

Kuulaa KL-YD42-L2

Kuulaa Portable Charger User Manual

Model: KL-YD42-L2

1. PRODUCT OVERVIEW

The Kuulaa Portable Charger is a compact and lightweight power bank designed for convenient on-the-go charging of your iPhone and other compatible devices. Featuring a built-in Lightning cable and a digital LED display, it offers efficient and user-friendly power management.

Key Features:

- **Built-in Lightning Cable:** Direct plug-and-play charging for iPhones without the need for an extra cable.
- **5000mAh Capacity:** Provides approximately one full charge for an iPhone and multiple charges for AirPods, making it ideal for travel.
- **Fast Charging & Recharging:** Supports up to 12W output for rapid device charging and quick recharging of the power bank itself (approximately 1.5 hours with a 9V-2A charger). Compatible with QC 2.0/3.0, FCP, and AFC fast charging protocols.
- **Ultra Compact & Lightweight:** Designed to be as small as a lipstick, easily fitting into pockets or purses for emergency power.
- **Digital LED Display:** Clearly shows the remaining battery percentage of the power bank.
- **Case-Friendly Design:** Supports charging iPhones without removing phone cases, provided the case thickness is less than 4mm.

2. SETUP

2.1 Charging the Power Bank

Before first use, fully charge your Kuulaa Portable Charger. A USB-C charging cable is included in the package.

1. Locate the USB-C input port on the side of the power bank.
2. Connect the included USB-C cable to the power bank's input port.
3. Connect the other end of the USB-C cable to a compatible USB power adapter (e.g., a 9V-2A charger for fastest charging) or a computer's USB port.
4. The digital LED display will show the charging progress, indicating the battery percentage. The power bank is fully charged when the display shows 100%.

Type C Port Fast Charging & Recharging

NOTE:Fast recharging requires 18W adapter and cable(3.3ft USB A to C cable is included).

3. OPERATING INSTRUCTIONS

3.1 Checking Battery Level

To check the remaining battery percentage of the power bank, simply press the power button located on the side. The digital LED display will illuminate and show the current charge level.

Upgraded LED Digital Screen

Accurate grasp of remaining power, precise to 1%

Figure 3: The upgraded LED digital screen provides an accurate display of remaining power.

3.2 Charging an iPhone

The built-in Lightning cable allows for direct and convenient charging of your iPhone.

1. Remove the protective silicone cap from the built-in Lightning connector.
2. Align the Lightning connector with your iPhone's charging port and firmly plug it in.
3. The iPhone should begin charging automatically. The power bank's digital display will show its remaining charge.
4. When charging is complete or you wish to stop, simply unplug the power bank from your iPhone and replace the protective silicone cap.

Note: For optimal connection, ensure your iPhone case thickness is less than 4mm. The power bank is designed to be compact and can be used while holding your phone.

5000mAh Capacity for iPhone

Equivalent to another large-capacity battery for your iPhone

iPhone 13	iPhone 12 Pro	iPhone 12
≈ 1.0 times	≈ 1.2 times	≈ 1.2 times

3.3 Charging Other Devices (USB-C Output)

The power bank also features a USB-C port that can be used to charge other devices that utilize a USB-C input, such as Android phones or other small electronics.

1. Connect a compatible USB-C to USB-C cable (not included) to the power bank's USB-C port.
2. Connect the other end of the cable to your device's USB-C charging port.

3. The device should begin charging.

4. MAINTENANCE

- Keep the power bank dry and away from moisture.
- Avoid extreme temperatures (hot or cold) as they can affect battery life.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.
- Periodically charge the power bank if it's not used for extended periods to maintain battery health.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging.	Cable not connected properly; faulty cable/adaptor; power bank fully discharged.	Ensure cable is securely connected. Try a different USB-C cable or power adapter. Allow a few minutes for the power bank to respond if completely drained.
Device not charging from power bank.	Power bank is low on charge; incorrect connection; device incompatibility; phone case too thick.	Recharge the power bank. Ensure the Lightning connector is fully inserted into your iPhone. Check if your phone case is thicker than 4mm and remove it if necessary.
Digital display not working.	Power button not pressed; device malfunction.	Press the power button firmly. If still unresponsive, contact customer support.
Slow charging.	Using a non-fast charging adapter; device drawing less power.	Use a 9V-2A power adapter for faster recharging of the power bank. Ensure your device supports fast charging for optimal speed.

6. SPECIFICATIONS

Feature	Detail
Brand	Kuulaa
Model Number	KL-YD42-L2
Battery Capacity	5000 Milliamp Hours (mAh)
Connector Type	Built-in Lightning, USB-C (Input/Output)
Max Output Power	12W
Fast Charging Protocols	QC 2.0/3.0, FCP, AFC
