Pegasi SPORT 500 Indoor Table Tennis Table User Manual

1. INTRODUCTION

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Pegasi SPORT 500 Indoor Table Tennis Table. Please read these instructions carefully before assembly and use to ensure safe and optimal performance of the product.

2. SAFETY GUIDELINES

Observe the following safety precautions to prevent injury or damage to the table:

- Ensure all bolts and fasteners are securely tightened before use.
- Keep children and pets away from the table during assembly and folding operations.
- Do not climb on or sit on the table.
- Use the table only on a flat, stable surface.
- The table is designed for indoor use only. Exposure to outdoor elements can cause damage.
- Utilize the wheel brakes when the table is in playing or storage position to prevent accidental movement.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Pegasi SPORT 500 Indoor Table Tennis Table (main components)

4. SETUP AND ASSEMBLY

The Pegasi SPORT 500 Indoor Table Tennis Table is delivered unassembled. Follow these steps for proper setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Frame:** Attach the main support legs and crossbars according to the diagrams in the separate assembly guide. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
3. **Attach Playing Surfaces:** Carefully place the two playing surface halves onto the assembled frame. Align the pre-drilled holes and secure them with the provided hardware.
4. **Install Wheels and Brakes:** Attach the wheels to the designated points on the frame. Ensure the wheels with

brakes are installed correctly and function properly.

5. **Install Edge Bar and Corner Protectors:** The table features a 12mm playing field with an edge bar and rubber corner protectors. Ensure these are properly aligned and secured to provide resistance and prevent warping.
6. **Attach Net:** Secure the net posts to the center of the table, then attach the net. Adjust the net tension as needed.
7. **Final Tightening:** Once all components are in place, systematically tighten all bolts and fasteners.
8. **Adjust Leveling Feet:** The table's base includes adjustable feet. Use these to ensure the table is perfectly level on uneven surfaces.

Stabiliteit

De randlijst van de tafeltennistafel bevat rubberen hoekbeschermers. De randlijst zorgt voor stabiliteit en voorkomt kromtrekken van het blad

5. OPERATING INSTRUCTIONS

5.1. Playing Mode

To prepare the table for a two-player game, ensure both halves of the playing surface are fully extended and locked into position. The net should be installed and properly tensioned in the center. Engage the wheel brakes to prevent movement

during play.

5.2. Solo Play Mode (Self-Training)

The Pegasi SPORT 500 features a self-training mode, allowing you to practice alone. To activate this mode, carefully fold up one half of the playing surface vertically and secure it in the upright position using the safety mechanism. The other half remains horizontal for play.

6. FOLDING AND STORAGE

For compact storage, the table can be fully folded. Release the safety mechanisms on both sides and carefully fold both playing surfaces vertically. Engage the wheel brakes to keep the folded table stationary. The compact design allows for easy storage when not in use.

7. CARE AND MAINTENANCE

- **Cleaning:** Wipe the playing surface with a damp cloth to remove dust and dirt. Avoid abrasive cleaners or solvents that could damage the finish.
- **Frame Inspection:** Periodically check all bolts and fasteners for tightness. Retighten as necessary to maintain stability.
- **Storage:** Store the table in a dry, indoor environment to prevent moisture damage.
- **Net Care:** Remove the net when storing the table for extended periods. Clean the net with mild soap and water if needed.

8. TROUBLESHOOTING

Issue	Possible Cause	Solution
Table is wobbly	Uneven floor or loose fasteners	Adjust leveling feet; tighten all frame bolts.
Table does not fold smoothly	Obstruction or misaligned parts	Check for obstructions; ensure safety mechanisms are fully disengaged.
Net sags	Insufficient tension	Adjust net tensioning system on the posts.
