MAINTENANCE AND CARE

Proper care will extend the life and maintain the appearance of your Hot Wheels tote bag.

- **Cleaning:** The bag features a lined interior that can be easily wiped clean. Use a damp cloth to wipe down the surfaces. For more stubborn dirt or spills, a mild soap solution can be applied to the cloth before wiping.
- **Drying:** After cleaning, allow the bag to air dry completely. Do not use a washing machine or tumble dryer, as this may damage the material and structure.
- **Storage:** When not in use, the bag can be collapsed and folded into a compact size. Store it in a dry place away from direct sunlight to prevent material degradation and color fading.

TROUBLESHOOTING

This section addresses common observations and provides solutions for optimal use of your tote bag.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bag does not maintain its circular shape.	The bag may not be fully unfolded, or the base is not pushed flat.	Ensure the bag is completely extended and the circular base is pressed firmly against the bottom surface to provide stability.
Visible creases after prolonged storage.	This is a normal characteristic of the collapsible nylon material.	Creases will naturally diminish with regular use. For faster results, a gentle steam (avoiding direct contact with hot surfaces) can be applied.
Minor dirt or scuff marks on the exterior.	Typical wear from daily use or contact with surfaces.	Wipe the affected area with a clean, damp cloth. For tougher marks, a small amount of mild detergent can be used on the cloth, followed by wiping with a clean damp cloth.
