## SETUP AND ASSEMBLY

---

Before first use, wash all parts except the motor base in warm, soapy water. Rinse thoroughly and dry.

1. Place the motor base on a clean, dry, flat surface.
2. Align the work bowl with the motor base and twist clockwise until it locks into place. The handle should be positioned slightly to the right of the center.
3. Insert the desired blade or disc onto the drive adapter in the work bowl. Ensure it is fully seated.
4. Place the lid onto the work bowl, aligning the tab on the lid with the slot on the work bowl handle. Twist the lid clockwise until it clicks into place. The feed tube should be aligned with the work bowl handle.
5. Insert the appropriate food pusher into the feed tube.

## OPERATING INSTRUCTIONS

---

Follow these steps for safe and effective operation of your food processor.

1. Ensure the appliance is properly assembled and the work bowl and lid are securely locked.
2. Add ingredients to the work bowl. For slicing or shredding, place ingredients into the feed tube.
3. Plug the power cord into a grounded electrical outlet.
4. Select the desired speed:
  - **Speed 1 (Low):** Ideal for softer ingredients or lighter tasks.
  - **Speed 2 (High):** Suitable for harder ingredients or more intensive processing.
  - **Pulse:** Provides short bursts of power for coarse chopping or quick blending. Hold the button for continuous pulsing.
5. For slicing or shredding, use the food pusher to guide ingredients through the feed tube. Do not force ingredients.
6. When finished, press the 'Off' button or unplug the appliance.
7. Wait for the blade or disc to stop completely before removing the lid.

**Figure 9:** The food processor work bowl containing chopped tomatoes and other ingredients, indicating its use for preparing items like salsa.

## Using the Dough Blade:

The dough blade is designed for kneading various types of dough.

1. Assemble the food processor with the dough blade.
2. Add dry ingredients to the work bowl first, then gradually add liquids through the feed tube while the processor is running on Speed 1.
3. Process until the dough forms a ball and cleans the sides of the bowl.

**Figure 10:** A person removing kneaded dough from the food processor work bowl, demonstrating the dough blade's effectiveness.

## CARE AND CLEANING

---

Proper cleaning ensures the longevity and hygiene of your food processor.

1. Always unplug the food processor before cleaning.
2. Remove the lid, blades/discs, and work bowl from the motor base.
3. All parts, except the motor base, are dishwasher-safe (top rack recommended) or can be washed by hand in warm, soapy water.
4. Wipe the motor base with a damp cloth. Do not immerse the motor base in water or other liquids.
5. Handle blades and discs with extreme care as they are sharp.
6. For convenient storage, the accessories can be stored inside the work bowl.
