4. Insert a new HEPA bag, aligning it correctly within the compartment.
5. Close the vacuum lid securely.

Filter Cleaning

The 3-stage filtration system includes a foam pre-motor filter and an exhaust filter. These filters should be checked regularly and cleaned as needed.

1. Unplug the vacuum cleaner.
2. Locate and remove the foam pre-motor filter (typically near the HEPA bag compartment).
3. Locate and remove the exhaust filter (usually at the rear of the unit).
4. Tap filters gently to remove loose debris. If heavily soiled, rinse with lukewarm water and allow to air dry completely before reinserting. Do not use detergent or machine wash.

TROUBLESHOOTING

If your vacuum cleaner is not operating as expected, refer to the following common issues and solutions:

Problem	Possible Cause	Solution
No Power	Power cord unplugged; No power at outlet; Power button not pressed.	Check power cord connection; Test outlet with another appliance; Press power button firmly.
Reduced Suction	Full HEPA bag; Clogged hose/attachments; Dirty filters.	Replace HEPA bag; Clear any blockages in hose or attachments; Clean or replace filters.
Overheating / Shuts Off	Blocked airflow; Full dust bag; Dirty filters.	Check for and clear blockages; Replace HEPA bag; Clean or replace filters. Allow unit to cool down for at least 30 minutes before restarting.

SPECIFICATIONS

- **Product Dimensions:** 13.5" x 10" x 8"
