Simon Rack MADERCLICK PLUS 3/400 1000

Simonrack MADERCLICK PLUS 3/400 1000 GALVA/WOOD Screwless Metal Shelf Instruction Manual

Brand: Simon Rack | **Model:** MADERCLICK PLUS 3/400 1000

1. INTRODUCTION AND PRODUCT OVERVIEW

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your Simonrack MADERCLICK PLUS 3/400 1000 GALVA/WOOD Screwless Metal Shelf. This shelving unit is designed for robust storage solutions, featuring a screwless assembly system for quick and easy setup.

The unit includes three shelves made of 12 mm chipboard, supported by a galvanized metal frame. Each shelf is capable of holding up to 150 kg, providing substantial storage capacity. The overall dimensions of the assembled unit are 1000 mm (height) x 1000 mm (width) x 400 mm (depth).

Image 1.1: Overview of the Simonrack MADERCLICK PLUS shelf, illustrating its dimensions (1000mm height, 1000mm width, 400mm depth) and the maximum load capacity of 150 kg per shelf.

Key Features:

- **Screwless Assembly:** Designed for quick and easy setup without the need for screws or complex tools.
- **High Durability:** Constructed with galvanized metal profiles and robust chipboard trays.
- **High Load Capacity:** Each shelf can support up to 150 kg, for a total unit capacity of 450 kg.
- **Safe Design:** Features smooth edges to prevent cuts during handling and use.
- **Adjustable Shelves:** Trays can be positioned in 3 different configurations (flat, container, inclined).

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling and using the shelving unit. Failure to follow these instructions may result in injury or damage to the product.

- **Weight Distribution:** Always distribute weight evenly across the shelves. Do not concentrate heavy items in one area.
- **Maximum Load:** Do not exceed the maximum load capacity of 150 kg per shelf. Overloading can cause structural failure.
- **Stability:** Ensure the shelving unit is placed on a flat, level, and stable surface. For added stability, especially in high-traffic areas or if storing very heavy items, consider securing the unit to a wall using appropriate fasteners (not included).
- **Assembly:** Assemble the unit according to the instructions. Ensure all components are correctly interlocked and secure before loading.
- **Children and Pets:** Keep children and pets away from the shelving unit during assembly. Do not allow children to climb on or play with the shelves once assembled.
- **Inspection:** Periodically inspect the shelving unit for any signs of damage, loose connections, or wear. Do not use a damaged unit.
- **Environment:** Use the shelving unit in a dry environment. Avoid exposure to excessive moisture or extreme temperatures, which can affect the wood components.

FLEX POINT CERTIFICATE

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Vertical Profiles (Uprights)
- Horizontal Stringers (Beams)
- Chipboard Trays (Shelves)
- Plastic Feet/Protectors

4. SETUP AND ASSEMBLY INSTRUCTIONS

The Simonrack MADERCLICK PLUS shelving unit features a screwless assembly system, making it quick and straightforward to set up. No special tools are required, though gloves are recommended for handling metal components.

Image 4.1: Visual representation highlighting the quick and easy, screwless assembly method and the inherent stability of the Simonrack shelving unit.

Assembly Steps:

1. **Prepare the Area:** Choose a clear, level, and stable area for assembly. Ensure sufficient space to maneuver components.
2. **Attach Feet:** Place the plastic feet onto the bottom ends of the vertical profiles.
3. **Assemble Base Frame:** Connect two vertical profiles with two horizontal stringers to form the base of the shelf. Ensure the tabs on the stringers fully engage with the slots on the profiles. A rubber mallet (not included) can be used to gently tap components into place if needed.
4. **Add First Shelf:** Carefully place a chipboard tray onto the assembled base frame.
5. **Build Upwards:** Attach additional vertical profiles and horizontal stringers to create the next level. Repeat the process for each subsequent shelf, ensuring each level is secure before proceeding.
6. **Install Remaining Shelves:** Place the remaining chipboard trays onto their respective frames. Ensure all trays are seated correctly and are level.
7. **Final Check:** Once fully assembled, gently rock the unit to ensure stability. Verify that all connections are tight and secure.

For visual guidance, detailed installation instructions are often provided by the manufacturer online. Please refer to the manufacturer's official website for any supplementary video guides.

5. OPERATING INSTRUCTIONS (USAGE)

Once assembled, the Simonrack MADERCLICK PLUS shelf is ready for use. Follow these guidelines for optimal performance and safety:

- **Load Distribution:** Always distribute items evenly across the shelf surface. Avoid placing all heavy items on one side or in the center without support.
- **Weight Limits:** Do not exceed the maximum weight capacity of 150 kg per shelf. Overloading can lead to structural damage or collapse.
- **Item Placement:** Place heavier items on lower shelves to improve overall stability of the unit.
- **Shelf Adjustment:** The chipboard trays can be configured in three positions (flat, container, inclined) to suit different storage needs. To adjust, carefully remove the tray, reposition the horizontal stringers to the desired height and angle, and then reinsert the tray. Ensure stringers are fully engaged in the vertical profiles.

6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your shelving unit.

- **Cleaning:** Wipe down metal surfaces with a damp cloth and mild detergent. Dry thoroughly to prevent rust. For chipboard shelves, use a dry or slightly damp cloth. Avoid abrasive cleaners or harsh chemicals.
- **Inspection:** Periodically check all connections to ensure they remain secure. If any part appears loose, gently tap it back into place with a rubber mallet.
- **Damage:** If any part of the shelving unit becomes bent, cracked, or otherwise damaged, discontinue use immediately and replace the affected components.
- **Environment:** Store the unit in a dry, well-ventilated area. Avoid prolonged exposure to direct sunlight or extreme temperature fluctuations.

7. TROUBLESHOOTING

If you encounter any issues with your shelving unit, refer to the following common problems and solutions:

- **Unit is Unstable/Wobbly:**

- Ensure the unit is on a level surface. Adjust if necessary.
- Verify that all horizontal stringers are fully engaged in the vertical profiles. Gently tap connections with a rubber mallet to secure.
- Check if the plastic feet are properly installed on all vertical profiles.

- **Difficulty Assembling Components:**

- Ensure components are aligned correctly before attempting to interlock them.
- Apply gentle, even pressure. A rubber mallet can assist in seating components without damage.
- Verify you are using the correct components for each step as per the assembly instructions.

- **Shelf Sagging:**

- Reduce the load on the shelf. Ensure the weight does not exceed 150 kg.
- Redistribute items evenly across the shelf surface.
- Inspect the chipboard tray for damage. Replace if necessary.

8. SPECIFICATIONS

Brand	Simon Rack
Model Name	KIT MADERCLICK
Model Number	8425437085963
Material	Galvanized Metal, 12mm Chipboard
Finish Type	Galvanized/Powder Coated & Natural Wood
Color	Verzinkt/Holz (Galvanized/Wood)
Number of Shelves	3
Load Capacity per Shelf	150 kg (330 lbs)
Item Dimensions (H x W x D)	1000 x 1000 x 400 mm (39.37 x 39.37 x 15.75 inches)
Shelf Thickness	12 mm
Item Weight	16.48 Kilograms (36.33 lbs)
Mounting Type	Floor Mount, Freestanding
Required Assembly	Yes
Included Components	Profiles, stringers, trays, and feet

9. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation provided with your purchase or contact the retailer directly. Simon Rack products are manufactured to high European quality standards.
