Y&O YO-M2

Y&O 10L Steam Whole House Humidifier (Model YO-M2) - Instruction Manual

Model: YO-M2 | Brand: Y&O

Important Safety Instructions

Please read and understand all instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious personal injury.

- Always place the humidifier on a firm, flat, water-resistant surface.
- Do not place the humidifier near heat sources such as stoves, radiators, or direct sunlight.
- Keep the appliance away from children and pets. The steam outlet can be hot.
- Use only clean tap water. Distilled or demineralized water is not required due to the steam technology.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not immerse the humidifier in water or other liquids.
- Regular cleaning is essential to prevent mineral buildup and maintain optimal performance.

Product Overview

The Y&O 10L Steam Whole House Humidifier is designed to provide clean and efficient humidification for large rooms, promoting a healthier indoor environment.

Key Features

- **Clean & Efficient Steam:** Utilizes heating evaporation technology for high-temperature sterilization (212°F) to produce pure warm mist, cooled to 122°F. Ideal for individuals with rhinitis and respiratory sensitivities.
- **Large Room Coverage:** Designed for whole-house humidification, covering up to 1000 sq.ft. Suitable for living rooms, bedrooms, offices, and maintaining plant health.
- **High Capacity:** Features a total 10L (2.64Gal) water tank capacity with two independent 5L removable tanks for convenient filling and cleaning. Provides long-lasting humidification for restful

sleep during dry seasons.

- **Multi-Function Controls:** Offers 3 mist volume levels (low/medium/powerful) with output ranging from 400mL/h to 1200ml/h. Built-in smart humidity sensor with 3 preset modes (sleep/auto/powerful) to meet various humidification needs.
- **Filterless Design:** Eliminates the need for filter replacements, simplifying maintenance.
- **Auto Shut-Off:** Automatically turns off when the water level is low for safety.

Setup Guide

Unpacking

Carefully remove all components from the packaging. Ensure all parts listed in the 'Included Components' section are present.

Component Identification

Familiarize yourself with the main unit, the two removable water tanks, the top lid, and the power plug.

Water Filling

1. Unlock the top lid by sliding the lock mechanism to the 'unlock' position and pressing the release button.
2. Remove one or both 5L water tanks using their integrated handles.
3. Fill the tanks with clean tap water. Do not exceed the maximum fill line indicated on the tanks.
4. Place the filled water tanks back into the main unit.

5. Close the top lid and slide the lock mechanism to the 'lock' position to secure it.

Operating Instructions

Control Panel Overview

The control panel is located on the top surface of the humidifier. It features touch-sensitive buttons and a digital display.

Figure 5: Detailed view of the humidifier's control panel and its functions.

- **Power Button:** Tap to turn the humidifier On/Off.
- **Mist Level Button:** Cycles through Low, Medium, and Powerful mist output settings (400mL/h - 1200ml/h).
- **Humidity Button:** Adjusts the target humidity level (50%, 60%, 70%). The humidifier will automatically maintain this level.
- **Timer Button:** Sets the operating duration (1H, 2H, 3H, 4H, up to 9H by stacking).
- **Sleep Mode Button:** Activates sleep mode, dimming the display lights for undisturbed rest.
- **Child Lock Button:** Locks the control panel to prevent accidental changes.

Care and Maintenance

Cleaning the Water Tanks

The Y&O humidifier features two independent 5L water tanks that are removable for easy cleaning. The stainless steel interior pot is dishwasher safe.

1. Unplug the humidifier from the power outlet.
2. Unlock and remove the top lid.

3. Remove the water tanks.
4. The stainless steel pot can be placed in a dishwasher for thorough cleaning.
5. Wipe down the plastic components with a soft, damp cloth.
6. Ensure all parts are completely dry before reassembling.

Descaling

Mineral buildup from hard water can affect performance. To descale:

- Mix a solution of water and white vinegar or citric acid.
- Pour the solution into the stainless steel pot and let it soak for a few hours.
- Gently scrub any remaining mineral deposits with a soft brush or sponge.
- Rinse thoroughly with clean water.

Filterless Design

This humidifier does not require any filters, eliminating the need for regular filter cleaning or replacement. This simplifies maintenance and reduces ongoing costs.

Troubleshooting

If you encounter any issues with your Y&O humidifier, please refer to the following common solutions:

Problem	Possible Cause	Solution
No mist output	Low water level	Refill water tanks.
No mist output	Unit not powered on	Ensure power plug is securely connected and unit is turned on.
Unusual odors	Mineral buildup or stagnant water	Clean water tanks and descaling heating element. Replace water regularly.
Water leakage	Improper assembly of water tanks/lid	Ensure tanks are correctly seated and the lid is securely locked.
Control panel unresponsive	Child lock activated	Deactivate child lock by pressing and holding the child lock button.
